Physicians PERMANENT PASTURES. PROP. GALDWELL. widely prevalent, even perhaps among those who give some thought to their grating lands, that a pasture will take care of itself, and all the manure made on the farm or bought may be put on the filled land. This idea is as wrong as it is to suppose that wheat or corn can be raised year after year in the same soil without manure. Milestows occupy our pasture lands as often as any other stock; and in their milk, plues that are carried off from the soil of the onstance to such an extent as to lead, some or later, to certain exhaustion, just as surely as the continued curity Lon of work on the same and the carties of the exhaustion is planner to the eye in he diminished crops.

The resy hear midding that he was off for the soil of the carties of the same soil without he will be a same soil without manure. Milestows occupy our pasture lands as often as any other stock; and in their milk, plues of the carties of from the soil of the continued curity Lon of work on the lands of the continued curity Lon of work on the lands of the lands It is singular that the notion should be so Have Signed or Endorsed the Mossra.Seabury & Johnson, Manufactur-ing Chemists, S1 Platt St., New York: ters. Physicians and the Public prefer Benson's Capcine Porous Plaster to all others. We consider them one of the very few reliable household remedies worthy of confidence. They are superior to all other Percus Plasters or Liniments for The wheat field than on the pasture, which may perhaps continue to look green and Benson's Capcine Plaster is a genuin holty, while poorer grasses are all the Parmaceutical product, of the highest order of merit, and so recognised by while creeping in and displacing the finer ands, which require a richer soil. The esture must be treated with its slare of he av . lable manure of the farm, or else it When other remedies fail get a Benwill run down. With favorable climatic conditions, it is undoubtedly cheaper to keep a pusture, once well made, in good keep a pasture, once well made, in good invaluable remedy. Its policy beart for a number of years, than to let it within the reach of all. You will be disappointed if you use cheap Plasters, Liniments, Pads or Elec-trical Magnetic toys. un out for want of food, and then make it A SURE REMEDY AT LAST. Price Mota. MEAD'S Medicated CORN and BUNION PLASTER. ever again. Dr. Lawes' doctrine, the result of his own experiments and observations i that pasture land must be well stocked with Robbed of the state of the stat nitr gen and potash, and that phosphanust be supplied from time to time, as wel as the other two important plant nutrients o replace what is carried off in the produc-German Invigorator, sold. PATENTS stained for Inventors in the United States Canada and Europe, at reduced rates. With our principal office located in Washington, directly opposite the United States Patent Office, we are able to attend to all patent usiness with greater promptness and spatch and at less cost than other patent atorneys who are at a distance from Washington, and who have, therefore, to employ associate attorneys." We make preliminary examinations and furnish opinions as to raentability, free of charge, and all who are interested in new inventions and patents are invited to send for a copy of our "Guide for obtaining Patents," which is sent free to any address, and contains complete instruc ons how to obtain patents and other valuable matter. We refer to the German-Amerean National Bank Washington, D. C.; the Royal Swedish, Norwegian and Davish Lega-tions, at Washington; Hub. Jos. Casey, late Ohiel Justice U. S. Court of Unlame; to the Officials of the U. S. Patent Office, and to Senators and Members of Congress from every State.
