Respectfully,  
**Andrew Shive,**  
DEPOT FOR

**AGRICULTURAL Implements,**  
SEILER'S BUILDING,  
Lehighton, Pa.

## MISCELLANEOUS.

—Having read in the papers that a wind-storm had destroyed "every cabin and gin-house" on the plantation of Major Young at West Point, Miss., the members of the Lily Dale Lodge passed congratulatory resolutions, and hoped that such storms would continue. They thought the gin-houses were gin mills.

**His Slippery Glass Eye.**  
"The Squire," says the author of "The Honorable Schoolmaster," "wore one glass eye and a wig. The glass eye was constantly slipping out of focus, and the wig turning around sideways on his head whenever he addressed the people of the Flat Crook District." Said spectacle, Parker's Hair Restraint preserves and promotes the growth of the natural hair. It also removes the natural color to hair which has faded or become gray. Clean, elegant, beneficial, highly perfumed.

—A California editor recently received a card of wood, in pay for a subscription, which was placed in front of the office at a late hour. The next morning he found six stacks left. This fact led the editor to believe that the stacks of wood were improving. A year ago there wouldn't have been a stack left.

**Regulars.**  
One of the strongest proofs of the value of Kidney Wort is a remedy for all diseases of the Kidneys, Liver and Bowels, is the fact that it is used and prescribed by "regular" physicians. Fully 1/2 Bushel, M. D., of Manhattan, N. Y., says: "Take it in all, it is the most successful remedy I have ever used."

—It is a great mistake to have editorial rooms up three or four flights of stairs. It is very discouraging to poets and fine writers. The editor is deprived of many of the writers' flights of fancy simply because the writers don't fancy the editor's flight. **LADIES SHOULD REMEMBER** a beautiful complexion results from using Aker's Blood Elixir. Sold by Dr. Horn, Lehigh, Pa., and E. A. Horn, Weisport.

—A woman says very few men have the "right" idea how to hold a lady, and we don't suppose one in a hundred has the slightest desire to hold one. It's a female baby he is exceedingly willing to hold if after it reaches the age of sixteen or seventeen years.

**ELECTRICITY.**—Of all the known Electro Galvanic Appliances at the present day it is now conceded by the Medical Fraternity and Electricians generally, that the American Galvanic Co.'s **HOWARD'S SURTESS** are the best, possessing intrinsic Electrical merits, as one shield or appliance can be fitted to any part of the body, which is not true of any other. See advertisement in another column of this paper. *—Electric Gazette.*

—There were eight "strenuous" in Rome," says an ancient history. And do you know how Porcupine came out and said he was one of them, Barium came right after him and said he was the other eight.

"Krasner is a joy to the people and it is a joy for me to recommend it everywhere." J. Hart, druggist, King Sing, N.Y.

—Thousands of young women work for forty-five cents a day making shirts in New York city. Thousands of women get less than that for the same kind of work. They mend and darn for years for their husbands.

—EVERY Promise backed by a guarantee. Aker's Dyspepsia Tablets will give immediate relief. Price 25 & 50 cts. Sold by Dr. Horn, Lehigh, Pa., and E. A. Horn, Weisport.

—An agricultural exchange favors the raising of chickens on the refuse of cheese factories. A chicken raised entirely on cheese ought to be strong enough to make sauerkraut of.

Thousands testify to the merits of Dr. Graves' Heart Regulator as a cure for heart disease in all forms. It is known from Maine to California. Give it a trial for these distressing feelings.

—Well," said an old gentleman who stammered as he was trying to make his way around a group of waiters, "well, this is really working one's passage around the whirled."

Aker's Celebrated English Remedy for Coughs, Colds, and Consumption. Sold for us on a guarantee by Dr. Horn, Lehigh, Pa., and E. A. Horn, Weisport.

—It is said that if you will play an accoutre near an eyer the eyer will see its mouth. This is not because it wants to listen but it is a sign that it would like to bite the player.

