

Entered at the Lehighton post-office as Second Class Mail Matter.

A COUNTRY MAIDEN.

The letter below, says the N. Y. Star, comes to us from a young woman in a pleasant village of this State.

I am a young lady 21 years of age, and it is necessary for me to earn my own living. I have done so for the past four years by country school teaching.

Now, I am very anxious to obtain employment in the city, as I think I would have many more advantages for improvement than I have in a small country place.

Will you advise me what chance I would have to gain a position where I could come to the city and learn type writing or telegraphy, or if there is any employment more promising than either of these will you please name it?

In reply to the above, the N. Y. Star gives the following very sensible advice, which we commend to our young lady readers: A young woman who is able to earn her living in the country should hesitate long before coming to New York to hunt for employment.

It would be wise for her to abandon the project at once. Our correspondent has made a mistake in the little village where she teaches school. She probably has about her friends who are interested in her welfare, and during the four years in which she has been engaged in teaching she ought to have won a reputation which is valuable to her.

The judges of the Supreme Court of the United States, presiding at the trial of the late Senator, have been asked to provide each of them with a private secretary.

The recent visit of Gen. Grant to Washington has had no more significance than that of Senators Rabin, Hawley and Sherman to New York. This is an era of political reconciliations, and the man who is said to be the only man who can save New York to the Republicans, is plunging Logan's friends in Illinois into a state of confusion.

It must be noted that the Roman Catholic do not report the number of communicants, but the aggregate Catholic population. The same is true, though for a different reason, of the Protestants.

From statistics we learn that while the locomotives of the country perform the work of 39,676,970 horses, and that America is turning out 1,000,000 sewing machines each year, which do the work of 12,000,000 women, the law of supply and demand and consumption finds plenty of employment for all of the horse-flesh attainable, while multitudes of women who never sewed before find abundant employment in the numbersless units to which the sewing-machine is not adapted.

While a single shoe factory at Lynn, Mass., turns out more pairs of shoes every year than the 39,000 boot-makers of Paris, the same law that exacted a price commensurate with the value of hand labor thirty years ago, exacts from the consumer a greater price for the production of the article by machinery, though the article has not a tenth of those qualities of durability and comfort and general excellence that made our ancestral cowboys proud of their occupation, and their patrons exempt from the agony of corns and blisters.

The combination in the House of Representatives to pass a multitude of bills for public buildings was powerful enough to suspend the rules, and thus to get a hearing for jobs which, had they been presented individually, would have died of inactivity on the calendar.

The bills thus far reported favorably in the House, and those which have already passed the Senate, are now on the Speaker's table, concern thirty-two States. Some of these States get as many as four buildings. That number represents Pennsylvania's share. Texas is allowed two, New York two, Iowa two, Indiana two, and Maine two.

The attack made upon Judge Advocate General Swain appears to be a wrong to the attention of the Secretary of War, General Swain declines to furnish much beyond a general denial that he is in any way compromised in the transactions which have been misrepresented to the country.

FROM WASHINGTON

Regular to the Carbon Advocate. WASHINGTON, D. C., April 22, '84. THE MORRISON BILL. The vote by which the Morrison bill was kept before the Committee of the Whole in the House of Representatives cannot afford much satisfaction to its advocates.

The vote by which the Morrison bill was kept before the Committee of the Whole in the House of Representatives cannot afford much satisfaction to its advocates. The famous measure, which would be the foundation for the success of the Democratic party in the Presidential election in 1884, was introduced for discussion into the House of Representatives, where the regular Democratic majority of the Republicans is 78, by a majority of 238 members were opposed to its consideration, as against 140 who voted to take it up.

The solidarity of the Republican vote must show Mr. Morrison that in spite of the tariff reform sentiments professed by some of the members on that side of the House, he will look to them in vain for any substantial aid.

west end of Long Island to European ports; but the conditions under which these ships, if built abroad, may be admitted to American registry are peculiar. Each vessel must be able to steam at least Eighteen knots per hour, have engines of not less than seven thousand horse power and cost not less than one and a quarter million dollars.

There is a bill by which the Government and the people cannot lose anything and may gain a great deal; indeed, it offers great encouragement to every one who is in any way interested in American shipping. In the first place, it makes possible an American line of steamers without the subsidy which, until now, has always been considered the first requisite to the establishment of a company to compete with foreigners whose ships now do all the carrying between the United States and Europe.

The combination in the House of Representatives to pass a multitude of bills for public buildings was powerful enough to suspend the rules, and thus to get a hearing for jobs which, had they been presented individually, would have died of inactivity on the calendar.

The bills thus far reported favorably in the House, and those which have already passed the Senate, are now on the Speaker's table, concern thirty-two States. Some of these States get as many as four buildings. That number represents Pennsylvania's share. Texas is allowed two, New York two, Iowa two, Indiana two, and Maine two.

The attack made upon Judge Advocate General Swain appears to be a wrong to the attention of the Secretary of War, General Swain declines to furnish much beyond a general denial that he is in any way compromised in the transactions which have been misrepresented to the country.

