

THIS AND THAT.

—Irish land owners understand just enough about farming to know how to raise their rents.

—A Michigan Journal says: "In this State etiquette permits a bride to be married without gloves, because that's the way she handles the groom after marriage."

PUZZLE.

Wear morials racked with pain, Ever seeking—but in vain, Sweet relief from mortal life: Try, I pray, *Ward's Liver Pills!* As sure as morning's light Comes after shades of night, O'er thy life, health's sun divine Shall arise, in joy and mirth, Light and health, and joy and mirth, In sun-beams sparkle round thy health; Vital energy shall start, Eyes to muscle, brain and heart; Bid the liver of its load, Purify the life, the blood, Intervent disease and death, Leaving fragrance on thy breath, Lighten life of half its ills, Safe and potent Liver Pills.

—John Bull's very latest: "Why is the American eagle gazing on the setting sun like an heir entering on his possessions? Because he has got his back-rest."

STOP THAT COUGH.

BY USING DR. GERMAN'S COUGH AND CONSUMPTION CURE.

Wanted to give relief or money refunded. READ THE FOLLOWING LETTER WHICH REFUSES: Messrs. Howarth & Ballard.

Gentlemen: I take pleasure in recommending Dr. German's Cough and Consumption Cure, as I have suffered with a severe cough since last May. Have used all kinds of Cough Mixtures, but could get no relief. Mornings after getting up from my bed I was so choked up that I could hardly breathe; also frequently vomited severely. A friend directed me to use Dr. German's Cough and Consumption Cure. I did so, but with little effect at the time, but after using I changed my mind, and I can conscientiously say, after using only one bottle I did not only obtain relief, but am not troubled with that illness in the morning. My cough has stopped, and I can obtain a good night's sleep—something I have not had for weeks before. Will close by saying if this letter will be of any benefit to you, you may have my consent to make it public. Yours very respectfully, J. E. DOERHNER, 171 Bleeker St., Utica.

Remember after using 3 of a bottle and you are not satisfied, return the bottle and get your money as we sell no cure, no pay, price 50 cents and \$1 per bottle. As we are authorized to sell on these terms. Agent for Lehigh and vicinity, A. J. Durling, Nov. 8-11 y. o. w.

"Molly," said an American Home Ruler, "if I ever take it into your head to poison me, flye ye mind, be sure ye give it to me in a glass of the real old stuff. I would like to die neat and comfortable like."

The Voltaic Belt Co., Marshall, Mich. Will send their celebrated Electro-Voltaic Belt to the afflicted upon 30 days trial. Speedy cures guaranteed. They mean what they say. Write to them without delay. nov.12-13 y.

A jury who had been directed to bring in a prisoner guilty upon his own confession and plea, returned a verdict of not guilty, and offered as a reason, that they knew him to be such a liar that they could not believe him.

A Wise Devotion.

"Dear Mr. Wilder, I want you to tell me how you kept yourself and family well the past season, when all the rest of us have been sick so much, and have had the doctors visiting us as often as the plague." "Bro. Taylor, the answer is very easy. I used Hop Bitters in time; kept my family well and saved the doctor bills. Three dollars' worth of it kept us all well, and able to work all the time. I'll warrant it has cost you and the neighbors one or two hundred dollars apiece to keep sick the same time." "Dear Mr. Wilder, I'll use your medicine hereafter."

One of the Hackensack valley ladies has just come out with an elegant solitary diamond engagement ring, and it is the hardest thing in the world for her to try to look unconcerned about it.

Heart and Sickness.

