FARMERS' COLUMN.

House Gardening.

Gardener's Monthly.

The love for window flowers or for plant cabinets attached to dwelling rooms seems to be increasing in popularity from year to year. In all decorations, whether for the dinner table or special festive occassions, both living plants in pots and cut flowers enter largely. They are expected to be present, and the welcome does not seem complete without them. When the host has them he may have to be furnished by the florist, and are, of course a considerable item of expense. Those who grow them themselves have, therefore, not only the pleasure which flowers confer on ladies, but also are always more or less degree the expense which inexorable social laws involve. Such considerations seldom enter into the mind of the true flower lover, but we can see how well the love often reaps a substantial reward. In advising what aspect to have for plants one can only say that, if flowers are an object, sunlight in winter is of great importance; but if the room is so situated that sun cannot be had one must be content with ferns, palms and leaf plants. The same remark is true of a greenhouse as a room. Where flowers are desired in winter all the sunlight possible should be encouraged. It is this fact which makes a steep pitch in a green house of the first importance, though there are some advantages in favor of flatter roofs. In regard to the atmosphere of room plants it is often thought desirable to have it very moist, but it is rather the gases from the furnaces and the gas burners which make it so difficult to raise plants in rooms. The slightest taint of burnt sulphur is an injury to vegetation. If one can succeed in keeping out of a plant atmosphere these troubles the dryness of the atmosphere need give little concern.

FARM NOTES.

—Pansies are blooming out of doors in some parts of Massachusetts.

—As floors to poultry houses, boards are not good, especially if chickens are to be brought up in them. Nothing is so good as deep, well pulverized, dry soil, which is really the least expensive of anything

—A cow with three rings on her horns is six years old; with four she is seven. No new rings are formed after the tenth year. The deeper rings, however, and the worn appearance of the horns, are pretty sure indications of old age.

—There is no ivory waste. Even the powder is sold for making jelly. It is said that one leading cutlery firm in Sheffield made a calculation that to supply themselves with the ivory needed for their business they needed 1280 elephants every year, and that even with this number the tusks were each estimated to weigh 233 pounds.

—Not a single horse, sheep, cow or hog should be kept on the farm this winter that has not a shelter to render in comfortable. If this shelter has not been provided lose no time in making it. Enough food will be saved in a single winter to defray the cost of the shelter. Thousands of domestic animals die every winter that would survive if comfortable quarters were provided.

—An inventor proposes to make machine gear wheels of raw buffalo hide by cementing and pressing together as many layers as are required for the breadth of the wheel. The blanks thus prepared are cut to form the teeth in the usual manner with suitable tools. The advantages claimed are smoothe and noiseless action at very high speeds and greater durability without lubrication.

—The best way with all grapes, and especially with those not quite hardy, is to prune in the autumn as soon as practicable after the fall of the leaves. If the vines are pruned and trained upon the renewel system it will be a very small matter to lay them upon the ground and give a covering of two or three inches of earth upon the shortened canes, which covering should be left on until all danger of severe freezing is passed in the spring.

—Mr. Hamilton, of Shreveport, La. states that he finds cotton seed meal scarcely inferior to guano as a fertilizer, and invaluable as food for cattle. In exchanging meal for seed one ton of the former is given for two and a quarter tons of the latter. An other farmer says that he has demonstrated by actual experiment on a farm in Connecticut that the meal is the best fertilizer ever used on tobacco lands, tripling their productive capacity in three years, and as a cattle food it is superior to any. Still another authority asserts that he has largely increased the production of cotton on poor lands by the use of cotton-seed meal as a fertilizer.

—Considerable attention has been recently given to the difference between the rain of the city and the country. The country rain is neutral and is considered the best adapted for human consumption of any found above the earth, on the earth, or under the earth. The rain that falls in cities on the other hand, is acid, corroding metals: stones and bricks and mortar crumble before it. Its evil effects are visible on every side—in paint, in all decorations, and, in fact, almost everything erected by man. The purest rain is that collected at the sea coast more especially at considerable heights, while organic matter in the air usually corresponds with the density of population.

—In New England horses are advancing from 15 to 30 per cent., in price. Horse car companies in Boston three years ago bought good serviceable horses at from $80 to $100 each, while they now pay as high as $125 for equally good animals. Heavy draft teams are worth $425 to $550, while stylish, well matched, and well bred carriage pairs bring all the way from $500 to $1000. Dark colors are fashionable here.—*American Cultivator.*

A WRONG IDEA.

Many persons having gotten the wrong idea that hops are strengthening, have taken to drinking ale and beer very freely. The consequence is they feel better for a short time, but when the reaction comes they are much weaker than before. Reader if you value life, lay aside all malt and alcoholic beverages and put your trust in that temperance preparation of iron and vegetable tonics called Brown's Iron Bitters. It gives real health and strength to every part of the body, refreshes the mind, and restores the nervous system to its proper standard. Over 1,000,000 Bottles have been sold this year.

Rheumatism

Neuralgia, Sprains,

Pain in the Back and Side.

There is neither more certain than these diseases that they can be removed and the discomfort ended by use of Perry Davis' Pain Killer.

