Tan Legislature will meet next Tues. day. It will reapportion the State, and will be called up on to do a great deal of r form work for Ph ladelphia. The organigation is important. The House is Democratic and John E. Fannes of l'biladelphia stands the best chance for Boosker. The S-nate has a Republican majority of ten. There has been a moveerats to unite on John Stewart, Beaver's i idependent rival in the recent election for President pro tem. This would insure a fair reapportionment. Don Cameron has taken a hand in the organization, and has named John E. Reyburn of Philadelphia. He claims 27 votes for Reyburn, one more than a mejority. Reyburn has been an advocate of jobs and Rings.

The parlors and corridors of the White House which have been recently decoratand refurnished by Louis C. Tiffany & Co., of New York, were opened to-day for inspection by members of the press. The designs of blending colors present a r ght royal appearance, and all of the failing features of the old rooms have Leen entirely obliterated by beautiful and camping efforts. The East Room is covered by an Axminister English carpet of simple design and effect, and is othervise the same as before. The octagonal line Boom presents an oriental appear ance; the walls, ceiling, furniture and carpet are of pale blue, with changeable Filk curtains, mossic trimmings about the mantel, seven-burner mosaic sconces rbout the wall and rais d metal designa and couts of arms encircling the ceiling. The Red Room is replete with gold trimmed mirrors in mosaie design, red garnet v lyst furniture, gold and copper stardesigned celling and terra-cotta walls, with piano of same Lue. The State Diring-room adjoining is ficished in olivgreen, and a door has been added leading to the conservatory. The hall approaching the Blue Room is fuished in gold and olive, with brilliant gold alcoves and colossal pots of palms. The changing ffects are numerous and beyond descrip-
