FARM NOTES.

-Millions of pounds of honey go to wast This Institution is thoroughly established, and, being so favorably known throughout the country, receives a very liberal share of for want of bees to gather it. -Nearly one-third of all the sugar sold on the English market is best-super. -Vegetables make good feed for hogs, and There are to-day over 300 Students in scthey ought to have all they will eat.

-York county, Pennsylvania, reports The Diptoma and the President's recon colt that kills and eats chickens, pigeous and ducks.

> -Twelve tons of beets to the sere is a frequent European average, from which is extracted 1.5 tons of sugar. -The fifth annual Fair of the Delaware

During the past year, of the number who attended, 84 were placed in lucrative positions, and many more secured places through 26, 27, 38 and 29, 1882, at Dover. Agricultural Society will be held on Sept. -Pinkeye is troubling the horses of the bluegrass regions, Kentucky. It is also ac

companied by searlet and other fevers. -Prices asked by American breeders of 7 00 the pure bred Polled Augus cattle are as made in Plasters.

15 00 high as \$850 for cows and \$1500 for bulls. -It is said a dip, of water one gallon, enzine eight sunces, and cayenne pepper we ounces, will kill vernin on sheep. -One cow, horse, sheep or pig well fed is WILLIAMSPORT, PA.

nore profitable than two kept on the same amount necessary to keep one well. -Robert A. Hall, of Richmond county Va., raised 200 bushels of wheat this sensor rom four acres. It was the "black bearded

To the FARME S OF PENNSYLVANIA -Never use the currycomb on a horse' legs below the knee and hock. A corn broom is best since it takes out the dirt and does not hart the horse.

-French people are skilled agriculturists, as farming is taught practically and theore tically in 27,000 out of 34,000 public schools in the country.

-There are over sixty corn-canning establishments in the State of Maine, and the number of cans of corn annually put up is nearly 12,000,000. -Experience shows the the farmer who

pork at home succeeds better than the one who raises only the article. -The coming fat stock show at Chicago gives promise of still greater success than those of the past years. It will be held from the 16th to the 2 d of Nov.

raises his wheat, his corn, his mules and

-Probably no fruit is more certain of nore easily grown than the rlum, if the slight labor of jarring the trees and destroying the curculio is faithfully attended to. -Double glazed windows are nearly as

warm as a brick wall. The glazing must be done in a clear, dry day, so as not to inclose moist air, which would cause mist -From statistics gathered in India at an

pears that cholera is far more deadly in the open than in the wooded districts. This is another inducement to preserve forests. -The sweetness of fruit has but slight orrespondence to its proportion of sugar; currents have more than respherries and

strawberries, and three times as much as -Take a little time to go around and ook after the scions that were set last spring. The sprouts need clipping off, and now is the time to attend to it if it has not already been done.

-Thin out sprouts from trees where new ranches are not needed, especially on the trunk or near the ground. The injury to trees from leaving such sprouts till fall is Wall Papers, considerable.

-A good preparation to mark sheep without injury to the wool is said to be thirty large spoonfuls of linseed oil, two ounces of litharge and one ounce of lampblack, all boiled together.

-A tin-lined butter-tub makes a firstrate cake box, or by taking off the wood on the outside or justing on a short wire handle you will have a serviceable tin pail. This pail is particularly good to use on the stove

to heat water in. -To make tomato broth, stew temptoes n a quart of white stock ; strain it to get rid of the seeds, return it to the fire and add a capful of rice. Let it boil until the rice is fully swelled, and then dish and serve with more cut up chicken in the tureen.

-Fruit in Honey .- Fruit may be pre served with honey. Put the fruit first into a jar, and then pour honey over it and seal air-tight; when the honey is poured from the fruit it will have the appearance of jelly making a delicious dessert.

- A quick and effectual method to der troy plantain and other weed pests on lawns is to cut the plant off at the crown, and drop on the top of the root two or three draps of kerosene. The lawn will not be defaced by digging, and the work is at once completely

-The taste of ginger cookies can be improved by half a cup of cold coffee instead of water. There is almost always at least so nuch left after breakfast; or, if not, put a little water in the pot and let it boil for minute or two, and strength enough will be given to flavor the cookies.

-It is surprising that more persons do not grow lemons in pots and tubs as room erns ments. A comparatively young plant will grow from twenty five to fifty a year, and usually they are much better than those we buy. We saw a test recently where one Nature's Sparkling Specific for indigestion the quantity of juice to a first class store and billions area, the water of the name a Sett. was taken from a tree which yielded double

and filliousness, the water of the manous Seitper Spa. is duplicated in a moment with a
spoonful of Larrany's Shilling Appariany,
which contains severy valuable element of the
German Spring. The greatest physicians of