This remedy is not a cheap Beeding or Petroleum product that must be kept away from fire or heat to avoid danger of explosion, nor is it an untried experiment that may do more harm than good.

Pain Killer has been in constant use for forty years, and the only real testimony from all parts of the world is, it never fails. It not only affords permanent cure, but it relieves pain almost instantly. Being a purely vegetable remedy, it is safe in the hands of the most inexperienced.

The record of cures by the use of Pain Killer would fill volumes. The following extracts from letters received show what those who have used it think:

Elder Geo. Washburn, Ilion, says:
I was troubled with rheumatism for many years, and was subject to severe attacks from cheumatic Gout. I commenced using the Pain Killer, with speedy relief, and have
Charles Lowell writes from the Sailors' Home, Boston:
I have suffered three years with neuralgia and rheumatism in the stomach. The Doctors at Westminster Hospital gave up my case in despair. I tried your Pain Killer, and it gave me instant relief. I have resorted to it ever since, and am now able to follow my usual occupation.
G. H. Walworth, Saco, Me., writes:
I was confined to my bed for a week from pain in the side by the use of your Pain Killer.
E. York says:
I have used your Pain Killer for rheumatism, and have received great benefit.
Barton Gannon says:
Have used Pain Killer for thirty years, and have found it a never-failing remedy for rheumatism and bruises.
Mr. Burdit, writes:
I have used it in the case of rheumatism.
Phil. Gilbert, Pennsgrove, Pa., writes:
It is not all over, I know your Pain Killer is the best liniment ever I can get.

All druggists keep Pain Killer. Its price is so low that it is within the reach of all, and it will save many times its cost in doctors' bills. 25c., 50c. and $1.00 a bottle.

The New York SUN, for 1882.

THE SUN for 1882 will make its fifteenth annual revolution under the present management, shining, as always, for all, big and little, mean and generous, contented and unhappy, Republican and Democratic, depraved and virtuous, intelligent and obtuse. THE SUN'S light is for mankind and womankind of every sort; but its genial warmth is for the good, while it pours but discomfort on the blistering backs of the persistently wicked.

THE SUN of 1868 was a newspaper of a new kind. It discarded many of the forms, and a multitude of the superfluous words and phrases of ancient journalism. It undertook to report in a fresh, succinct, unconventional way all the news of the world, omitting no event of human interest, and commenting upon affairs with the fearlessness of absolute independence. The success of this experiment was the success of THE SUN. It effected a permanent change in the style of American newspapers. Every important journal established in this country in the dozen years past has been modelled after THE SUN. Every important journal already existing has been modified and bettered by the force of THE SUN'S example.

THE SUN of 1882 will be the same outspoken, truth-telling, and interesting newspaper.

By a liberal use of the means which an abundant prosperity affords, we shall make it better than ever before.

We shall print all the news, putting it into readable shape, and measuring its importance, not by the traditions of gentility, but by its real interest to the people. Distance from Printing House Square is not the first consideration with THE SUN. Whenever anything happens worth reporting we get the particulars, whether it happens in Brooklyn or Bokhara.

In politics we have decided opinions; and are accustomed to express them in language that can be understood. We say what we think about men and events. That habit is the only secret of THE SUN'S political courage.

THE WEEKLY SUN gathers in eight pages the best matter of the seven daily issues. An Agricultural Department of unequalled merit, full market reports, and a liberal proportion of literary, scientific, and domestic intelligence completes THE WEEKLY SUN, and make it the best newspaper for the farmer's household that was ever printed.

Who does not know and read and like THE SUNDAY SUN, each number of which is a Golconda of interesting literature, with the best poetry of the day, prose every line worth reading, news, humor—matter enough to fill a good-sized book, and infinitely more varied and entertaining than any book, big or little!

If our idea of what a newspaper should be pleases you, send for THE SUN.

Our terms are as follows:

For the daily SUN, a four page sheet of twenty eight columns, the price by mail, post paid, is 55 cents a month, or $6 50 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents per month, or $7 70 a year, postage paid.

The Sunday edition of THE SUN is also furnished separately at $1 20 a year, postage paid.

The price of the WEEKLY SUN, eight pages, fifty-six columns, is $1 a year, postage paid. For clubs of ten sending $10 we will send an extra copy free. Address

Alexander's Night Thoughts.

"Sh-Ruckoff Stoyeberish," said the Czar to the captain of the guard, "have the guards been doubled at the palace to-night?"

"They have, my liege!" responded S. S. "And the man with the telescope sweeps the horizon, so that not even a single horseman can approach thy imperial dwelling."

"And the lightning rod man?"

"He sleeps beneath the Neva, so please your majesty."

"The man for subscriptions to the life of Sergeant Bates?"

"He speeds to Siberia on a special train."

"And the ladder and tree protector men."

"Ask of the vipers in the palace dungeons."

"The man who continues at this late day to say: 'What, never?'

"Thy imperial head-man wears his watch chain."

