VOLUME VIII.

Another year-the seventh since the establishment of THE CARROS ADVOCATE-has passed around and with this letue ye comonce the eighth volume of our paper Taking a retrospective view of the past seven. years of our experience in the newspaper husiness in Lehighton, we find many things to encourage us in our future career. Since a readable and instructive family record of current events-a newspaper which none need fear to introduce into the family circle. the large increase in our circulation during the wear just passed is a guarantee, for there is no better evidence of the fact of a newspaper's success than -its subscription list. Seven years ago we issued the Anvocats in miniature shape, and with few patrons; today we send out 1000 copies of a 32 column paper at the low price of \$1.00 a year; a circulation equal to and exceeding many of the country newspapers of much older growth-Our advertising putropage is also large and increasing, thus evidencing the fact that the ADVOCATE is appreciated by our business men as a live medium for making their wants known. That we have not pleased everybody during the year just closed, we are well aware; we had not expected to do so, neither do we expect to glide through the coming year without making enemies for ourselves; to do so we must be more than nortal. Our readers must bear in mind that it is not the business of an editor of a newspaper to please everyone; an attempt to do so would be an evidence of weakness and imbecility not to be pardoned by an intelligent community. "How to the line let the chips fall where they may," should be the motto of all newspapers when discussing the questions of the hour. We shall in the future, as in the most endeavor to spoid all personalities, and shall permit nothing of an mmoral character to appear in our columns. Again thanking the people for the liberal patronage extended to us in the past, and respectfully inviting a continuance thereof, Very truly, H. V. MORTHIMAN.

Thus far the members who have arrived to say the least. Ireland is largely owned by non-resident proprietors, who simply receive the revenues from their lands, and seldom, if ever, see their tenants or have any interest in them, excepting to get the rents.

At the present time, as on many former occasions, the terms on which the tenants or casions, the terms on which the tenants occupy the lands have become very distasteful, if not oppressive. The tenantry demanders lief, and refuse to pay unless certain reductions and concessions are made by the lands lords. If this were all, the state of things would not be so serious. But the old hostility to the land proprictors is revived; the sion.
