Charles Reade, the emicent English novelist, who died in London, April 11, was born in 1813, at 1) aden H use, Oxfordshire, England. His father was an eminent scholar, and his mother a lady of unusual intellectual strength, the was educated at Magdalen Gollego, Oxford. After graduation by road haw, gained a Vinerian fellowship at the University of Oxford. In 1812 and was called to the bar the year after. He never practized law, but adopted a literary life, occupying its earlier years in writing for newspapers and magazines. His first novel was "Pog Woffington," published in 1853. "Christie Johnstone," issued the same year, was well received. "It is Never Too Late to Mend," produced in 1856, dealt severely with certain abuses of prison discipline, and created great excitement. Henceforward every work from Mr Reade's pen was welcomed easyrily. The list of his works includes, in addition to those already mentioned, "The Course of True Lave," "Yes, Well, really, madam," put in the youth, his voice all in a quiver, "Griffith Ganut." "Park Yourself in His Place," and "A Terrible Tempitation." (Emma, and that I live for her alone "Yes," broke in the anxions mamand severely condemning their perpetrators.

Charles Reade was a successful dramatist. He published "Gold" in 1843, the first of his plays. "Marks and Faces," "Two Lovers and a Life," and "The King's Rivel," followed at intery is. Several of his stories have been dramatized, uotably "Griffith Gaunt," by Augustia Daly. American readers will remember Mr. Reade's suit against the New York Times because it had characterized "Griffith Gaunt" as an immoral production. Six cents dramages were awarded to the trate novelist by the jury sitting on the case. The deceased wither was a man of great force and originality of character. He loved and hated with velocutenes. His pen was far from being squeamish, for it wrote the truth, and he was unquestionably a great master of the knowledge of human nature.
