Hay Fever.

For twenty-five years I have been severely afflicted with Hay Fever, and have tried many remedies without relief. While suffering intensely I was induced to try your Cream Balm. The immediate effect was marvelous. I have been enabled to perform my pastoral duties without the slightest inconvenience. Have been exposed to heat, draughts and dust, and have escaped a return attack. I pronounce Ely's Cream Balm a cure for Hay Fever. William T. Carr, Presbyterian Pastor, Elizabeth, N. J.

Having been afflicted with Hay Fever for years I gave Ely's Cream Balm a trial, was much benefited if not permanently cured. I have had no real attacks since using it. E. B. Ranch, Editor *Carbon County Democrat*, Mauch Chunk, Pa. Price 50 cents.

We have just received from the Mendelssohn Piano Co., New York, their new catalogues for 1881, giving a very full description of their Pianos and Organs, and also their Manufactory, which is one of the largest and most complete in the world, a description of which, and the process of manufacture of musical instruments of the highest order, and will be found very interesting.

Their Pianos and Organs, besides being unanimously recommended for the highest honor of the great Centennial exhibition, are indorsed in the strongest possible terms by the greatest musical artists and high musical authorities now living, as well as the leading newspaper press of the country.

This company is destined to occupy a high place as manufactures of musical instruments, and from the character of its production, and their honorable and fair manner of dealing, should secure the patronage of persons who desire reliable goods at factory prices. A Healthy State.

People are constantly changing their homes from East to West and from North to South or vice versa, in search of a healthy State. If they would learn to be contented and to use the celebrated Kidney-Wort when sick they would be much better off. The whole system can be kept in a healthy state by this simple but effectual remedy. Summer Complaints

At this season, various diseases of the bowels are prevalent, *and many lives are* lost through lack of knowledge of a safe and sure remedy. PERRY DAVIS' PAIN KILLER is a sure cure for Diarrhœa, Dysentery, Cholera, Cholera Morbus, Summer Complaint, etc., and is *perfectly safe*.

Read the following:

BAINBRIDGE, N. Y., March 22, 1881.
PERRY DAVIS' PAIN KILLER *never fails* to afford instant relief for cramp and pain in the stomach.
JOSEPH BURDITT.

NICHOLVILLE, N. Y., Feb. 3, 1881.
The very best medicine I know of for dysentery, chronic diarrhœa, and cramps in the stomach. Have used it for years, and it is sure cure every time.
JESSE W. DEE.

MONTROSE, IOWA, March 12, 1881.
I have used your PAIN KILLER in severe cases of cramp, colic and cholera in children, and it gave almost instant relief.
L. E. CALDWELL.

CARBONVILLE, GA., Feb. 28, 1881.
For twenty years I have used your PAIN KILLER in my family. Have used it many times for bowel complaints, and it always cures. Would not be without it for a hundred times its cost.
J. B. 1878.

SACO, ME., Jan. 22, 1881.
HAVE USED PERRY DAVIS' PAIN KILLER for twelve years. It is safe, sure, and reliable. No mother should allow it to be out of the family.
H. I. NAYES.

ONEIDA, N. Y., Feb. 19, 1881.
We began using it over 25 years ago, and it always gives immediate relief. We would hardly care to go to bed without a bottle in the house.
W. C. SEFFERY.

CONWAYBORO, S. C., Feb. 22, 1881.
Nearly every family in this section keeps a bottle in the house.
U. S. CONSULATE.

CRESTED BUTTE, COLORADO, Feb. 8, 1881.
I have known PERRY DAVIS' PAIN KILLER almost from the day it was introduced, and after years of observation and use I regard its presence in my household as an indispensable necessity.
J. B. POTTER, U. S. Consul.

SUTTON-ON-TRENT, Eng., Dec. 1880.
I had been severely ill for a period of twenty years, during which I underwent much medical treatment, but I never got relief, until I tried your PAIN KILLER, and I can truthfully say that I found instant relief.
H. J. SCOTT.

21 MONTAGUE ST., LONDON, 1880.
During a residence of nearly three years in India I have given it in many cases of diarrhœa, dysentery, and cholera, and never knew it to fail to relieve.
R. CLARKSON.

No family can safely be without this invaluable remedy. Its price brings it within the reach of all.

FARMERS' COLUMN.

Portable Gardens.

The *Prairie Farmer* tells city folks how they may grow vegetables in spite of small yards. It says: Take barrels and bore holes large enough to admit the nose of a watering pot. Fill the barrels with stones as high as the rows of holes, and fill in with good rich, fine earth to the top, in which plant cucumbers, melons, and tomatoes. One barrel will be enough for each kind. Be sure to have one flat stone lean over the large hole where you will pour in water until it runs out of the holes you have made, and which will prevent the earth from filling this large hole up. Range the barrels around the yard and plant the seeds. Keep the barrels filled with water up to the holes, and you have all the requisites for rapid, healthy growth,—air, heat moisture. You can raise all the vegetables you will need, in the greatest perfection, and they will last until late in the autumn, as they can easily be covered on frosty nights. Cucumbers and tomatoes may hang over the barrels, cutting them off when they reach the bottom. Melons may be tied to the wall or fence. The stones have an important service in holding up the earth and in absorbing the heat during the day which they give out at night, keeping the water at an even temperature.

