

FARMERS' COLUMN.

White flowers are generally more agreeable than colored ones. You may enlarge your plants by watering them with a weak solution of nitre.

The sleep and rest of Michigan was never in better condition than at present. Deciduous trees are those whose leaves fall off every year, as opposed to the evergreens.

Winter is the time to thoroughly repair all tools, ploughs, reaping machines, cultivators and the like.

In Glasgow, Scotland, one iodine factory exports 6000 tons of iodine every year to produce this chemical.

The Thiawville (Ill.) cemetery, in Iroquois county, recently paid a dividend of \$9 per cent on its capital stock.

A Mr. Cox, near Bethel Creek, Mich., recently slaughtered a 3-year-old heifer, which weighed 117 pounds.

The French Academies have lately discovered that some plants are so sensitive to the effects of chloroform as animals are.

It is said that if sand laid is ploughed just before the corn is planted the worms will feed upon the sand and not injure the corn.

Ten millions of cattle are annually slaughtered in this country to supply the demand for meat, which is valued at \$100,000,000.

In midwinter when the weather is cold, corn is the best food for promoting plumpness and warmth in horses. Oats constitute the best staple-producing food.

An Oregon farmer made considerable profit from watermelon last year. The melons were run through a cider mill and the juice strained and bottled down.

Two or three acres of corn will supply a Western family with a winter's fuel. The same corn sold and turned into wood or coal would not supply fuel for a month.

The repeated application to copper or brass of alternate washes of diluted acetic acid and exposure to the fumes of ammonia will give a very antique-looking green bloom.

It should never be forgotten that rich cattle feed makes rich manure, and rich manure heavy crops, while, on the other hand, poor food means lean cattle, poor manure and inferior crops.

The average yield of corn is less than one half of the possible yield. When we think how little the second half of the hundred bushels of corn costs per acre, the profit of growing such a crop becomes apparent.

By striking young verbenas plants early in autumn, and putting them first into small pots and then into larger as soon as the roots have reached the sides, and keeping them in vigorous growth, pinching back the leading shoots and nipping off every flower head, the verbenas may be made to bloom in the window all winter.

Every rose will not come from the slip. Of the three great divisions into the rose family is separated, viz., the damask, the musk, and the tea, the last two may be propagated with more or less result from the slip, or by budding; the first only by dividing the root and planting the seed, which latter method is resorted to, however, only when it is desired to obtain new varieties.

Few progressive agriculturists in America have not heard of J. J. Mechi, of Tiptree Hall, near London, Eng. Formerly or quite a generation of men this enterprising farmer has cultivated a large farm on regular high scientific farming principles, and has always found profit as well as great pleasure in so doing. The recent reverse which has befallen so many English farmers bore heavily on him also, and his bankruptcy, which was occasioned by bad crops and reverses in his business as a fine cutter, which he still kept up in London, utterly overwhelmed him and was the cause of his recent death. His end will be heard of with regret by a host of sympathizing friends this side of the Atlantic.

The usual early peach crop failures how come up from Little Delaware as the peach trees and berry bushes are killed above the river line. Last year's growth of wood in the peach trees is said to be dead. Papers in other parts of the Peninsula indicate that the four fingers and a thumb of destiny are pointing to a Summer barren of fruit. At the same time there is not lacking a school of pomologists who contend that the peach crop will be all the better for the appearance of zero.

Judge Davenport, of Montana Territory, purchased 1000 ewes, which cost him about \$3000. He put these in charge of a young man, who was to take them on a range, take all the care of them, pay all of the expenses of the band and to receive in his share one half of the increase of the flock. At the end of four years a settlement was to be made, and Judge Davenport was then to receive back 1000 of the best ewes which the band contained. When the settlement was made Judge Davenport had received for his share of the proceeds of the wool \$6500 and for his share of the increase \$8000. The profit on the investment of \$3000 for four years was \$14,500, or 1202 per cent per annum.

To Rip a LOT OF RATS.—Take a pint of common salt, half a ounce of vitriol, and a good handful of common salt; mix them all well together in any old deep pan. Get some pieces of paper, and put some of the above mixture very thick on the paper, and place enough of this into the holes sufficient to stop them, and then let the brackish water soak after you, and if you should find any of the holes opened again, it is quite certain you had not put in a sufficient quantity. For smoking rats out of small holes or cracks, then take a handful of common salt, and put it in at the hole or crack, and pour upon the salt a spoonful or two of vitriol, and this will make such a fumigation or smoke that they cannot bear it. Then stop the hole or crevice again so that the smoke may not come out. Do this in two or three places as near where you hear they are as you can, and it will cause them to forsake those places in this manner. It is very safe, as no damage can possibly ensue to the wall-nest from the smoke.

