ED. W. FEIST, Manager.

Philadelphia Ledger. 30th alt : The pre-

uction of anthracite coal continues quite

large and the weather underselly mild. The

latter lact very much reduces the demand

for consumption, and prices are suffering ac-

ordingly. The market is cousi terably de-

past two weeks and the positive declaration

that it will be continued to a like extent

through the month of February, in connec-

ion with the fact that the stock of coal at

the various towl centres is unusually light,

has given moderate firmness to prices, and

it is believed by these who are supposed to

be best informed in the trade that the firm-

ness will be carried into the new year. The

ompanies that control the trade are firm

n the belief that all necessary arrange-

nents, as they have begun, will be fully

consummated and carfled to the end. The

news from the coal regions is that there is

tocks on hand quite large. The production

was considerably reduced last week by the

three days' suspension, and this will be fol-

lowed by similar suspensions each week un-

il the trade recovers its tone and the de-