The Seventeen Year Locust.

Prof. C. V. Riley, some months ago, made a report on the seventeen year locust, predicting their appearance this year in certain parts of Wisconsin, North Carolina, Virginia, Northern Ohio, and a few in Lancaster county, Pennsylvania, and Westchester Co. New York, where broods were due to mature. Promptly on time the insects have kept their appointment, and have turned up in profusion just when they were expected. The brood known as the thirteen-year locust, which, it was predicted, would appear this year in several parts of the Southern States, has likewise justified the anticipation of the Professor, and come up promptly to time. The two broods show little or no specific difference, but divide on geographical lines, the seventeen-year brood belonging to the Northern and the thirteen year to the Southern States, the dividing line being latitude thirty-eight, though in some places the seventeen year brood extend below this line while in Illinois the thirteen-year brood runs up considerably beyond it.

FARM NOTES.

—Never overload a team nor discourage it by a too heavy pull at first starting nor start from a bad place if it is possible to avoid it.

—In thinning apples while small, we have experimented long enough to know that it is very profitable.—*Beal's Report.*

—Bad Farming.—It is exceedingly bad husbandry to harrow up the feelings of your wife, to rake up old quarrels, to hoe (owe) a grudge, and sow discord.

—The following is said to be an antidote for blight in pear: One quart of slaked lime one quart of bone phosphate and one ounce of sulpher sprinkled under each tree.

—Sparrows are so numerous and belligerent at Viennia that they have driven other birds from the city, and now the authorities are having them destroyed with airguns, a chasseur perambulating the parks and avenues for this special purpose. In some parts of the city of New York they have become a pest almost intorable, and there is no known method of of abating it.

—Many farmers' wives lead a dreary sort of life. They work from early morn till late at night with no time for recreation or reading. They can find very little time to read the family newspaper. This hard life they endure with cheerfulness and are well satisfied if their labors are appreciated; which, said to say, is not always the case. There are some very unreasonable, selfish, and unthinking men who find no word of approbation or appreciation of the labors of their faithful wives. A few words of hearty appreciation are sometimes more precious than gold to the weary and discouraged.—*Lewiston Journal.*

—There is no crop raised that yields so large an amount of food and with so little larbor as Indian corn.

—An exchange tells of a farmer who ploughed an acre of rather poor soil and in the furrow he laid corn stalks lengthwise, and so on till the whole was ploughed. On another acre he burnt the same amount of cornstalks and spread the ashes, over the whole field then being planted with corn. The latter portion started much better than the first, and during the early part of the season was a good deal ahead, but the latter part of the season the first portion went ahead, the result being that the cornstalks brought off the best crop.

—Powdered shellac is softened in ten times its weight of strong water of ammonia, whereby a transparent mass is obtained which becomes fluid after keeping for some little time, without the use of hot water. In three or four weeks the mixture is perfectly liquid, and when applied it will be found to soften the rubber. As soon as the ammonia evaporates the rubber hardens again—it is said quite firmly—and thus becomes impervious both to gases and liquids. For cementing sheet rubber or rubber materials in any shape to metal, glass and other smoothe surfaces the cement is highly recommended.

—Great activity prevails at the Muedon Aeronautical School, where the French Government has established extensive works for the construction of war balloons. Each of these, ten meters in diameter, will be made of silk, varnished by a process invented in 1794. The valve is to be made of metal, and the shape will be quite spherical. Not less than forty of them will be sent to the several French armies for the purpose of making captive or free ascents when required. Of these more than half have been already constructed. The construction of furnaces for the preparation of pure hydrogen has not begun yet. The warehouse is large enough to contain inflated balloons, which can find exit by the roof.

—A glue ready for use is made by adding to any quantity of glue common whiskey instead of water. Put both together in a bottle, cork it tight and set it for three or four days, when it will be fit for use without the application of heat. Glue thus prepared will keep for years, and is at all times fit for use, except in very cold weather, when it should be set in warm water before using. To obviate the difficulty of the stopper getting tight by the glue drying in the mouth of the vessel, use a tin vessel with the cover fitting tight on the outside to prevent the escape of the spirit by evaporization. A strong solution of isinglass made in the same manner is an excellent cement for leather.

Immediate relief from Asthma and Hay Fever.

THE SCOTTISH THISTLE

Medicinal Fumers!

PATENTED DEC. 20th, 1879.

The Electric Light was a great discovery, but I claim that the *Scottish Thistle Medicinal Fumer* is a greater one, owing to the great amount of suffering they have relieved, and the cures they have effected. I suffered from Asthma for fifteen years in Scotland and America and I am now completely cured. I have been studying the inhaling process for years, and as a result I now give the world the *Medicinal Fumers*, the most effective, and by far the most convenient preparation ever offered to the public, for Asthma and Hay Fever, also Sore Throat, Hoarseness from Coughs, Catarrh, Bronchitis, Neuralgia and Diphtheria. Cure your sore Throat with these Fumers and you will hear no more of Diphtheria. They are invaluable for public speakers and singers.

They are put up in fancy boxes, and can be carried in the pocket, and used at convenience. If you cannot get them from your Doctor, or Druggist, send direct to the manufacturer, who will send them to all parts of the world, postage free.

A child can use these Fumers, as they do not have to be smoked. *Price, One Dollar per Box.*
