Ma. Eurron: —We shall answer the question which is so often asked, "Why is the large Honey Comb Quilts. I case Honey Comb Quilts.

Canicular Days. Canicular comes from the Latin word canicul-a little dog. In the southern heavens there is a constellation of stars known by the name of Canis Minor, or, a little dog; and directly south of it we week, Prof. S. H. Hollinger, of Summit Hill, have the constellation Canis Major, or, big was chosen principal and Miss Eila Phifer, dog. These constellations were so called by the ancient Chaldaic shepherds, who imagined they saw the outlines of animals in th with the well-known notion house of Young, groupings of the stars, hence the different Smythe, Fields, & Co., of Philadelphia, is names of the constellations. The largest spending a two week's vacation with his star in the Canis Major is at the tip of the dog's nose and is called Strius, or the Dog -We had the pleasure of meeting O. A. star. This star is, by the way, the larges Rinker, of Harleton, in town last week, and brightest fixed star visible in the heavens. It is at present visible only in winter -Miss Kurtz, of Kutztown, is the guest not later than April, at which time it sets at