During the hot and sultry weather an unusual amount of sickness prevails in every community, especially among the young and children, caused by the fermenting miasma gas or noxious matter floating in the air, arising from decaying vegetation. This bad air affects everything, and the organs in a semi-fermenting, which, when taken in the system is life leaving, and operates on the whole, starting in the bowels and soon producing violent fermentation, causing diarrhea and dysentery. It has been found that the use of Speer's old Port Grape Wine, of New Jersey, has an extraordinary effect in checking this fermentation and restoring the system to its original strength and vigor. Invalids and debilitated persons have found it the most nutritious and strengthening tonic in the market, and the greatest help in resisting the noxious effects of the vitiated atmosphere. The wine, so long established, has become the standard wine upon which physicians rely as the most rich in body and genuine in character, containing the great amount of medicinal properties with the least intoxicating qualities. Speer's vineyard produces a large yield this year than usual, and he has reduced the price of his wine so that all persons now purchase it at druggists at \$1 per bottle. None of this wine is bottled until it is four years old—Gazette. For sale by A. J. Durling, C. W. Horn, Lehigh, Lehigh & Zern, Weisport.

—It is said that women live on love. Small young men will be interested to learn that the love referred to is for baked beans, beef soup, onions, and new spring hats.

—Thousands of soldiers and heirs are entitled to Pension, with payment from date of discharge or death, if applied for before July 1, 1889. Wound, accidental injury or disease entitles to Pension. Bounty and back pay collected in advance. Pension secured. This firm established in 1860. Address, enclosing stamp, EDSON BROS., U. S. Claim Attorneys, 711 G Street, Washington, D. C.

"If the county would give me as much money as it paid for sending me here," remarked a vagrant in jail, "I could buy an outfit and go prospecting." Instead of using the resources of the country, they stick us in here and board and lodge us for nothing. Love's a queer lay-out."

—In consequence there is continual inflammation, causing gradual or rapid loss of lung substance, according to its intensity, which depends greatly upon the severity and frequency of colds contracted. Dr. Browning's C. C. Cordial is wonderfully efficacious in the reduction of this inflammation, and has effected cures in all cases. For sale by the proprietor, Dr. Browning, 1117 Arch St., Philadelphia, or all druggists at 50 cents per bottle. Give it a trial.

—A legislator represented a back district, but had "influence" over there. He attended Episcopal service on Sunday. "How did you like it, Colonel?" "Well, I was a little put out at first, but I soon got used to it, and sat and ate and ate and not as good as any other."

VOICE OF THE PEOPLE.

HILLSDALE, Mich. R. V. Pierce, M. D. I had a serious disease of the lungs, and was for a time confined to my bed and under the care of a physician. His prescriptions did not help me. I grew worse, coughing severely. I commenced taking your Medical Discovery, which helped me greatly. I have taken several bottles, and am restored to good health. Respectfully, JUDITH BURNETT.

FARMERS' COLUMN.

FARM NOTES.

—John Amey, of Newlin, Chester county, has secured thirty bushels to the acre in his wheat crop.

—A quart of milk to every six inhabitants is the rule by which they calculate the amount of milk required to supply the population of any city.

—Mr. D. L. Lesher, of Greens township, Franklin county, planted Hungarian grass in May last, which now measures 3 feet and four inches in length.

—Two owners of one flock of sheep in Humboldt county, Nevada, sold a few days ago, 20,000 pounds of wool, this year's clip, an average of six pounds per fleece.

—Thousands of worms, in shape and color like the cut worm, put in an appearance in the two oat fields of Solomon Deshoar, in Fernangh township, Juniata county, last week.

—Texas commenced raising wool in 1845, and has now 4,000,000 sheep. It is estimated that Montana will produce this year 80,000,000 pounds of wool, nearly as much as California.

—A Maryland farmer has discovered that potato bugs boiled will turn leather into a beautiful scarlet color, and a company will be formed to make dyeing mixtures from potato bugs.

—Peaches require a warm, light soil. If the people would take pains to raise seedling peaches they would gradually get a race of trees much harder than those brought from a more southern climate.

—We have not only a greater variety of fruits than any other country, but our climate gives them to us in succession, which adds greatly to their value and to the comfort and enjoyment of our people.

A farmer in Lycoming county recommends as a sure cure for snake bite a tea made from the plant, herb known as "Robin's plantain," which he says is to be found upon almost any farm in the meadow ground.

—Feed horses according to their age and work required of them. Full feeding and little work disorders the digestive organs. Select only such hay as is the best quality; that of inferior quality is dear at any price, as there is no proper nourishment in it.

