THE IMPARTS AND THEIR TRACKER IN THE Sunday School comThe infants in the Sunday School compass the nursery and foundation class of the school, and in more than one respect is the most important class. Even more skill and tact is required to teach the infant class than advanced classes in the school. The teacher of infants needs dexterity and readiness of performance, while the Bible class teacher needs program is the Bible class teacher needs program in the school. class teacher needs profound knowledge and good judgment to use it. 1. Not think the child must be an actual sincer before he can have a clean heart.

2. He must have faith in child piety. The object of the Sunday School is "to bring scale to Christ, and build up souls in Christ," none are too young to come under the limits of this purpose.

3. He must have love for infant scholars and show his love by his kindness and interest in their behalf. And last, but not least.

4. He must himself first have experience 4. He must himself first have experienced the gracious influence of the Christian religion. A person who teaches others to practice what he himself does not practice would better weit until he has experimentally learned the truth for himself. Thou must be true thyself if thou the truth woulds treach." This responsibility of the infant class teacher is more important than many imagine. Immortal souls are entrusted to his care, whose future life and dernal destiny depend yery largely on the matter and manner of his teaching. The first few years of a child's life in the Sunday School are all important, sud we are certain that if Superintendents considered this fact more particularly they would in some instances take more care in appointing teachers for this responsible position. tenchers for this responsible position.

suicide of a Wretch Afraid of the Gallows. A very deliberate suicide of a man who was laboring under a guilty conscience, on surred Thursday night, 7th met., at the little village of Hartsville, a few miles below Wilkesburre, on the Susquehanna. The name of the victim is Jack Freeman. He was employed as a laborer and was engaged with others in the work of erecting a number of houses for miners who had gone in new collieries that have been recently opened near Hartsville. Freeman had been acting very strangely ever since the advent of the numerous new comers. He had spells of moodiness, and at these times he would have his work and retire to his home. Yes terday he quit work about 4 o'clock and went to his cottage. He was in one of his mostly fits. After entering the house he re-marked to his wife: "I'm not going to let them get any advantage over me, and I am going to shoot myselt." His wife looked at him with some surprise, and replied: "Why, Jack, what is the matter with you? you are crazy." He answered: "Well, if I don't shoot myself, they will arrest me and hang me." With this he walked into a bed room Tiffin, Ohio, on Thursday morning last.
