Noble's plurality over Baily is 568. The Cont Trade.

The anthracite coal trade presents little change within the past week. It is true,

sava Monday's Ledocr, there have been fairly copious rains, and it is fair to presume that when the water shall have had tim to settle away a little a measure of relief in that regard will have been realized. The rains have been moderate and steady for the past four or five days, but it will be remembered that the drouth has been severe and long continued, and it will necessarily require more than the usual fall of water to reach the lower springs and fully supply them. The production of coal has been largely shortened, the shortage gradually increasing for each successive week for the past six weeks, the demand for coal, and especially for the smaller sizes, being steadily more and more in excess of the supply It is reasonable, however, to expect that, with the near approach of winter, the usual rains necessary to fill the ponds before winter can commence will probably continue until the desired end is accomplished. The orders for coal, however, have so increased on the hands of the coal operators that a full supply of water and the removal of every other obstacle to the heaviest coal tonnage will not more than equal the current demand for it. Hence we continue our caution to coal consumers, not to postpone laying in

a good winter's stock of coal; the trade is liable to many contingencies, and all these this year are against the consumers, with none indicating lower prices for coal, which is the only contingency that can favor the consumer. If the winter shall open early and with seeming severity, with comparatively little stock of coal on hand, there will no doubt be a bounce in prices, which may increase until far into the new year. It is emembered that the stock of coal has stead | new Concert Hall, on Thursday morning ily lessened for five or six weeks, and the ily lessened for five or six weeler, and the last. Execution was last week issued against the Allentown Rolling Mill Campany, by R. E. Wright and Son, who represent Ario Par dee, (surviving partner of the late Gilling ham Fell) of Heselten. The settlement of the estate of the late Mr. Fell, rendered the iquidation of his claim of \$1,000,000 (with nterest amounting to \$1,343,586) necessary and on Monday week the Sheriff levied up on the stock and property of the company The original capital stock of the company was \$2,000,000. In 1872 it bought out the Roberts company, and subsequently purchased the Glen Rolling Mill, and has had a productive capacity in its furnaces of be tween \$30,000 and \$40,000 per month. This action of Mr. Pardee will not cause the close ing of the works, though the property will undoubtedly change hands, and there wil probably be less to the stockholders. On the 14th and 15th Sheriff Bower will sell the personal property of the Company-the stock and fixtures of the Glen and Aller Mills, horses, carts, wagons, coal, wood, ore, steel, etc., together with all the ore leases,

The Sun of 1882 will be the same outspoken

The Sur of 1882 will be the same outspoken, truth-telling, and interesting newspaper. By a liberal use of the means which an abundant property affords, we shall make it better chin ever before. We shall print all the news, putting it has to the chandels and measuring its importance, not by the traditional yardstick, but by its real interest to the people. Distance from Printing Heuse Square is not the first consideration with Tax Sux. Whenever anything happens worth reporting we get the particulars, whether it happens in Brooklyn or Hokhara.

particulars, whether it happens in Brooklyn or Hokhara.

In politics we have decided opinions; and cre accustomed to express them in language that can be understood. We say what we think about men and events. That habit is the only secret of Thu Sur's political course.

The Wherly Surgathers in oright pages the best matter of the seven daily issues. An Agricultural Department of unequalled merit, full market reports, and a liberal proportion of literary, solentine, and domestic intelligence complete The Weelly Sur, and make it the best newspaper for the farmer's muschold that was ever printed.
