20 or 30 milit Professor John Tyndall, in a late work, claborately treats of the influence of germs in the propagation of disease and charges upon this cause, the inception and developent of very many of the silments most injurious to man. Professor Pasteur, an eminent French ravant, has carried his original and beautiful experiments so far, in Tamaqua about ten years ago.

The work of laying the foundation for to which it belonged was down the road then called. It was that of William Harris, chicken cholers among fowls,-proving his theory that these are essentially and actually germ diseases. These germs are carried into the system through the lungs, the stomach and possibly the skin, but through the lungs chiefly. Once in the system, they begin to develop, poisoning the blood, in yading the nerve centres, disturbing the functional activity of the great organs of the body and inducing a general impair--Five hundred tons of coal were taken tending a picnic at Beaver Brook, left the ment of the vital processes. They are the numbers 387 Posts and ims 33,000 members. from the Hillman mine Wilkes barre last picnic grounds toward midnight and drove cause of fevers, rheumatism, Bright's di-.- At Port Jervis, he who has a fancy to week. This is considered good work as no to Yorktown, where both men lived, not sease of the kidneys, pneumonia, bleed

road has never been so great as this year, as a summer resort, more attractive than drinks occasionally. It is said that on such nerves clastic and the exact all aglow Especially has the through pessenger traffic livery stables as are to be found in this or any other county. The proprietor is always on hand to attend to the wants of his many patrons, and picnic parties, families, lovers and business men will find at his stables every variety of carriage and quadruped.

The Mahanov Record wisely observes that every subscriber for a country paper can do much for the paper by becoming a reporter for it. That would greatly help the editor in getting out a readable sheer. No Whiskey!

BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intem ance by promoting a desire for rum.

BROWN'S IRON BITTERS is guaranteed to be a nonintoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxicating beverages.

Rev. G. W. RICE, editor of the American Christian Review, says of Brown's Iron Bitters:

Cin., O., Nov. 16, 1881. Gents:—The foolish wast-ing of vital force in business, pleasure, and vicious indul-gence of our people, makes your preparation a necessity; and if applied, will save hun-dreds who resort to saloons for temporary recuperation.

BROWN'S IRON BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief.

THE BEST

which speedily cures such aliments on the HUMAN FLESH as II he u matism.
