The Cont Trade. The following circular was issued on Sat-

PHILADELPHIA, Sept. 25, 1980.—To the onl Operators of Schuylkill County: Gen-omen - The anthracite coal interests have i'd out by every one in the most perfect good faith. Respectuity; Witinms H. Johns, John Milnes, J. In E. Graeff, R. C. Thomas, Committee Schuylkull Coal Exchange.

Committee Schuylkill Coal Exchange matter. We refer to the Committee Scal tracte continues very National Bank, Washington much is the same condition as indicated by ur last week's report. The scarcity of yes, at rels then siluded to has continued to such of the U. S. Patent Office, an extent sa to cause a large accumulation and embers of Congress from over Abilities LOUIS BAGGER & CO. ters of Fatents and Attornoys at Law. duction in consequence of the loss of service of many thousand of loaded ears now standing at wherves awaiting vessels. This has multed especially in the Lebigh and Wvobeen agreed by all the coal companies to suspend the production of coal for the first live working days of October, namely, the Ist, 2d, 4th, 5th and 6th, and this union of action may, we think, so ely benceopted by the trade as a pretty certain indication that it is not the intention of the managers to it is not the intention of the managers to ermit any blockeds of coal, no matter from what cause, to reduce or affect prices or is given the grent producing coal companiintegrated that They will make a short half in production until the collieries can, by a fiver supply of coal transportation, be rid of the present stock of coal. This mode of shortening the oversupply of coal, rather than have resort to a reduction in the prices

of coal, will tend to lend a wholesome tono the market. Honceforth to the end of the oal year it may be taken as conclusive that the prices of coal will not be lower than they are now. The policy of postponing th aying in of coal with the probability of buy ng it lower later in the season may be at nce discarded. Such a contingency is not likely to happen. The present advance in freights and prices are such as to steadily stiffen coal prices to the end of the year, and will give the trade of 1881 such a start off that will make the business for the year the best that we have had for stveral years.

On the inducements offered:

Parlor Sets if from Wainut slarble top Drefsuig Case will give the trade of 1881 such a start off Palnred Bedreson Suites. \$18 to Came Seated Chairs, per set of 6.

Came of heirs, per set of 6.

Sand all other Goods equally chap. The complaint of the present alight block In this connection, I desire to call the attention of the people to my ample facilities i in the trade that has induced the prement bort stoppage for five or six days comes mainly from New York. That portion of the trade that centres in this city would much prefer to work on under the present pressure of coal stock on hand. They, how ever, show a more accommodating disposion to their New York brothren than was last year there shown to the trade at this end of the line. The Eastern trade is liter alls filled up, and the prospect is that they will hold off now that the new circular rates have gone into effect and that the fresh busiess at shipping points for this month wil be very light. But the retail trade, which has lately taken a start and a now active oult, will be determined later. What is wants will doubtless be large, and sooner or later, ed is a more commodious building,

—A fair sized audience assembled in the

Evangencial church, Sunday night, to listen

to a considerable extent. Independent of before the close of the shipping season, the to an address by W. C. Weiss, who officiated for Rev. P. J. Miller, who was confined to a considerable extent. Independent of the evidently short demand of supplies of the evidently short demand of supplies and for demestic uses there is also a prothe house by sickness.

—Messrs. Frank P. Fender and Albert Camptell, accompanied by "Iko" were recenting on Saturday at the Big Creek picnic.

—Edward Zern and family, of Coaldate, were viscolar as Nath. Single Server theology.

—The public schools opened inst Monday a week, The school buildings have been put in week. The school buildings have been put in road repairs.

—Messrs. Andrew Deibert and George and furnace men are auxious to advance.

Vagner, have gone for a work's trip as prices from three to five dollars per ten. -Our young men were well represented on again in active competition. The moservative of the manufacturers are opposite
