education. Man is to be guided, not by faith, but by reason; his duty to God and the influence of the Church are scolled at while the Holy See is the object of messain! was tacks. The partiment of St. Feter is in corporated with the throne of Savoy, and war to the knife is waged against Catholic ism. This corruptive current that traverses the world is encouraged by the press, the stage, and astural science, which captivates prople's feelings and keep virtue in check.

Vice is increasing; marriage has become merely a civil contract, and education is confined to scientific instruction. The supremucy of the people and State atheism are from the crowd of toilsome and anxious level than the heathen. The separation of Church and State is monistruis. Lafe, even of States, proceeds from God alone. God is the promoter of the severeignty which they wind, and they are but His servants.

distance of 1.422 miles, at an average rate of forty-two miles a day. On one day he made over 100 miles. One hundred miles in twelvehours has been done frequently. One hundred and twenty miles in ten hours' riding time has been often done. A ride of 200 miles without a distancent was done in England, and 1.404 miles in six days, riding eighteen six of the distance 1.404 miles in six days, riding eighteen hours a day. W. F. Sutton rode 260 miles over English roads inside of twen ty-four hours. An English tricyclist's bought by traveling neddlers. Between ty-four hours. An English tricyclist's bought by traveling peddiers. Between the ages of 15 and 40, a woman can grow amounted to 6,053 miles. In six years and a half the number of wheelmes in the United States has increased from the popular photographer of Reading, was record for a mile from a flying start is 131 2 8.

In which he solemnly declares he saved to the country the two millions of dollars annually that the thieves would have continued to steel had he not brought them to trial? Naw everybody knews that before Mr. Garfield became President, and there fare before Mr. Brewster was ever thought of in councection with the Attentey Gener that of in councection with the Attentey Gener callship, the star route thieves fell out among themselves and gave each other sew us. He reports "his" good.

B. Storm, in his speech in the House of Representatives, on the 22nd ult., in orposition to the Morrison tariff bill, says pounds gives the doty of \$6.72. Reduce built up. By the scheme of shipping unof service? But what mule is this? Is it this 20 per cent, which is \$1.341, and it der what is known as "emigrant movables," the Zollicoffer mule, or one of them? leaves \$5 576. But this brings us below many of the large farmers of Minnesota the grade line of the "Morill tariff," Government has no cats for him. Was which is \$6 per ton. So we must throw he one of Gen. Burnside's six white away the \$0 024 excess and reduce only mules that helped the army over the \$0.72. Here it is made necessary to re-Cumberland Mountains, and that lived fer to three distinct acts to find a single through the cold winter of '63 and '64 duty on a simple item. Is this the feast without aboes, blankets or tents, and that revenue reform invites us to partake with but one ear of corn a day for sixty of? All laws relating to our revenues one to five thousand acres can operate. By days? If this mule is one of them, let ought to be as simple as it is possible reason of his having to use a lot of mahim have the cats by all means. Per- for human skill and science to make chivery for which he generally pays cash. bans be is the mule that went through them. As little as possible should be he can get quoted to him the same prices a put the siege of Knoxville on less than eight | feft, in their administration, for experts rations. If so, pass along the cats. Did and revenue officers to guess at, whereby

and FARMERS.

Are Northern men wanted, and are they treated kindly y native North Carolinians We answer the question emphatically YES! To back us up we refer to the following Northern men who have settled among us: Rev. S. Mattoon, Charlotte, N. C., formerly of New York; Jno. Woodhouse, Concord, N. C., formerly of Morris Co., N. J.; A. Hagen, Newton, N. C., formerly of Fredrick, Md.; F A. Vollmer, Durham, N. C., formerly of Williamsport, Pa., and the hundreds of others that have settled in the State. When writing for information, please enclose stamp for return postage.

THE CLIMATE

[North Carolina surpasses that of any other State in the Union, being tempered on one side by the Alantic ocean and on the ether by the high peaks of the Appalachian Moun-tains. The average fall of snow for the entire winter is six inches. The average numer of loggy days are two (2) No part of the State is subject to destructive gales. Mean annual temperature for the State 69. Summer 75, Winter 43, rainfall 45 inches. While the cold of the winter is not severe, the tem-posature of mid-rummer is not so trying or excessive as farther North. While there are hundreds of sunstrokes in New York Stat every summer the disease is almost unknown N. C. During a late winter of unusual severity, the thermometer several times tropped to 30 degrees, and even to 40 degrees, selow zero in lows, Michigan and New York, here 10 degrees above zero was reached out once, and then only for one single night.

TIMBER.

At least thirty thousand square miles of or t rritory is still covered with timber, consisting in part of yellow and white pine, several varieties of oak, hickory, walnut, chestnut, peplar, cypress. juniper, maple black ash, elm, mulberry, dog-wood, persimmon, holly, locust, wild cherry, red cedar, ountain mahogany, curly maple and poplar

MINERALS

ere found in great variety and abundance over a large part of the State. Among the more useful and important are mari, iron, coal, peat, limestone, gold, copper, silver, lead, sinc, mica, tin (very recent discovery), graphite, corundum, maganese, kaolin, fire clay, whitestone, grindstone and millstone a great variety of building and precious
