Mountain Grove Camp Meeting. The association sends this, its ninth annual circular, to the ministers, members and friends of Methodism and religion.

The meeting will commence this year on Wednesday, August 11, and close Thursday, August 19.

The price of tickets will be \$7.00 for those in the circle and \$6.00 for the avenue.

Boarding for the term has been reduced to \$6.50. By the day the rate has been reduced to \$1.00, 50 cents per meal.

Children under twelve years will be charged half price. A reduction of 20 per cent. will be made to ministers and their families.

A committee has been appointed to provide good sleeping accommodations for transient visitors at 25 cents per night.

The Central Pennsylvania Conference at its session in 1879, by a vote of 122 to 46, requested camp meeting associations to close their grounds on the Lord's day.

In view of this action, and believing that camp meetings have offered the occasion for Sabbath desecration, and hoping that in this plan a remedy may be found for the evil, they have determined, as last year, to close the gates on Saturday night at 12 o'clock and keep them closed until after the Sabbath.

All other times during the meeting the gates will be open and admission free.

The religious services of the camp meeting will be in charge of Rev. W. W. Evans, presiding elder of the Danville district, assisted by other eminent ministers.

Parties desiring tents can secure the same by making applications to the Rev. H. E. Sutherland, of Hazleton.

Trains. A young man from Beaver Meadow, who gave his name as Cormack McGarvey, was taken to the hospital at 11 o'clock, on the 13th, as the result of an evening and a state of intoxication.

He had several squabbles on the street by being a little forward and impudent, but no serious result in those.

He started home at about 9 o'clock and when near the residence of Mr. Robert Turner on Broad street, he was brutally assaulted by some unknown person or persons and he laid frightfully out with a stone, the cuts indicate that a stone was used.

Mr. Turner heard the man say, "I am dying." He went out and found him lying on the pavement and bleeding profusely, he came up town, procured a policeman and the poor man was taken to the police office where he was taken care of and had his wounds dressed by Dr. Dietz.

The opinion of the doctor was that it had been done by a stone, but whether by falling or at the hands of some one could not be fully determined, as there was no serious injury to the face, the most natural conclusion is that he was assaulted.

He laid in the police office over night; an attendant being there to bathe his wounds in order to keep down inflammation. This morning he felt well enough to attempt to walk home.

When questioned in reference to how it happened he stated that he was struck by somebody, but did not know who, and said that one blow done it. The parties who could commit such a despicable act should be brought to justice and receive the full punishment of the law.

Match Chink Items. The enumeration of our population just concluded, shows a decrease since 1870.

—Fourth of July passed off as in former years without any special celebration. The display of fireworks in the evening was very fine, and the noise of the crackers, crackers, crackers, equalled other days.

No accidents occurred in town of any moment, excepting the usual burning of the fingers of the boys. In Upper Match Chink some of the boys got into a wrangle and succeeded in punching each other in an admirable manner.

One of the participants was seriously hurt, but he is now getting along.

—Saturday the town filled up with strangers, who remained over the fourth. The American and Mansion Houses were filled to overflowing.

—St. Mark's Episcopal church has purchased the Mechanics' Hall property on Church street, with the view of constructing an early day a new parish school for the parish school connected with the church.

—The graduates from our High school are as follows: Estine Hazard, Jessie P. Fells, A. Christian, and Lizzie McMillen.

The average of the country near us, as taken from the report, was 993. The schools closed on Wednesday last week, after a very successful session.

—Saturday evening a party of young men, consisting of C. E. Butler, W. G. Leung, John Kline, W. R. Stroh, and B. F. Bartsch, left for Strasburg, to spend the Fourth and Fifth.

They returned last night, and all delighted with their trip, and told in their praise of the kindness of the people of Strasburg.

—The Fourth and Fifth of July, 1888, will never be forgotten by them as one of the happiest periods of their lives.

—The circus of Welch & Sands' showed in East Match Chink Thursday. Quite a number of people from the country near us, and from all appearances the aggregation was well patronized.

—The examination of our borough teachers by County Superintendent Hoffer, took place on Thursday last week. It was expected the Board will reappoint all present incumbents who may be applicants.

—The Board of Education has received by mail a number of applications for positions by invariably recommending all teachers proven worthy.

—Last week the census enumerators of East Penn, Penn Forest, Upper and Lower Lehigh, and the country near us, were at Strasburg, to spend the Fourth and Fifth.

They returned last night, and all delighted with their trip, and told in their praise of the kindness of the people of Strasburg.