"'Tis well! Telegraph to America that another conspiracy has been baffled; keep the gum-drop and corn-ball boys who spread sedition on the railroad trains, under thy vigilant eye—and may St. Isaac of Kuownow bless thee!" And the Czar, putting on his cast-iron night shirt retired to his princely couch.

Duty to Others.

CHAMBERSBURG, July 25, 1875.

This is to let the people know that I, Anna Maria Krider, wife of Tobias Krider, am now past seventy-four years of age. My health has been very bad for some years past. I was troubled with weakness, bad cough, dyspepsia, great debility and constipation of the bowels. I was so miserable I could hardly eat anything. I heard of Hop Bitters, and was resolved to try them. I have only used three bottles, and I feel wonderfully good, well and strong again. My bowels are regular, my appetite good, and cough all gone. I feel so well that I think it my duty to let the people know, as so many knew how bad I was, what the medicine had done for me, so they can cure themselves with it.

[Rochester Sentinel.]

"Buckwheat Cakes and Measles."

When a young husband had gone from home, and with food solicitude telegraphed his little wife, "what have you for breakfast, and how's the baby?"—he received the brief, suggestive reply,—"Buckwheat Cakes and the Measles." We have the report of a case in our midst, not where Measles was in the bill of fare, but where Sciatic Rheumatism confined Mr. J. Dawson, the well-known druggist, to his room for a long period. It was stated to our reporter in the following words: The senior of this firm was attacked with Sciatic Rheumatism December last, and for four weeks could scarcely leave his room. He used St. Jacob's Oil, and is now able to be at his place of business, feeling no worse for his recent affliction. The inference is convincing.

Truly yours,

You ask me for a testimonial as to the worth of D. R. V. G. I don't think I could write one strong enough; I have had the dyspepsia for ten years; been treated by the best doctors in several cities with no benefit; I have taken two bottles D. R. V. G., and to express myself, I feel good. They can say what they please, but D. R. V. G has done what no doctor in Rochester could do; if they could they did not.

Yours truly,

Suffering Women.

There is but very small proportion of the women of this nation that do not suffer from some of the diseases for which Kidney-Wort is specific. When the bowels have become costive, headache torments, kidneys out of fix, or piles distress, take a package and its wonderful tonic and renovating power will cure you.—*Watchman.*

THE PHILADELPHIA TIMES

Now stands confessedly at the head of Philadelphia journalism in all that makes a thoroughly complete, general and family newspaper. It is more complete in its news, in its special correspondence, in its varied contributions on all subjects of popular interest, and in all the qualities of a newspaper for the family circle and for the business man than any of its contemporaries, because its facilities and resources are equal to every want of a first-class national journal.

"The Weekly Times" has nearly doubled its former large circulation during the past year. Its contributors from week to week are among the foremost men of the nation, and no department of news or literature is slighted in any number on any pretext. It is adapted as well to women as to men; hence, although its political intelligence is full and accurate and its political editorials free and fearless, liberal provision is made for literary, dramatic and musical matters, travels and adventure, fiction, poetry, fashions and the chronicle of current social events. In all these departments the pens of the best writers are engaged, while selections from other journals are made with care, taste and fullness that are unsurpassed.

THE "ANNALS OF THE WAR"—chapters of unwritten history contributed by prominent actors in the war of the rebellion, are a valuable feature of the paper and have become a recognized depository of such matters, whether from Northern or Southern sources. This department, as well as all others, will be kept fully up to the high standard of former years.

"A MAN"

"Great Rock Island Route!"

Stands pre-eminent among the great Trunk Lines of the West for being the most direct, quickest, and safest line connecting the great Metropolis, CHICAGO, and the EASTERN, NORTH-EASTERN, SOUTHERN and SOUTH-EASTERN LINES, which terminate there, with KANSAS CITY, LEAVENWORTH, ATCHISON, COUNCIL BLUFFS and OMAHA, the COMMERCIAL CENTRES from which radiate

EVERY LINE OF ROAD

that penetrates the Continent from the Missouri River to the Pacific Slope. The

Chicago, Rock Island & Pacific Railway

is the only line from Chicago owning track into KANSAS, or which, by its own road, reaches the points above named. NO TRANSFER BY CARRIAGE! NO MISSING CONNECTIONS! *No shedding in ill-ventilated or unclean cars, as every passenger is carried in roomy, clean and ventilated coaches, upon Fast Express Trains.*

DAY CARS of unrivaled magnificence, PULLMAN PALACE SLEEPING CARS, and our own world-famous DINING CARS, upon which meals are served of unsurpassed excellence, at the low rate of SEVENTY-FIVE CENTS each, with ample time for healthful enjoyment.

Through Cars between Chicago, Peoria, Milwaukee and Missouri River points; and close connections at all points of intersection with other roads.

We ticket (*do not forget this*) directly to every place of importance in Kansas, Nebraska, Black Hills, Wyoming, Utah, Idaho, Nevada, California, Oregon, Washington Territory, Colorado, Arizona and New Mexico.

As liberal arrangements regarding baggage as any other line, and rates of fare always as low as competitors, who furnish but a tithe of the comfort.

Dogs and tackle of sportsmen free.

Tickets, maps and folders at all principal ticket offices in the United States and Canada.