Affodils, like spring flowers, break through the frozen ground at last, and the heat, which sends them for another heart to make it happy, will never seek in vain.

For \$100 you will receive the Cannon Advocate for one year, and one of Dr. Kennell's Horse Books as a premium.

CENTRAL DRUG STORE,

THIS AND THAT.

A teen sily won. A good profit—One hundred per cent. —See Dealers are happy over a solid North.

It is a fact that there is a great future for everybody who can live long enough to see it.

What does Ingersoll offer in exchange for Christianity? Why Republicanism, of course.

When you cut, burn, or bruise yourself, there is nothing that will so quickly and effectively give you relief, as one application of M. H. Rapsher's Eucalyptus. It dries the extreme cold weather you have frozen your feet and hands after sitting on a chair or sitting on a bench of Eucalyptus.

It is easy for the hotel clerk to keep warm. He's always hanging over the register.

—You can deceive your guileless little wife, young man, but her father's wife never.

—Grown-up people love their sweethearts, and little boys are fond of their sweethearts.

—There is no use talking, no use talking, 'Tis no use every where.

—You must use Sizer's Syrup of Wild Cherry and Hoarseness. Some may be inclined to criticize you, but the idea we want to impress upon your mind is, that Sizer's Syrup of Wild Cherry and Hoarseness is quicker, than any other cough remedy, sold in the United States or Canada.

—An Aspidochelone is a West India man. Needless to say he is black.

—Oh! why should the spirit of mortal be proud? We are inclined to believe that the man driving a "Ford Sprit" is not a man driving a "Ford Sprit" at all.

—If you will consent to my marriage with your daughter she will be treated as if she were an angel. "That is," as the matter-of-fact reply, "in a short time she would not have anything to wear."

—"I'm drawing a conclusion," remarked Amidiah as he pulled the car's tail—Ed. J. Rapsher, and "I'm seeing the Doctor" remarked Amidiah's wife, as she took a dose of Sizer's Syrup of Wild Cherry and Hoarseness for her cough. A Sizer's Syrup of Wild Cherry and Hoarseness is the business—For Sale by all druggists.

—"I say, old fellow, you haven't got a five-cent piece about you that you don't know what to do with, have you?" "There's one," "Thanks, but hello! I say, you know it's dead?" "You asked me for one I didn't know what to do with."

—The other day, two boys were talking together in the street, a donkey began to bray and whinny and snort. "What a noise!" said one of the boys. "What a noise that donkey has!" said the other. "And by the way, that puts me in mind—how is your cat?" "I may not be quite as much of a donkey as you think I am," said the first boy. "I may not be quite as much of a donkey as you think I am," said the second boy. "I may not be quite as much of a donkey as you think I am," said the third boy. "I may not be quite as much of a donkey as you think I am," said the fourth boy.

—"Any letter for me?" asked a young lady of the female postmaster in a country town. "No," was the reply. "Strange," said the young lady aloud to herself, as she turned away. "Nothing strange about it," cried the female postmaster through the delivery window. "You ain't answered the last letter he wrote."

—Mrs. Brown—What are your eggs a doing? Mrs. Schumacher—Eggs, Madam. Mrs. Brown—Eggs? Why are they that? Mrs. Schumacher—Scarcely—Scarcely—Scarcely.

—Mrs. Brown—How is it that you bring in such a nice lot of fresh eggs every day? Mrs. Schumacher—I give my hens M. H. Rapsher's Fertility Food—three times a week.

—"Your train has a cow-catcher," said an Englishman at a recent ball, as she stumbled over a lady's dress. "No," replied she, "it doesn't quill equal one; it has caught only a calf."

—Inventors and Patents. Should send for instructions, terms, references, etc., to Edson Brothers, Solicitors of Patents, Washington, D. C. who for the same without charge. Edson Brothers is the same throughout the world. Edson Brothers is the same throughout the world. Edson Brothers is the same throughout the world.

—"What struck you as the most touching thing in the academy?" asked a lady of youth who had just been expelled from boarding school. "The teachers' can," saidly replied the boy.

—Sacramental Wine. Speer's Port Grape Wine is a pure, unalloyed wine, made from the finest grapes of France. It is especially adapted to the use of Christian Churches, and guaranteed to retain its grateful flavor and essential qualities unimpaired for any period. Much used by the clergy, and by the churches in New York and Brooklyn have adopted its use. For sale by A. J. Durling, Dr. Charles T. Horn, Rapsher, and Zern & Rapsher, Weisport.

—"I wish I had a receipt for making my own eye-water," said a lady; whereupon her little daughter remarked, "Mamma, I can make my eye-water any time by sticking my finger in it."

—A Boston Artist painted an orange-peel upon the sidewalk so naturally that six fat old gentlemen slipped upon it and fell down.
