LARMERS' COLUMN.

Erms and Electricity Spavin, Ring-Bone, Etc., Methods of Treatment.

rse is our noblest domestic animal. structure, imposing m appearance B of intelligence and when kindly treated ing in return an affection almost human i its nature, and performing to the last point condurance the tasks imposed, and we may dd is too often subjected to the hardest and arshest usage of any of our animals, and robably for this reason is the most liable to isease and blemishes.

Many an otherwise valuable horse is disgured for life, and rendered more or less ufil for service by ugly spavins, unsightly Sometimes these ficulties are not of a serious nature, that do not lame the horse, or make any ma-rial difference in the ability for performreceived and have been as the second status, tona-received and the second status, to a second status, to a second status, the second status and status an ing work on the farm, out such a unian are rendered unadeable, or if disposed of, it must a positive and radical cure for Nervous De-be at a smarifice of price. Generally, how-blifty and all Nervous Complaints, after hav-ing tested its wonderful curative powers in the cause is removed, which is very seldom to unamal of cases, has felt it has duty to and is often entirely ruined for travel or make it known to his smiftering fellows. Act-

work. Spayins are most generally produced by a train or overwork in drawing. The bony verescence or autotance of waich it is com-losed will grow quite fast and semetimes give the appearance of an enlarged joint, nd unless attended to in season will scon-secone difficult to manage. Many reme-ties have been devised for this difficulty, but unliky with very indifferent messes. Dif-

ally with very indifferent nuccess. Blis-ing is generally resorted to whon any-ng is attempted, and will in some cases, ed in." "Is your sister cross eyed?" asked the spayin but will not remove the Lunch dready formed or cure the lameness, besides be process is a pairful one, producing sore less and renduring the horse more or less

The process is a partial one, producing sore nees and rendering the lorse more or less unfit for service.
 Some fear years ago Dr. B. J. Kendall of Enoshirgh Fails, VL, having a horse touble divide the spavin tried bistering to cure it. The operation appeared so painful and unstimulation and more certain in its effect belief that a remedy less torturing in its application and more certain in its effect of the devised. Accordingly the Doeter at himself to work, and being a practical physician and drugids, succeeded in preparing a remedy that since its introduction to public notice, has achieved a necess that there years since, hearing of several cases where "Kendall's Spavin Cure," as the remedy is termed, had been used with goard affect, I took some pains to ascertain the several of our leading agricultural journals. I give a low instances to which I a merise of any size a tow instances to which I a merise and size of haif a hen's egg and motion gavin of the size of half a hen's egg.
 Men Dr. Marchia's Uterine Cutholicom

ng a spavin of the size of half a hen's egg ducing severe lameness. After try ordies with no effect, and

rning of "Kendall's Spavin Cure," a bot was obtained and used according to diretions. The application produced no blis-ring, did not appear to be painful, and left p scar or callous. A one dollar bottle was sed and it cured the spavin, stopping the meness and removing the bunch. I ex-mined the large state of the niued the legs carefully and could find no Herense in the size of the joints, and could a tell upon which the spavin was located, to here has been worked hard since, and

on examining him the second time a while ce, after an interval of three or four years, a pleased to find no ruturn of the difficul-in any shape or manner. One leg is as ad and perfect to all appearances as the Mr. N. F. Weid, also of Berkshire, Vt., "Well, ian't three a quarter of twelve?"

reated a bad case of spavin with the rem-dy, and in six weeks the lameness was all ne, the bunch nearly removed, and he naidered the horse cured. There has been o return of the difficulty since, although is horse has been worked burd. A. A. jury or disease entities to pension.
