HAYFEVER DE

Over in the Soudan, in Khartoum, on the White Nile, this famous general is now threatened with annihilation. As the special agent of the British Government General Gordon was dispatched up the Nile on a mission of conciliation and reassurance to the Soudanese, and for a short time after his arrival to Khartoum and the issuance of two remarkable proclamations declaring that the rights of the natives would be protected and the slave trade again allowed, it seemed to the world that General Gordon, with a handful of men armed with the diplomacy of peace offerings, would prove a conquering very against the ermy and cause of the also-phrophet. El Meadi. But a reaction occurred and to-day, the situation is of

the most alarming character for the personal safety of General Gordon. Even while this article is in type the news may be fished across the Continent that Khartoum has fellen and with it brave "Chiceae Gordon."

General Gordon was the youngest son of the late Lieut. Gen. H. W. Gordon, R. A. After receiving a a liliary education at Woolwich Academy he served in the Crimeau war with great credit. In 1860 he visited China and by a bold and dashing yet judicious support of the Chinese Emperor in the Taiping Campaign he begoes the following the contess Emperor in the Paping Campaign and beneaforth was known as "Chinese Gordon." His reputation now grew worldwide. The late Khedive of Egypt, Ismail Pasha, called General Gordon to his aid in abolishing the infamous slave trade and strengthening his decreasing power. After a labor of five years on the White Nile, in Darfour and Cardovan, he had partly accomblished his mission and returned to London, as the present Khedive, Tewfik Pasha, was not favorably disposed to him. The present Egyptian complications induced Gladstone to send General Gordon into that country as a conciliator. His loss would be a calamity to his government. He is at present fifty-four years of age.

THE CLIMATE

North Carolina surpasses that of any othor State in the Union, being tempered on one side by the Alantic ocean and on the other by the high peaks of the Appalachian Mountains. The average fall of snow for the en-tire winter is six buches. The average number of foggy days are two (2) No part of the State is suiject to destructive gales. Mean annual temperature for the State 19, Sumer 75, Winter 45, rainfall 45 meher. While the cold of the winter is not severe, the tempossiture of mid summer is not so trying or expessive as farther North While there ar bundreds of sunstrokes in New York Stat every summer, the disease is almost unknown in N. C. During a late winter of unusual severity, the thermometer several times ropped to 30 degrees, and even to 40 degrees below zero in lowa, Michigan and New York, here 10 degrees above zero was reached. but once, and then only for one single night.
