THE SUN FOR 1880.

Tax Sux will deal with the events of the year 1889 it its own fashion, now pretty well understood by everyhedy. From Jacuary 1 until December 11 it will be conducted as a newspaper written in the English language and printed for the whole people.

As a newspaper. Tax Sux believes in getting all the news of the world promptly, and presenting it in the most intelligible shape—the shape that will enable its readers to keep well abreast of the age with the least improductive expenditure of time. The greatest interest to the greatest number—that is the law controlling its daily make-up. It now has a circulation very much larger than that of any other American newspaper, and enjoys an income which it is at all times prepared to spend liberally for the benefit of its readers. People of all conditions of life and all ways of thinking buy and read Tux Sux; and they all derive satisfaction of some sort from its columns, for they keep on buying and reading it.

These are the principles upon which The Sun will be conducted during the year to come.

The year 1880 will be one in which no patriotic American can afford to close his eyes to public affairs. It is impossible to exaggerate the importance of the political events which it has in store, or the necessity of resolute vig. liance on the part of every citizen who desires to preserve the Government that the founders gave us. The debates and acts of Congress, the attorances of the press, the exciting contests of the Republican and Democratic parties, now nearly equal in strength throughout the country, the varying drift of public sentiment, will all bear directly and effectively upon the twenty-fourth Presidential election, to be held in November. Four years ago next November, the will of the nation, as expressed at the polits, was thwarted by an abominable conspiracy, the premoters and beneficiaries of which still hold the offices they stole. Will the crime of 1876 be repeated in 1880? The past decade of years opened with a corrupt, extravagant, and insolent Administration intenched at Washington. The Sun did something toward dislodging the gang and breaking its power. The same men are now intriguing to restore their leader and themsives to places from which they were driven by the indignation of the people. Will they succeed? The coming year will bring the answers to these momentous questions. The Sun will be on hand to chronicle the facts as they are developed, and to exhibit them clear, yand fearlessly in their relations to expediency and right.

Thus, with a habit of philosophical good humor in looking at the minor affairs of iliquand in great things a steadhast purpose to maintain the rights of the people and the principles of the Constitution against all aggressors, The Sun is prepared to write a truthful, instructive, and entertaining history of 1890.

Its Introduction and World-renowned reputation was the death-blow to highpriced machines. THERE ARE NO SECOND-HAND WHITE MACHINES IN THE MARKET. IT IS MUCH LARGER THAN THE FAMILY MACHINES OF THE SINGER, HOWE AND WEED MAKE.
IT COSTS MORE TO MANUFACTURE THAN LITIES OF THE AFORESAID MACHINES.
ITS CONSTRUCTION IS SIMPLE, POSITIVE AND DURABLE.