—Le Duc's plans for his experimental tea farm are well advanced. The applications for tea plants from American farmers are increasing, and a farmer in Georgia has actually raised tea equally as good as the imported article worth fifty cents a pound.

The Washington Reporter says that Samuel R., aged 14 years, of Samuel Gierber of South Strabane, Washington county, in one day found ninety-five dozen of oats, from 9 o'clock till sundown. He also gathered nineteen dozen of it. This is all ordinary birds.

—The total wheat crop of the United States in 1879, according to estimates of the Agricultural Department, was 449,000,000 bushels, and it is believed, with a favorable change of the harvest, that the product of this year will exceed it to the amount of about 20,000,000 bushels.

—A Devon, now is reported that made a pound of butter in 15 pounds in winter, with pasture only in summer, and in winter eight ears of corn and two quarts of bran fed twice a day. She gave 23 per cent. more milk when milked three times a day.

—In all probability the potato is the most valuable vegetable produced, taking in the world over; certainly there is no single one for which so much labor and money is expended, and none so universally consumed. The idea of a dinner without potatoes is the best illustration of the idea of the play of "Hamlet" with Hamlet left out.

—Last year's wine product in France aggregated 565,400,000 gallons, or 250,000,000 gallons less than the previous year, showing the enormous falling off of nearly one-half. The insect pests which have infested many of the wine districts for years have not been the only cause of the diminished yield, but it is largely attributed to the unfavorable weather of the past year.

—It is asserted that fifteen or sixteen years ago Chicago merchants obtained their supplies of cheese from the East, while at the present time as much as 100,000,000 pounds of the compound pass through that city annually for Eastern markets. During the same time prices have fallen about 20 per cent, but are still sufficiently high to make the business very remunerative.

—Parsnips, carrots, Swedish turnips, and especially mango-walrus, will all fatten pigs. The roots ought not to be given in a raw state, but always cooked and mixed with beans, peas, Indian corn, oats or barley, all of which must be ground into meal. When pigs are fed on such cooked food as we have stated the pork requires a peculiarly rich flavor, and is much esteemed, especially for family use.

—The greatest enemy to young fruit trees is the crows, and the month of June is particularly the time when their eggs are deposited into the trees from which come the larvae. There is no better season than now to destroy them by digging about the roots and following them into the trees through the bark. Timely attention will save the thrifty young fruit trees, an important item of interest to the farmer and nurseryman.

—The Mississippi Valley Horticultural Society offers a premium of \$100 for the best collection of apples by any state or local society, or by any individual, not to amount more than 100 sorts, and \$50 for the second best. For the best collection from an individual, not over forty varieties, the premiums are \$30 and \$20, and the same prizes offered for the best ten varieties south of 37 deg.; for the best ten north of 41 deg., and for the best ten north of 41 deg. These and other liberal premiums will be likely to bring together a large collection of fruit and make the coming exhibition one of interest.

—Despite the very high butter produce of some cows reported from time to time, the average butter produce of the United States is much below what might be expected. Professor Atwood, in referring to the exaggerated claims in reference to the production of butter in the *Quebec Gazette*, says: "The manipulation to increase the yield of the manipulation of Oregon county, New York, is only 185 pounds per cow. For the whole country, deplorable as the fact is, the average butter produce cannot be over 125 pounds a year for each cow, and is more likely to be as low as 120 pounds. Seven millions of cows would then produce 875,000,000 pounds of butter annually." Does not Canada, as well as the States, need more careful selection of dairy stock?

—The present cattle grazing bill of the United States (which reads) is about 2,000 miles in length and 230 in breadth. It stretches from the Rio Grande to Matlahola.

INSURE YOUR LIFE.

IN THE National Mutual Aid Association. W. B. WARNER & CO., General Managers Eastern Department 25 & 30 South 3rd St., Erie, Pa.

4,010 CERTIFICATES ISSUED. The only safe and reliable institution that pays dividends to its members. No surplus divided among the officers or directors.

