MANHOOD
 How Lost, How Restored!
 Just published, a new edition of Dr. CUL-
 VERWEL'S CELEBRATED ESSAY on the
 radical cause of FEMALE OBSCURITY or Gen-
 eral Weakness, Irregularity, Scarcity of Men-
 struation, Mental and Physical Debility, Impur-
 ities to the Blood, etc.; also, CON-
 SUMPTION, EPILEPSY, AND ALL THE NEU-
 ralgic and other nervous affections.
 The celebrated author of this admirable Es-
 say, is a native of the United States, and a
 physician of high standing in his country.
 He has cured thousands of cases of the
 above complaints, and his success has been
 attested by the highest authorities in medi-
 cine. He writes in plain, concise, and easily
 understood language, and his directions are
 so simple, that every one can follow them
 with perfect safety. The price is only
 25 cents, and it is sent by mail on receipt
 of the enclosed stamp.

IT LEADS ALL.
 No other blood-purifying medicine is made,
 or has ever been prepared, which so com-
 pletely cures the various diseases of the
 general public as
Ayer's Sarsaparilla.
 It leads the list as a truly scientific prepara-
 tion for all blood diseases. If there is a
 scurfy eruption of the scalp, or if the
 scalp is itching and sore, or if the
 hair is falling out, or if the
 complexion is sallow, or if the
 system is generally disordered,
 Ayer's Sarsaparilla will
 cure you. It is made of
 the most valuable medicinal
 plants, and is perfectly
 pure and safe. It is
 sold by all Druggists and

FARMERS' COLUMN.
 —Gloves remain very long worn.
 —Reglans for traveling have Japanese
 sleeves with button tabs.
 —The empire puff worn at the bottom of
 the skirt has been revived in Paris.
 —Small mantles of cloth are newer than
 jackets with tailor made cloth suits.
 —Transport sleeves of lace or embroidery
 are much used for handsome dresses.
 —Jackets different from the skirt will be
 much worn at watering places this Sum-
 mer.
 —Both high and low collars are worn
 by fashionable women, but they must be
 small.
 —White Danish kid gloves, decorated with
 lilies of the valley, are worn by brides-
 maids.
 —English turbans and French ones divide
 the popular favor of young ladies at the
 moment.
 —Long shell or metal hairpins take pre-
 cedence of all other ornaments for the
 hair.
 —The plaids and checks of new gingham
 come in admirable mixtures of all the new
 colors and shades.
 —Red in moderate quantities gives a fine
 dash of bright color to black, gray, pale blue
 and eury shades.
 —Pansies of all colors and sizes on
 grounds of various colors appear in eury
 effects on some sash ribbons and scarfs.
 —The high novelty in walking suits in
 Paris is a combination of fine black cash-
 mere and white moure on Ottoman silk.
 —Scotch plaid glass silk of very dark
 colors are used in combination with
 cashmere for some dress costumes.
 —Sun umbrellas are to match the color
 of the dress, and are mounted on thick
 wooden sticks, with handles studded with
 gold.
 —It is fashionable to wear very large
 sun-umbrellas of printed satinette to match
 the color of the dress; the large fan is
 made to correspond, or else it is a bright
 red.

Get Your Money Back!
 The present Legislature at its regular ses-
 sion passed a law authorizing the refunding
 of restaurant keepers the \$25 which they
 were overcharged in Schuylkill, Carbon,
 Lebanon and Montgomery counties in 1874.
 The new liquor license bill was passed to
 the year end. The restauranters were then
 charged \$50, the same fee as hotels, by the
 Treasurers of the four counties mentioned,
 while in all others \$25 gave the same rights
 and privileges. The Governor approved the
 bill.—Ed.

Keep the Soil Occupied.
 The success of the market gardener de-
 pends, in a great measure, upon keeping
 the soil constantly occupied. No portion is
 allowed to be idle, but as soon as one crop
 is off, another occupies its place. The owner
 of a family garden will find it to his
 advantage to follow the example of those
 who raise vegetables for market. The
 methods which are profitable for those who
 raise vegetables for sale, may be followed
 by those who dispose of their produce on
 the family table. The soil will produce
 something; if not a useful crop, a crop
 which is not a useful labor to keep
 the soil in subjection as it is to cultivate
 a growing crop. The old-fashioned way of
 "making garden" in spring and sowing
 everything at once, and for all, is wasteful.
 Peas, early potatoes, early cabbages, and
 others have been removed by this time
 and their places should at once be filled by
 something. Such vegetables as remain in
 perfection but a few days, of which sweet
 corn is a marked example, may be enjoyed
 for a long time by sowing every week, and
 the sowing may be done this month with
 fair chance of good returns. Beets, beans,
 cucumbers, kohi rabi, spinach, radishes, an-
 tennas (especially the White French) are
 among the vegetables which may profitably
 follow the early crops that have been re-
 moved. If there are late cabbage plants in
 reserve, set them in every cleared place;
 they will yield a good supply of useful food
 for the cow if not needed for any other use.
 —Agriculturist.

Miscellaneous.
 —Nearly 200,000 more hogs have been
 packed in Chicago this season up to the
 present time than a year ago. Kansas City
 is fast gaining on Chicago in the number of
 hogs packed, and already it stands second.
 —The editor of the Nebraska Farmer pro-
 poses crossing the Berkshire and Chester
 Whites both ways, with a view of produc-
 ing a new breed of swine, something which
 will surpass in excellence anything in the
 hog line.
 —Corn for fodder may be sown, or rather
 drilled, until about the middle of July.
 It is a good plan to select an early season
 variety—the Minnesota Early is about as
 good as any. Drill in double rows wide
 enough apart to allow the cultivator to run
 through.
 —There are people living who remember
 when the tomato was a despised product
 of the soil, but last fall the growers put up
 180,123 cases of tomatoes, containing 2,
 322,052 cans, one for every man, woman
 and child in the country. Maryland can
 now compete with any other State in this
 country.
 —To make Lemon Custard, take two ve-
 getable cupsful of sugar, six six lemons,
 one tablespoonful of flour, two tablespoon-
 fuls of cream. Drain and squeeze the lem-
 ons, mix the sugar well with them, add the
 well beaten yolks, then the flour, the cream,
 and last of all the well-beaten whites.
 Bake them in pie plates, lined with rich
 puff paste.
 —An iron toothed rake will kill more
 weeds in a garden in an hour than a hoe
 can kill in three hours if both are used
 when the weeds are just showing their green
 leaves above the surface, and more than the
 hoe could kill in a day two days later. Such
 a rake will run over corn, peas, potatoes,
 onions, carrots and beets until they are two
 or three inches high without injury, ex-
 cepting to the weeds.
 —The dirt and chips around the wood-
 pile and leaf-mould from the forest, spread
 upon the ground and plowed in, are very
 valuable in fitting land for an orchard, and
 if the latter is used for a orchard around
 young trees it greatly promotes a vigorous
 growth especially if the old mulching is
 applied in one or twice in the year, and a
 new application made. Such mulching
 around young trees helps to keep them from
 winter killing if put on in the fall. It put
 on in the spring it keeps down weeds and
 saves from the effect of a severe drought dur-
 ing the summer.
 —Enrich and revitalize the blood by
 using Brown's Iron Bitters.
 —Logic is logic, and it does not follow
 that Noah brewed beer in the ark because
 the kangaroo went on board with sheep.
