—Charles Ketch, who was reported as having died last week in the Hazleton prison, is a very animated corpse, and "handy with his vittels"—moreover. This is a good subject for "Why Not Try."

—Lewis Schloss, a newsboy, sixteen years of age, was cut in two on Monday night at Mohrsville. He had gone to work on Saturday as newsboy on the Philadelphia & Reading Railroad. This has never before been done either in Europe or America. Rails have been rolled direct from the pit, but not 120 feet in length.

—The tax suit of the Commissioners of Northampton county against Lafayette College was decided at Easton on Tuesday. The county claimed that the college property, valued at $750,000, was not exempt from taxation, as the college was not a charitable institution, inasmuch, as it charged a tuition fee and rented out its rooms to students. The defense was that the college was not self supporting. The court assessed the total tax at $300, while the amount sued for was $5,000.

—A picnic was held on Saturday last at Stemlersville. It was well attended, especially by the young, but some are in danger of having sore mouths from getting so many kisses. No wonder.

—A party of young ladies and gentlemen, from Lehighton or Weissport, were out here on a pleasure trip last week. We hope that they enjoyed it well, though they ought to use a little more sense in regard to some of the country people not to insult them. They might lead themselves into trouble.

—The Walcksville Sunday School will celebrate its annual picnic at the old picnic ground on the 9th.

—It is believed by the farmers' that the potatoes will not turn out as was expected.

JOE.

Packerton Ripples.

—Our public schools which opened about the middle of August are well attended.

—Quite a number expect to go with the excursion to Calypso Island on Friday.

—Several additional coal trains are to be put on the Lehigh Valley road to run between Packerton and Amboy. The increase in the shipment of coal to that port necessitates this step.

—For some reason or other, not known to your correspondent, the Lehigh Valley Railroad Company has suspended quite a number of their men in the blacksmith shop, stopped the gravel trains at Mauch Chunk, lessened the number of them in the various sections along the road and stopped work almost altogether at the new round houses, thus throwing hundreds of men out of employment who greatly need work.

—The company is curtailing its expenses in every way possible, probably so that they can declare a large dividend at the end of the year.

—Cellars are being excavated in Rigel's addition for the building of several more houses. We suggest that the village now being built shall be called Happy Hollow.

A Mauch Chunk Democrat.

DEAR ADVOCATE:

In the Mauch Chunk *Democrat* of last Saturday appeared a couple of paragraphs purporting to be the copy of a cablegram from the Queen of England to Mr. Livsey, congratulating that gentleman upon his nomination for the office of State Treasurer. The *Democrat* quotes from the Philadelphia *Truth*, which, we presume, is supposed to be a comic paper. There is not much fun in the joke anyhow, and if it is meant in any serious way to influence the coming election it is a bare faced forgery. But its publication now—for whatever purpose—is only part of a base and pernicious electioneering method which should be promptly exposed. I have noticed that ever since the nomination of Mr. Livsey he has been bespattered with a spray of paper pellets from the pop-gun artillery of the *Democrat*.

The "head and front" of his offending is that at one time he was a British subject and served honorably in the British army. There is not the shadow of a charge against his morals, intellect or political character, nor is it insinuated that he has been remiss in a single duty of American citizenship. Now the Constitution provides for the naturalization of foreigners; and by complying with all the requisites, as Mr. Livesey must have done to procure his nomination, he is as well qualified for the office he desires as any legitimate descendent of William Penn who never spent a day outside the State of Pennsylvania.

It is no particular blemish to have been born an Englishman, as it is no particular glory to have been born an American. Such events are fac's, like the nose upon a man's face, over which "the fellow himself" has very little control—especially at the commencement. The important matter is whether, having been born at all, a man becomes a good citizen of England or America.

The attempt to vilify or belittle an honorable man, by making a crime out of his birth, is childish, contemptible and utterly undemocratic. It is a weak revival of the Know-Nothing pestilence which, we thought, had long since been exterminated by turning on the stream of political carbolic acid. The effects of the *Democrat's* efforts to reproduce the plague will merely be to kill many of the democratic votes in this district. I have always been a Jeffersonian Democrat, and firmly believe in turning the present rascals out, but I detest the Know-Nothings more than "the rascals," and having considered carefully the meaning of the paltry abuse lavished by the *Democrat* upon a high-minded honorable man like Mr. Livsey I should most certainly vote for that gentleman and urge all my friends to go and do likewise.

Yours &c.,
AN ANTI KNOW-NOTHING.