Benefit of the Assurance. ENDOWMENT PLAN: By paying one dollar membership fee of \$10 per year, the policyholder, when he reaches the age of 25 and over, who has his first class health record, may receive a certificate of membership as follows: 10 to 25—\$100—payable at death or expiration of 25 years. 25 to 35—\$200—payable at death or expiration of 25 years. 35 to 45—\$300—payable at death or expiration of 25 years. An assessment of one dollar upon each member will be made after each class, except when there is a surplus enough in surplus fund to pay said class.

LIFE PLAN. Same fee and assessment as above except no holder of a "Life Certificate" will at any time be required to pay a "Premium" or "Contribution." No surplus divided among the officers or directors. Life Certificates will be issued as follows: 10 to 25—\$100—At death only. 25 to 35—\$200—At death only. 35 to 45—\$300—At death only. 45 to 55—\$400—At death only. 55 to 65—\$500—At death only. JUMBLES.

—The genral adpshin of fonetic sprin wud nok Josh Billings him a kite.

—Little Johnny: "Mamma, can I give Carlo this lump of sugar?" "No, my child, it spoils the teeth; eat it yourself."

—The time of the spicing and pickling of fruit has come, and the economical housewife may be seen going through her husband's vest pocket for cloves.

—Strong men shudder and grow sick as the fearful news floats through the newspapers that "milliners are returning from Europe with models of the coming bonnet."

—A reporter calls at the banking house and takes notes and it's all right. Along comes another fellow, takes some notes and gets jugged for five years. This illustrates the privileges enjoyed by the press.

—It was "Dizzy" who defined the difference between a mishap and a misfortune. "If," he said, "Mr. Gladstone should tumble into the Thames, that would be a mishap; if somebody should fish him out, that would be a misfortune."

—John Bull and his friend Paddy were enjoying a ride, when they came in sight of an old galloway. John thought he would make a butt of Pat, and so he said: "You see that Pat? And now where would you be if the galloway had its due?" "Riding alone," coolly returned Pat.

—Who shall portray the agony of the young man who sits in the front parlor with his beloved during a hot Sunday evening, and gradually finds that his collar is going dead back on him by entering into partnership with the perspiration, and that soon he must join the old folks in order to make it appear that he came as much to see them as he did the girl.

—"Bah! to think I should come down here to repose myself a while on the breast of my mother, Nature, and draw new life from her sweet breath, and to avoid every sordid earthly care; then to find that my landlady is sister to the old woman I owe a year's rent to, and that the old woman is coming down to-morrow to repose on the bosom of Nature, and so forth, and so forth, and so forth."

—A Freeman reporter has been investigating and finds that 20,000 cigars are sold weekly in Kingston, one-third of which are smoked by young ladies of that city.

—During the late Zurich singing festival the concert hall was placed, by means of a Bell's telephone, in communication with Basle, and the choruses, it is said, were distinctly audible there.

—A woman in Marshall county, Kansas, has had bad luck with husbands. Two of them were hanged by vigilance committees, a third was sent to the penitentiary, an a fourth committed suicide. Nothing, bad has yet happened to the fifth.

—In 1326 the father of the Doge of Venice preferred always going barcheaded to pulling off his cap to his son, until the Doge thought of placing a golden cross in front of his cap. The father then reassumed his cap, and when he met his son pulled it off, saying, "It is not him I salute, but the cross," and from that time the cross became an ornament of the dual cap.

—On the astonishing speed of the animal called the jack rabbit, a writer in a Colorado paper says: "I never saw anything that can run as fast as a jack rabbit. A long-legged greyhound undertook to catch one, and after playing along for a short time and encouraging the dog, the rabbit suddenly started off and distanced his enemy in about three seconds. The dog gave up the chase at once returned to the wagon the most crestfallen and disappointed and meanest-looking dog I ever saw."

—Professor—"What are the constituents of quartz?" Student—"Pints." A bland smile creeps over the class.

—We give it up—the breath of life.

A NEW LIQUOR STORE

IN LEHIGHTON, H. E. BOHLEN, formerly of ALLENTOWN, respectfully informs the Hotel Keepers and Citizens generally that he has opened a NEW LIQUOR STORE in Fawcett's Building, nearly opposite the "Carbon House," on