SCORPION. A medicine that destroys the stings of Scorpions and the effect of the venom is appreciated by the afflicted. The remarkable cures of men, women and children is described by testimonials, from Howard's Scorpions—a reliable medicine containing remedial agents which eradicate Scorpions from the blood. 100 doses \$1.00. Sold by all dealers. C. T. Hood & Co., Lowell, Mass.

—"No," said the druggist, "there is not so much profit in a glass of soda water. You see, the wear and tear on the glass amounts to something.

## FARMERS' COLUMN

### Kitchen and Market Garden.

In many places the first of May is moving-day, and many change their place of residence this month. Though it may seem late to begin gardening, such as lawn and plants set out now will come forward with great rapidity, as the soil is now well warmed. Asparagus beds that were planted two years ago may be cut springwise. Established beds should have every shoot cut, allowing none to grow until cutting stops. If a cold rain comes on, the seed of Lima beans will usually rot in the ground. Examine and re-plant. Weed beds and carrots as soon as large enough, and thin, using the young beets for greens. Keep cuttings and cauliflower well hoed. Sow seeds for late crops in a seed-bed in open ground. Try some Savoys. Make a small planting of corn as soon as the season will allow, but do not put in the main crop until settled weather. Cucumbers may be forwarded by starting seeds in pots or on inverted sods, in a hot-bed or sunny window. When they are set out, cover at night by some kind of a hand-light or screen. Sow seeds in the open ground, protecting the plants in the same manner. Sow sage, thyme and other sweet herbs in a seed-bed, to be transplanted later. Plant a few horseradish sets in rich soil. It should always be taken up in the fall to prevent it from becoming a weed. Continue to transplant lettuce for a success again, and hoe often. Do not sow melons until the soil is warm; use an abundance of seed to provide for insects and accidents. Early weeding of cuttings by hand in the rows, and thorough cultivation between the rows, are needed, whether grown from seeds or sets. Early kinds of potatoes should be forwarded by good culture. A sprinkling of ashes and plaster at seeding on some soils helps wonderfully. Top peas should have brush or other support early. If allowed to fall over before they have these, they rarely do well. Cut away the rhubarb flower stalks as soon as they appear. In cutting spinach for use it is to leave plants at six or eight inches apart for the final cutting. Sow weekly. When the soil is warm, sow New Zealand spinach for summer use. For squashes make richly manured hills eight or ten feet apart for the running sort, when the weather is settled, and sow an abundance of seed. Give a trellis or some kind of support for tomatoes when they are first set out, and keep them tied up as they grow.

### The Flower Garden and Lawn.

It is late to expect the best results from sowing grass seeds, and if the lawn is set but moderate size, it will be better to lay sods. The turf from a roadside or pasture should be well beaten down before its roots in contact with the soil. If grass-seed is sown as late as this month, it is customary to add a sprinkling of oats—a quart to a bushel of grass-seed. The object of this is to afford shade to the young grass, and it is well enough if the oats are not allowed to go to seed. They should be cut early. The lawn should be mowed with a lawnmower, every week or ten days, until dry weather comes, and then the frequency should depend upon growth. Do not cut up the lawn with too many beds. Place them near the drives or walks where they will be seen. They may be planted in masses of one kind each, or in ribbons of contrasted colors. In either case make the soil rich, and keep the grass margin well defined.

## THE STAR STORE

Business is still booming at the STAR. Our many customers will kindly accept our thanks for the liberal manner in which they have patronized us. To those who do not patronize us yet, but have such an object in view, we here, publicly proclaim that they will be treated fair and honorably, that we will not overcharge them in a single item, but on the contrary, will offer them decided bargains in many things without employing the so-called LEADER SYSTEM, where a certain line of goods are sold at or below cost and double prices charged on others. TO ALL we would say that we are holding our trade with our customers and are constantly adding new ones, but still we have room for more and cordially invite you to try us.

Have decided bargains in Home-made Carpets, Floor Oil Cloth, &c  
We lead the county in Sugar.  
Our Stock and Prices of COFFEES are unrivalled.  
No trouble to show goods.  
Very respectfully,  
**W. H. STRAUSS,**  
Opp. L. & S. Depot, Bank St., Lehighton
