

ANNUAL COUNTY MEETING. The Annual County Meeting of the Democratic Party...

Editorial Mention.

SENTECE OF THE Star Route gang will be as - When?

BLAINE would rather see Pattison than Beaver Governor of this State.

The total wheat crop of Indiana this year is officially reported at 47,192,000 bushels...

The number of immigrants who arrived in the United States during the year ending June 30th last was 789,063...

QUERY - Why is it that our 2 dollar patent outside coteries charge regular subscribers \$2 a year...

VERY NEW - The Secretary of the Navy has just worked out a flag - a Presidential flag - to be flung to the breeze...

The veto by President Arthur is a stalwart move - but whether it will pan out sufficiently to accomplish their object is doubted.

LETTERS have been received by business houses in St. Louis from correspondents in the South and West saying that "there never has been such crops of corn and cotton in Texas, Arkansas, Mississippi, Alabama, Tennessee, the Indian Territory, Kentucky, Missouri, and Kansas as those of the present season."

The Democratic County Convention, held at Bloomsburg, Tuesday nominated William Ewell for President Judge, Senator Bucklew for Congress, E. J. McHenry for State Senator, T. J. Vandercamp and Wm. Bryson for Representatives and John Moorey for Sheriff.

Next to the rejection by the Republican leaders over the success of the River and Harbor bill, not understanding the President's veto, is the satisfaction they feel that the Democrats came to their relief in both Houses, shared in the iniquity, and took their part of the responsibility.

How soon have the words of the President been verified, that the more objectionable the bill the stronger it is! There being millions engaged in it to go round, carrying the bill over the veto became comparatively easy.

Robeson has cracked his whip over Democrats as well as Republicans. A truthful picture of this final assault on the Treasury would show Democrat, heretofore honored for resisting such iniquities, following Robeson with equal eagerness for their part of the plunder.

Outside of Washington the feeling and motives which have prevailed in Congress in the passage of this bill cannot be perfectly understood. There is no way to give an adequate idea of the fierceness of the determination awakened by the veto.

THE LAST CONGRESS.

Every one of patriotic impulses will rejoice that Congress has adjourned. It has exceeded in the prodigal expenditure of public money and in unwise legislation any Congress that ever convened since the foundation of the Government.

When Congress met in December there was \$150,000,000 surplus in the Treasury. Now how much is there after the outrageous appropriations that have been made since the fatal month when these Republican jobbers led by the cool, implacable Robeson, made their descent upon the money boxes of the nation?

The month-plus of the Republican party argued that because the Democrats had been niggardly in their expenditures it was no reason why Republicans should "biggle" over the expenditure of a few million or so, and his brethren of the same faith seemed to agree with him.

Our Colorado Letter. Special Correspondence. PUEBLO CO., August 5, 1882. "It is a long journey from the Eastern Metropolis across the prairies and plains of the West to Colorado, but it is through such a diversified country, affording a glimpse of so much varied and interesting scenery, that time and space are alike annihilated, as it were, without fatigue or weariness.

in fortities of over 4000 each. Corporations and monopolies in the Republican party stand by with unflinching devotion. In fact they can see money. To this end, and so that the Treasury would not be overburdened with cash, the Republican majority in Congress voted the veto of the President, have voted every \$204,233,697 of the people's money. A scandalous record indeed!

ENGLAND'S PERIL.

It is very evident that England has a big job on hand in her campaign in Egypt. For years she has been a bully and a bulldozer. Her immense resources have enabled her to carry everything before her almost without let or hindrance. Subjugating, as she undertook to do and did, the ignorant and unskilled in the arts of war, victory has been upon her banners.

Successful as she has been in the past, she has now on hand a contract to fill, which only the shrewdest diplomacy can compass. With a disaffected people in Ireland, with discontent everywhere in her dominions, the situation for her stability looks perilous indeed. Purse proud, arrogant and overbearing as she has been, there is scarcely a nation - we don't believe there is one - that would regret her downfall.

Next to the rejection by the Republican leaders over the success of the River and Harbor bill, not understanding the President's veto, is the satisfaction they feel that the Democrats came to their relief in both Houses, shared in the iniquity, and took their part of the responsibility.

ALL FOR PLUNDER.

Next to the rejection by the Republican leaders over the success of the River and Harbor bill, not understanding the President's veto, is the satisfaction they feel that the Democrats came to their relief in both Houses, shared in the iniquity, and took their part of the responsibility.

Whoever looks the hotels of this country knows some one or more of the Leland. Warren Leland formerly kept the Metropolitan, and afterwards the Palace Hotel in San Francisco, and is going to take the Coleman House in this city.

Our New York Letter.

Regular correspondence of ADVOCATE. NEW YORK, August 5, 1882. DEATH OF GEORGE LELAND. Whoever looks the hotels of this country knows some one or more of the Lelands.

The traveler who enters Colorado at the south will not at first be greatly surprised with the country, or at least with its surface indications. For nearly a hundred miles the route to Pueblo is through a barren, sandy plain, which has been denominated the "Great American Desert."

Our Washington Letter.

From the REDDLE CORRESPONDENT. WASHINGTON, D. C., August 5, 1882. There is probably no man in the country who does more work than the President. Quite certainly no man in the country does more irritating and aggravating work than the President.

Our Washington Letter.

From the REDDLE CORRESPONDENT. WASHINGTON, D. C., August 5, 1882. There is probably no man in the country who does more work than the President. Quite certainly no man in the country does more irritating and aggravating work than the President.

and looks from its windows at the rear upon the well kept grounds and the Potomac beyond; also upon the alleged Washington monument. The White House, especially this room, is excellently ventilated. Around the room are chairs and one or two sofas. There is but one picture on the walls - a life sized portrait of George Washington, painted by a South American artist, and presented by the President of the United States of Columbia.

There are no such patriotic individuals as the late Joseph L. Lewis, of Hoboken, that is, if patriotism means love of country, and if leaving a good thumping legacy in one's will is any proof of affection.

There is an old and a stupid fiction about the bold Briton who armed himself on the steamer, before landing in New York, in order that he might be prepared for shooting either the Indians or buffalo, whom he expected to see prancing around the corners of the streets in the city.

On the Brooklyn side the descent of the grounds surface is so much steeper, that the "approach" to the Bridge is but 997 feet. Including the land space on each side, the total length of the bridge and approach is 5089 feet, or 780 feet over one mile. The width is 85 feet. There are four suspension cables each 15 inches in diameter and each cable comprises 3300 steel wires, wrapped into cylindrical coils. The foundations for the towers are laid 45 feet below high water mark on the Brooklyn side and 78 feet on the New York side.
