> of wool per annum. The time when stock-raisers catch it is on the occasion of such a hard winter as they had here two years ago. At that time hay sold at \$300 per ton in the San Juan country, though this is nothing compared to the earlier days before irrigation when hay sold at twenty five cents per pound, and green grass was as scarce as hen's teeth. It is related that in the summer of 1860 an old Frenchman made a stug little raise at packing grass up from what is called the Flowery District on an old horse. This grew in bunches about a rod spart, was about the thickness of a riding whip, and from six to eight feet long. Having no scales, the old man used to count his hay out, giving from three to five stalks for a pound, When this kind of hay was criticised by his customers, the good old man who did his mowing with a hatchet, was wont to "Ah, sare, I agree wis you. Zee hay is a leetle coarse, but he is very suculent. Besides, I give zee good weight. I nevaire cut one bay in two-nevaire