ITEMS OF INTEREST.

A church in Connecticut by resolution forbids its members to drink intoxicating liquors, explicitly excepting hard cider.

A single cattle ranch in Texas, at the head of the Rio Grande, is said to contain nearly 25,000 acres, making the entire State of Rhode Island contain in territory.

The solidarity of the Republican vote must show Mr. Morrison that in spite of the tariff reform sentiments professed by some of the members on that side of the House, he will look to them in vain for any substantial aid.

with intent to defraud his creditors; but the conditions under which these ships, if built abroad, may be admitted to American registry are peculiar. Each vessel must be able to steam at least Eighteen knots per hour, have engines of not less than seven thousand horse power and cost not less than one and a quarter million dollars.

SPECIAL TO THE CARBON ADVOCATE.

It is now no longer a matter of doubt that Grant's friends are planning an earnest movement to make him the candidate of the Republicans, with Lincoln for the second, and it is confidently expected that the bulk of the Old Guard of 1860 can be rallied to Grant on the home stretch.

The bills thus far reported favorably in the House, and those which have already passed the Senate, are now on the Speaker's table, concern thirty-two States. Some of these States get as many as four buildings. That number represents Pennsylvania's share. Texas is allowed two, New York two, Iowa two, Indiana two, and Maine two.

The attack made upon Judge Advocate General Swain appears to be a wrong to the attention of the Secretary of War, General Swain declines to furnish much beyond a general denial that he is in any way compromised in the transactions which have been misrepresented to the country.

The solidarity of the Republican vote must show Mr. Morrison that in spite of the tariff reform sentiments professed by some of the members on that side of the House, he will look to them in vain for any substantial aid.

THE BANKRUPTCY BILL.

The Senate captured the consideration of the Bankruptcy bill, and considered progress was made. A section agreed to provides among other things that any person owing provable debts exceeding \$300 may voluntarily petition to be adjudged a bankrupt.

The solidarity of the Republican vote must show Mr. Morrison that in spite of the tariff reform sentiments professed by some of the members on that side of the House, he will look to them in vain for any substantial aid.

Spring Without Blossoms.

Late in Life to Look for Joy—Yet Never too Late to Mend. Readers of Hawthorne's "House of Seven Gables" will recall the pathos with which poor Clifford Fynechew, who had been unjustly imprisoned since his early manhood, said after his release: "My life is gone, and where is my happiness? Oh! give me my happiness." But that could be done only in part, as gleams of warm sunshine occasionally fall across the gloom of a New England autumn day.

In a letter to Messrs. Hines & Co., Mr. L. H. Titus, of Pennington, N. J., says: "I have suffered untold misery from childhood from chronic disease of the bowels and stomach, accompanied by great pain. I sought relief at the hands of physicians of every school and tried every patent and domestic remedy under the sun. I have at last found in FARRER'S TONIC a complete specific, preventive and cure. As your invaluable medicine, which did for me what nothing else could do, is entitled to the credit of my getting back my happy days, I cheerfully and gratefully acknowledge the fact."

H. H. Peters, THE TAILOR.

Very Moderate Prices and Perfect Fits is the motto of this Establishment. 300 are invited to inspect goods.

North Carolina Offers Great Inducements to HOMESEEKERS

MINERS, MANUFACTURERS, CAPITALISTS and FARMERS.

Are Northern men wanted, and are they treated kindly by native North Carolinians? We answer the question emphatically YES!

To back us up we refer to the following Northern men who have settled among us: Rev. S. Mattoon, Charlotte, N. C., formerly of New York; Jno. Woodhouse, Concord, N. C., formerly of Morris Co., N. J.; A. Hagen, Newton, N. C., formerly of Fredrick, Md.; F. A. Volmer, Durham, N. C., formerly of Williamsport, Pa., and the hundreds of others that have settled in the State.

When writing for information, please enclose stamp for return postage. THE CLIMATE of North Carolina surpasses that of any other State in the Union, being tempered on one side by the Atlantic ocean and on the other by the high peaks of the Appalachian Mountains.

At least thirty thousand square miles of our territory is still covered with timber, consisting in part of yellow and white pine, several varieties of oak, Hickory, walnut, chestnut, poplar, yellow pine, maple, locust, ash, elm, mulberry, dogwood, persimmon, holly, locust, wild cherry, red cedar, mountain mahogany, curly maple and poplar.

are found in great variety and abundance over a large part of the State. Among the more useful and important are marble, iron, coal, peat, limestone, gold, copper, silver, lead, zinc, mica, tin, (very recent discovery), graphite, corundum, magnesian, kaolin, fire clay, whitestone, grindstone and millstone; a great variety of building and preloose stones, including diamond.

WATER POWER

of the State aggregate more than three million horse power. THE SOIL AND CROPS. The climate variety of soils together with the climatic conditions gives rise to the great variety of natural products and large yields, and lays the foundation for an immense range of agricultural products.

Many immigrants have come into the State during the past year chiefly from the Northern and New England States. We have special rates with transportation companies from Boston, New York and Baltimore for very cheap rates of passage and freight.
