DEMOCRATIC

day nominated for Congress General George R: Supwilen, First District Daniel Dougherry Esq., Second: Hon. Barrael J. Handall, Phirds George Bull, Esq., Fourth; Mr. Johnthen R. Falwell, Fifth. Four candidates comminuted for the State Senate, and twenty-eight for the House of Representa-

. We have evidence of the fact that Hon. J. G. Zorn will be triumphantly re-elected til the Sinte Legislature. A visit to several shys convinced us that this Dr. is not only popular with the members of his own party, but, that a large number of Republicans will show their appreciation of his course during his first term by tendering him a complimentary vote; and this same may also be said of Hon. Michael Casaily, whose name we found to be coupled with that of Hon. J. G. Zera in almost every instance, Both, gentlemen will undoubtedly be resisted to the Legislature.

do haraby recognise the conferees appointed by A. A. Chas as chairman, viz D. P. Berton and proved or encourage payment of such dobt, pension, or reward. Notedly expects or assessment and action. To propose a wants such unatural action. To propose a wants such unnatural action. To propose the representatives of the regular bemocrate in said county to despite a providing him and thus to disconnected the hereby of secretion in every form and better the regular bemocratic organization.

This effectively deposed of the Beamish conferees, and Mr. Dunning's candidacy disappeared.

A ballot was then taken, resulting in 15 yotes for Col. Klatz, which being a majority. ctions of the county during the past few

Form, Siekies in his speech for Gen. Hands, said: "Among all the fillestrations men who have been called to the ghief magistracy, none have more sprophed by a scraphions adherance to the best fraditions of air public fic. Unused to the favor of the protected from political organizations, and never seeking office, his morination by a vert state that they organize and fax a time and place cannity is a pledgy of fraternal feeling that will because a guarantee of peace and union in his election. I know Gen. Hancock. He in his cleation. I know Gen. Hancock. He follows: will do Bigduty. Politicians will not control him. "Neither factions nor sections will intimidate him. He will execute the laws of the hold with all their safeguards and guarantees without fear or favor. The supporthe receives in the South rebulkes if it does not silonce geographical prejudice.

And if the North refused its favor to one of the greatest of its commanders the reprouch

A WONDERFUL DISCOVERY.

A Decdorized extract of Petroleum, The Only Article that Will Restore Hair on Bald Heads.

What the World has been Wanting for Centuries.

The greatest discovery of our day, so far as a large portion of humanity is concerned, is CAR-BOLANIC, an article prepared from petroleum, and which effects a complete and radical cure in case of baidness, or where the hair, owing to diseases of the scalp, has become thin and tends to fall out.

It is size a speedy restorative, and while its use secures a luxuriant growth of hair, it also brings back the natural color, and gives the most complete sat isfaction in the using. The falling out of the half, the accumulations of dandruff, and the premature hunge in color are all evidences of a diseased condition of the scalp and the glands which nourish the hair. To arrest these causes the article used must possess medical as well as chemical virtues, and the change must begin under the scalp to be of permanent and lasting benefit. Such an article is CARpoliting, and, like many other wonderful discoveries, it is found to consist of elements simost is
their matural state. Petroleum oil is the article
which is unde to work such extraordinary results;
but it is after it has been chemically treated and
completely decolorized that it is in proper condition
for the toilet. It was in far-off Russia that the
effect of petroleum want the balances and observed. possess medical as well as chemical virtues, and the effect of petroleum upon the halr was first observed, a Government officer having noticed that a partially hald-headed servant of his, when trimming the lamps, had a habit of wiping his oil-beamesred hands in his scarty locks, and the result was in a few months a much finer head of black, glossy half-than he ever had before. The oil was tried on horses and cattle that had lost their hair from the cattle plague, and the results were as rapid as they were marrelous. The manes and even the tails of horses, which had fallen out, were completely restored in a few weeks. These expriments were bradled to the world, but the knowledge was practically and the state of the world, but the knowledge was practically and the state of the world, but the knowledge was practically and the world, but the knowledge was practically and the state of the world, but the knowledge was practically and the state of the world, but the knowledge was practically and the state of the world, but the knowledge was practically and the state of the world. tically useless to the prematurely bald and gray, as no one in civilized society could tolerate the use of refined petroleum as a dressing for the hair. But the refined petroleum as a dressing for the hair. But the shill of one of our chemists has overcome the diff-culty, and by a process known only to himself, he has after very claborate and coally experiments, suc-ceeded in decolorising resused petroleum, which renders is susceptible of being handled as daintly as the famous our de cologue. The experiments with the decolorized liquid on the human hair were atended with the most astonishing results. applications, where the hair was thin and failing, gave remarkable tone and vigor to the scalp and hele. Every particle of dandruff disappears on al dressing, and the liquid so searchmode from parrolems, and, by some mysterious operation of mainte, the use of this article graduatry imparts a beautiful light-brown color to the Lir which by continued use, deepens to a black. The color remains permanent for an indefinite length of time, and the change is so gradual that the most intimise friends can scarcely detect its progress. In a word, it is the most wenderful discovery of the age, and evol calculated to make the prematical track and and one scales. made from petrolemm, and, by some mysteri

turely baid and gray rejoice. We navise our readers to give it a trial, feeling retialled that one application will convince them of its wooderful offects.—Pilisburgh Commercial of Out, 24, 182

At, 25, 1857.
The prices is telling its own story in the hands of measures who are using it with the most gratifying and encouraging results? and encouraging results:

W. H. Burta, & Co., Fifth Avenue Pharmacy, says.

We have said preparations for the hair for upward of twenty years, but have never had one to sell so well or give set huniversal satisfaction. We therefore recommend it with condience to our friends and the general public.

Mr. Gerravus F. Hatt, of the Oates Opera.

Trough, write: "After six weeks" use I am convinced, as are also my comrades, that your 'Carbonius' has and is preducing a wonderful growth of half where I had home for years.