Reply to "Inquirer."

"PERTINENT INQUIRY" was hard on our "native doctors" last week. But he is all at sea when he talks about "Specialists" and lack of ability, thereby insinuating that we have poor material in the medical profession. He does not know what he is ta king about. I will wager him or any other fellow, that there is not another place in the State with as many Specialists as Lehighton, or lower Carbon. Let us enumerate from your advertising columns and from the sign boards. There is an M. D, Ph. D., M. L. N. O. P., (if you know what that means, I don't). Next, a physician and Surgeon, specialist on Salt-Rheum; next, a doctor, on eye diseases and wall paper; next, a venerable M. D., U. S. Ex-Surgeon on Pensions; next, a specialist on hydrophobia or mad dog bites, and, if we go beyond Lehighton, we may find an M. D, who with Therapeutical ability can prescribe R. R. sills, fence posts and fire wood; one who deals out big pills and little pills, and he who with the most dignity of all can Pow Wow for fits and for fever, with or without medicine, ad infinitum, nil. desperan dum. Now I challenge "Inquirer" to give a better variety and to name a better supplied community than we have. And among our enumeration above, we may find most excellent material; one or more who can boast of having performed every operation on the human subject performable, even unto the reduction of a dislocation of the neck, and, if there is any merit in self laudation, such a one has certainly deserved the name of Dr. Blowhard. Quite a number own, possess, carry and wear gold-headed canes, gold medel lob chains, and diplomas of various sizes and shades as trophies of their theoretical proficiency, confirming them in their self sufficiency, notwithstanding their *practical deficiency*. Have I overrated or underrated, or have I classified in the above enumeration, any who may not belong there? If you believe it not, examine the record at the county seat, where you will find the austere Pow-wow's name recorded along side of the most golden-spectacled, dignified M. D. No partiality shown in this free, enlightened, Democratic country of ours! All recorded at $1. a head. They are all legalized doctors. All belong to the medical fraternity — the brotherhood of Æsculapius. "How is that for high?"

So stand aside and let the Medical Institution follows play, for it is they who get the money.

Public School Teachers.

MR. EDITOR:—In the last issue of the ADVOCATE, as well as in the previous one, are found communications relative to our public schools and the teachers who have charge of them. Permit us therefore, also, Mr. Editor, to express our opinion in your columns on this subject from the standpoint of a private citizen. We were well pleased with the scholarly ideas, and with the phraseology of Falkland, and can say with the correspondent from Mahoning, "Them's our sentiments too," only we beg leave to differ with him when he says "The growing generation is, in many respects, worse off than the preceding one." While we do not argue that the literary attainments of the teacher of to day are far in advance of the master of the past, we do say that our rural public schools have progressed in the matter of houses, furniture, text books and apparatus. In the rural districts, fifty years ago, "the school houses were few and far between," generally built of stones or logs, with a six foot ceiling so that some of the masters had to stoop when they wore their plug hats. Oiled paper was used for window panes, and for closing the crevices between the logs. The furniture, too, was of the most primitive kind, the benches were without backs, for in those days the boys and girls had backs of their own, and the ventilation generally was through the roof, thus affording the boys an opportunity for the study of astronomy at their seats in the day time. Now we have better houses, improved furniture, and in most schools some apparatus.

But while we have these improvements we must nevertheless admit that the teacher is the school. As he is so is the school. What kind of a man can a school board hire for $25 per month? It is but natural for a man to follow his own human interests and what trade, art, craft or profession have we that does not pay more than is paid for the average country school teacher? Reasoning from these two standpoints what kind of men can we expect to find in the school room? Again we say that to employ men who are only worth $25 a month is false economy. We do not wish to say that they rob the district, nay, any teacher earns more than that, but the precious time of our youths is wasted. The average school life of our country children is about eight years, which, by having five months each year, would give us 40 months or 3⅓ years schooling. Can the people of the country expect to prepare their children for the issues of life in this short time? Our school terms ought to be lengthened and the salaries for teachers ought to be increased so that teachers can prepare themselves for their calling and rest assured that it will give them and their families bread and butter. Then our children can be prepared for the responsibilities of republican citizens upon whom rests the destiny of our country. All hail that glorious day. CITIZEN.

A Surgical Operation.

