[OUR REGULAR LETTER.] WARRINGTON, D. C., July 9, 188?. This is a favorite season for a visit to Mount Vernon and during the months of July and August the average number of visitors is greater than at any other time. Never is the quaint and beautiful old comestead lovelier than in summer. I was in 1858 that Col. John Washington saw that Mount Vernon would have to go by the auctioneer's hammer if something lid not turn up, and here comes the ro nance of Mount Vernon. A woman who had been a confirmed invalid since her nineteenth year raised a fund of \$200,000 and embodied a plan that gave Mount Vernon to the nation. This was Anne Pamela Cunningham of South Carolina, She was an only and indulged daughter. In her childhood she had visited Mount

The alteration was printed across the face of the stamps, and they were reissued ust as if they were new. With the bank checks it is different. Many of the banks have their own checks and drafts with the stamps printed upon them. These are made into books, some of which are gotten up on a very elaborate scale. Most of the banks do not like to lose the checks, though the stamps printed on them are now worthless, and the department has consented to return the books after canceling the stamps and noting the amount of debate. The number of stamps in each book is first counted by an expert from the Bureau of Engraving and Printing and account thereof taken

The books are then passed to the ladies before mentioned, who, with a small hand stamp, print the word "canceled" across the face of the stamp, and the book of checks is ready to go back to the bank from whence it came.
