-Our public schools will close in about Minister Surprised. The members of the Evangelical Mission Church, Turner street, Alleutown, gave their popular pastor, Rev. James Bowman, and his lady, a most welcome surprise one evening last week by visiting his residence in succeeded in both surprising and gladden ing the good dominie all who heard his feeling address of thanks will bear apple nony to. The visitors numbered about one hundred people, young and old. At a late hour they departed, leaving the pastor, so faithfully laboring among them, much pleased with their visit and themselves, concious of having done a good act and of having been fully repaid for their own kindness, Altogether it was a time of joy-well fitted to inchease the interest of pastor and people in each other,-Allentown Democrat.

The Cont Trade.

The anthracite coal trade steadily in proves from week to week. The demand for coal is on the increase, and prices steadily advance. The impression has gone abroad that this is entirely the result of a short supply of coal by reason of an agreed-upon supposition among a process of the coal by reason of an agreed-upon supposition among a process and the courts persons who are defencedess through a lack of means and friends. proves from week to week. The demand for suspension among producers and carrying ompanies. This may have had some influence in awakening the attention of buyers to the fact that the producers of coal mean to demand remunerative prices for the future, and have come to such an understand, as a side-de-camp, with the brevet rank of ture, and have come to such an understanding in the premises as to assure all in the Hancock. trade that prices hence to the end of the year are much more likely to advance than on Monday night of last week, by shooting to decline. The chief stimulus,however, we herself in the breast. She wrote a letter are thelined to believe, is from the general | 8 improvement of all kinds of business, and and requesting him to attend her especially from the revival of the manufacture. She is married, and lives with her h iring industries, and notably the manufac-

ture of and demand for iron. This industry The Voltaic Belt Co., Marshall, Mich. is one that cannot be continued at fast and Will send their celebrated Electro-Voltale Belia to the afflicted upon 30 days trial, loose, produce largely one month and stop the next. The purposes to which iron and steel are to be applied are mainly contemplated far in advance, and the necessary preparations which have to be made are not only costly but require much time. So of the many railroads which these costly commodities have to complete and equip. They are prepared for long ahead as is also the capital necessary to carry them forward and, once started, they cannot very well halt. This is the situation just now. There ngton, D.