On Wednesday morning Surgeon L. Bower and Dr. G. Elskamp performed an operation upon the contracted limb of our young townsman, Allie Bartholomew. Dr. Seiple rendered valuable assistance to the skillful operators, and two representatives of the ADVOCATE were in attendance. The contracted ligature at the knee joint, arising from what is commonly known as "white swelling," had to be severed, and after the patient was well under the influence of chloriform, Surgeon Bower went about his work with great quickness and dexterity. A marked improvement in the straightness of the deformed limb was perceptible immediately after the work was done, but it will take a day or two before the full result can be known. There can be no doubt of the knowledge and practical skill of Mr. Bower, and the chronic cases taken up promise to be all successful.

Mahoning Squibs

—Farmers are busily engaged in gathering their potatoes into the cellars. They feel proud of the good crop of potatoes which they have this year. Amandus Kistler expects about one thousand bushels, which is an enormous amount for this section.

—On Tuesday morning "Jack Frost" paid the visit first to us for this season, and the second on Thursday. It did some damage along the waters, among the grapes.

—Last Saturday at our examination there were eight certificates issued out of a number of ten. There are nine schools in the District and so we need one more teacher to fill the vacancy.

Longacre, negatives, A. J. Balliet and T. D. Klingman. The question for discussion is Resolved, "That the child should be more encouraged in the study of History in our public schools." All are invited to attend.

—In order to please some citizens of Drifton, John H. Haskenberger has been removed from his school in Ebersole to a small third class school in Jeddo.

—About noon, on Wednesday, a man in charge of a policeman, who was taking him in a railway car to Philadelphia, jumped off the cars near Allentown. The train was going at the rate of thirty miles an hour, but the prisoner was not injured and made his escape into the woods.

SENSIBLE MEN and women know enough that of the many diseases and derangements of the body each has a separate cause or origin, and that each needs a different method of treatment in order to effect a cure, and a moment's reflection must convince that any of the quack nostrums foisted upon the public claiming to cure all or a number of dissimilarly different diseases must prove failures, even if we do not call them humbugs.

POOR PEOPLE and people of moderate means, and even people well-to-do or wealthy find that *enormous charges* of practising physicians are a serious burden to them, and also find that after paying themselves poor that no benefit has accrued to them, that in fact they have thrown their money away. To overcome these evils we offer *Wheeler's No. 96 Sure Remedies* to the sick and suffering *one Remedy* for each disease, without for a moment claiming that one remedy will cure any other disease than the one claimed for it, and as these remedies have stood the test of years without a single failure, we agree to *refund the money* paid in every instance where a cure is not positively effected. The remedies are entirely vegetable, can do no harm, and will positively cure every disease for which they are prescribed.

RHEUMATISM Gout, Lameness of Joints Sciatica and Neuralgia are relieved at once and positively cured by the use of Wheeler's No 96 Rheumatic Remedy. We say boldly that in the worst cases of no matter how *long standing*, how *severe* or how *painful*, we can not only give relief but *positively cure* for all time. Failing to do this we will positively refund the money paid for treatment, and if your sufferings are not positively stopped for all time you have not thrown your money away as you would on any other than these guaranteed remedies. The price of Wheeler's No. 96 Rheumatic Remedy is only 50 cents, obtainable from druggists or sent free by mail on receipt of price. Stamps taken.

SUFFERING WOMEN. Many a lady endowed by nature with a pretty face, beautiful figure, faultless complexion, as well as the sweetest of tempers and faultless mental qualities grows prematurely old, gray and wrinkled, her form loses its perfect contour, the complexion becomes sallow, the brightness leaves the eye, a feeling of languor takes the place of the once buoyant spirits, an irritable nervous fractiousness makes life a burden, things that once were trifles worry her till life becomes unbearable. All this being caused by he physical derangements so common to women, which the innate modesty of feminine nature prevents their making known, and of which the ignorance of the medical profession prevents a cure. Lady Reader, pause and consider, 'tis a duty you owe yourself, your family, and your God, that you should cure yourself of these troubles and once more feel the glow of perfect health and spirits that nature intended for you. *Wheeler's No. 96 Prescriptions* are pleasant and palatable to take, contain nothing of an injurious nature, and may be taken by all ages at all times and in all conditions without possibly any ill effects, and will positively cure any of the peculiar diseases to which females are subject. Failing to produce a perfect cure the proprietors will refund the money paid for the treatment. If you have a sallow complexion, constant or intermittent headaches, backache, restlessness, loss of appetite, suppressions of monthly flow, or irregularities thereof, accompanied by headaches, nervousness, hysterics and similar symptoms, *Wheeler's No. 96 Prescription "B"* will positively restore you to health. If you have a sensation of heat and throbbing in the back,
