THE STATE MADE UP.

All of the delegates to the Republican National Convention which assembled at Chicago, on June 3rd, have been elected and a pretty accurate estimate of the result of the contest may now be made.

California is counted for Blaine, although the individual preferences of the delegates are not consulted in that matter; at least two votes are for Arthur as a first choice, and vigorous in their denunciation of Blaine. The Colorado delegation is for Blaine first, Logan (if there is a chance for him) second and certain of the delegates would not hesitate to vote for Arthur if the opportunity were presented to do so honorably.

A WALL STREET PANIC.

There were eight failures in New York City and one in Brooklyn Wednesday. Of these three are of importance—the remainder are not likely to affect other parties.

maternity, and the Government wishes a willingness to aid the business interests.

A special despatch from New York at 2 o'clock Thursday morning announces that the Metropolitan National Bank will resume payment in the morning, the Clearing-house Committee acquiescing.

THE REPORTER, a journal devoted to the interests of settlers on the public lands, goes for the land-grabbers out West in the following strain, which, in view of the magnitude of the evils of which it complains, ought to be reprinted: "When the constituted authorities of a Government of fifty-five millions of people openly confess their inability to restrain a gang of squatters and cow-boys from fencing in the public lands, what wonder is it that the United States should be unable to do so?"

THE DEATH OF JUDAH P. BERJAMIN Thursday, last week, ended a very remarkable and checkered career. Mr. Benjamin was of Jewish descent, was born in the island of St. Croix in 1811, and at an early age became a resident of New Orleans.

IN THE GENERAL CONFERENCE OF THE M. E. Church on Tuesday morning of last week in Philadelphia, the treasurer of the Episcopal fund reported the receipts in the last four years \$2,274,964.85 and expenses \$2,251,602.92.

FROM WASHINGTON

Regular to the CARBON ADVOCATE. WASHINGTON, D. C., May 15, '84. BY A VOTE OF 150 TO 133 the Morrison Tariff bill was killed in the House.

Congress had passed over in their greedily seeking of plunder; they had already opportunity to prove their fitness and capacity by manfully undertaking to perform what had been neglected to the manifest injury of the people.

We presume this means that he wants the Government to provide full pay for Gen. Grant as soon as possible, in consequence of the losses which the General has suffered by reason of the failure of the firm of Grant & Ward, in which he was a partner.

It was proper and fitting recognition of his great public services as a military commander for the people of this country to provide generously for the pecuniary welfare of Ulysses S. Grant. We think they have done this. Is it not going too far for the nation to help him to make up his losses as a stock broker or Wall street?

It is simply enforcing the civil service rules as he understands them, and as they have been expanded by Mr. Eaton, the unpaid head of the Civil Service Commission. That official holds that under the law officials may act as delegates in Convention.

There is beginning to be some more talk about the Democratic situation. Mr. Stelling Morton, a member of the National Committee and a probable delegate to the Chicago Convention from Nebraska, who is now in Washington, in a general conversation to-day upon the subject of Democratic to-day was asked: "What do you think will be the nominee of the Democratic Convention at Chicago?"

THE NEW GERMAN EXHIBITION.

The House has passed the bill appropriating \$1,000,000 for the celebration of the World's Industrial and Cotton Centennial Exposition at New Orleans, with an amendment providing that the amount appropriated shall only be paid on the Treasurer of the United States being satisfied that \$500,000 has been contributed by the World's Industrial and Cotton Centennial Exposition.

Grant on the retired list of the army with pay at the rate of \$19,000 a year. Senator Edmunds said he made the request for reasons which he presented everybody understood.

It is a plan in our foot to pass a bill during the present session of Congress, directing the Secretary of the Interior to place upon the pension rolls the names of all the soldiers or sailors or marines who served two months or longer continuously in any Confederate prison, providing they are now suffering from disability, either general or specific.

It is the beneficiary of a munificent trust fund, the interest on which at 10 per cent would amount to \$30,000 per annum—a quiet sufficient sum to keep the wolf away from the door—and this is secure from impairment, as it is exempt from assignment.

As an illustrious soldier who served his country well, Gen. Grant deserves well of the Government and has certainly been treated with most distinguished consideration by the people. But neither the Government nor the country has anything to do with his private affairs as the senior partner of a law firm which has come to grief through bad management.

PRESIDENTIAL FAVORITES. Some Interesting Facts Concerning the Men Who Stand Closest to the Chief Executive.

Visitors who, from curiosity or business, have called at the White House, must have been impressed by the courteous yet systematic manner with which they were received and escorted through the mansion.

It is impossible to describe the tortures I have undergone. To be compelled to smile and treat the thousands of visitors who come here daily with courtesy when one is in the greatest agony requires a tremendous amount of self-control.

"I think we have a most certain way," replied Colonel Denmore, "but it is no secret. Not more than two years ago my wife began to grow blind, and I was alarmed at her condition. She finally became so blind that she could only see with the aid of two canes, and then in a sleeping position. Oh, we have been in a pretty bad condition here all of us."
