## Ayer's Hair Vigor

1st. To prevent falling out of the bair. 2d. To prevent too rapid change of color. 3d. As a dressing.

It has given entire satisfaction in every Yours respectfully, WM. CARRY CRANE."

AYER'S HAIR VIGOR is entirely free from uncleanly, dangerous, or injurious substances. It prevents the hair from turning gray, restores gray hair to its original color, prevents baldness, preserves the hair and promotes its growth, cures dandruff and all diseases of the hair and scalp, and is, at the same time, a very superior and desirable dressing.

Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists.

Farm and Garden Notes. -The use of coal ashes in the hill with seed potatoes is said to prevent them from growing scabby.

-Ungratefulness is the very poison of -One of the heat coatings for tree wound -Prosperity is no just scale; adversity is is gum shellar in alcohol. It effectually excludes sir, and the wound quickly heals -He benefits himself that doeth good to

-A New York gardener believes that to reco tea, occasionally syringed over infect el plants as a far better insecticide than to eco smoke.

-It is not only necessary to select the plampest seed of wheat for seed, but it - Eternity is long enough to make up for making such selections the largest and net pertect heads should also be observed -Too great refinement is false delicacy -There is no doubt that, with good crop of fruit here, our export of evaporated ap--The reproaches of enemies should quicken us to duty and not keep us from it. ples can be immensely increased. In it - Nothing will so increase and strengthcountry is fruit so scarce and dear as in en the virtues as practice and experience in | England.

-Soot is one of the best manures for rouse plants and, if it can be had in quan ti les large enough, it is excellent for out of door use. For the latter it is best mixed -We ought not to be proud of wel -doing, with one tenth its bulk of sait. for the judgment of God is far different

- Corn can be perfected by going through the fields and cutting out the stalks the do not exhibit the proper form in stalk and ar, and the seed now ready in the barn an also be assorted with benefit,

- A batter maker, writing to the Iour Hamrstead, says the best butter color is padful of corn meal mush, fed warm ence a day, the corn to be of the yellow variety adding that it will increase the milk and batter as well as give a good color.

-An regenious Virginia woman has dis vered that saturating the bag containing her seed beans with coal oil uttererly ex terminated the weevil inside and out of vare soon parted; but the fool must have the beams, but did not harm the seed in the ad money to be parted from. Score one least. Probably the same treatment would serve with infested pens. - A young Nebracka farmer refused to

-Don't follow in the same rut this sea on that you did last. Do something dif ferently. Try experiments of some sort ive the boys a chance to grow a crop of heir own account. Save time, money an abor by using your brains and having your dans for each day's work well matured the ight before.

-Sir Humphrey Dayy found that the out fertile soils, among those which were t for plowing and tillage, would abser he most moisture from the air, and woul no retain the most musture when stirred and exposed to the sun. This may be : guide in selecting fields for certain crop when the gardener wishes to select a speon which to grow a premium crop, or a aspecially good place for some choice see [or plant. Care should be taken, however -t to mistake a field that is wet for lac! sufficient drainage for one such as is to rred to above.

-A good cost of paint upon farming vils is a profitable investment, whethhey are put in the sheds every night, a ney should be, or whether they are stable a fence corners or under apple trees. In ne latter case the painting is of the utnos usp tance. Five hundred dellars' w ril carts, sleds, wheelbatrows, n ac lines iorserakes, plows, harrows, halders and ther tools can be purnted with less than \$5. worth of point, and it can be put on in rainy day, or in any convenient time, and such precaution will double the period of their usefulness.

-Scabby leg in positry is caused by minute insect that burr we beneath scales upon the leg. An occasi uni washing o the rousts with kerosche oil is an excellenpre entive, as it is also against other yer min. If the disease has started it, the fi ck then wash the turkeys with a mixture of one half water and one half kerosene. Repeat the applicate n in a week if a cure is not effected by the first wash. Do not use he wash too strong lest it cause avelling of the legs, or even paralyze them. In very bad case separate the diseased fowl from the others, use the solution weaker than above and repeat in three days.

Bee Notes for July. Apiarists are now in the midst of the ioney harvest. The white clover is hardly one, the incomparable sweet clover is ye n bloom, and the basswood flowers ar opening stores of enticing nectar. Beckeep ers who are working for comb honey ste ul farnish abundant sections, that the bees will not lack room. Crowding at this sesson neans swarming and loss. If the finest honey is desired, the sections must be renoved as soon as filled and capped over. If xtracted honey is the aim, it should be extranted frequently. In no case should this be deferred longer than when the bees begin to eap over the loney. Extracted beney should be kept in a dry, warm atmosphere and then even thin honey will ripen and be equal to that which was copped over by the bees. The different grades of extracted honey should be kept separate. Clover, muc; alike that, to mix them, will do n harm; but never should the dark nectar o autumn be mixed with the light honey o summer. Higher prices will be obtained by keeping each kind of honey by itself .- Ag-

riculturist. Household Fotes. -Xaver let the few test

-For rough hands use lemon jules. -Strong lye cleans tainted park barrels, -Tepid milk and water cleans oil sloth without map. -Paint splashed upon window glass can by
