THE PLATFORM.

DECLARATION OF PRINCIPLES ADOPTED BY THE DEMOCRATIC NATIONAL CONVENTION.

The Democratic party of the Union, through its representatives in national convention assembled, recognizes that, as the nation grows older, new issues are born of time and progress and old issues perish.

But the fundamental principles of the Democracy, approved by the united voice of the people, remain, and will ever remain, as the best and only security for the continuance of free government.

The preservation of personal rights, the equality of all citizens before the law, the reserved rights of the States and the supremacy of the Federal Government within the limits of the Constitution will ever form the true basis of our liberties and can never be surrendered without destroying that balance of rights and powers which enables a continent to be developed in peace and social order to be maintained by means of local self-government.

But it is indispensable for the practical operation and enforcement of these fundamental principles that the government should not always be controlled by one political power.

Frequent change of administration is as necessary as constant recurrence to the popular will. Otherwise abuses grow and the government, instead of being carried on for the general welfare, becomes an instrumentality for imposing heavy burdens on the many who are governed for the benefit of the few who govern.

Public servants thus become arbitrary rulers.

A CHANGE DEMANDED. This is now the condition of the country, hence a change is demanded. The Republican party, so far as principle is concerned, is a remnant.

In practice it is an organization for enriching those who control its machinery. The frauds and jobbery which have been brought to light in every department of the government are sufficient to have called for reform within the Republican party, yet those in authority, made reckless by the long possession of power, have succumbed to its corrupting influence and have placed in nomination a ticket against which the independent portion of the party are in open revolt.

Therefore a change is demanded. Such a change was made necessary in 1876, but the will of the people was then defeated by a fraud which can never be forgotten nor condoned. Again in 1880 the change demanded by the people was defeated by the lavish use of money contributed by unscrupulous contractors and shameless jobbers who had bargained for unwieldy profits or for high office.

REPUBLICAN FAILURE. The Republican party, during its long and its bought tenure of power, has been steadily and in moral character and political capacity. Its platform promises are now a list of its past failures. It demands the restoration of our navy; it has squandered hundreds of millions to create a navy that does not exist. It calls upon Congress to reduce the burden under which American shipping has been depressed; it imposed and has continued those burdens. It professes the policy of reserving the public lands for small holdings by actual settlers; it has given away the people's heritage all now a few railroads and non-resident aliens, individual and corporate, possess a larger area than that of all our farmers the two seas. It professes a preference for free institutions; it organized and tried to legalize a control of State elections by Federal troops. It professes a desire to elevate labor; it has subjected American workmen to the competition of convict and imported contract labor. It professes gratitude to all who were disabled or died in the war leaving widows and orphans; it left to a Democratic House of Representatives the first effort to equalize both bounties and pensions. It professes a pledge to correct the irregularities of our tariff; it created and has continued them. Its own Tariff Commission confessed the need of more than twenty per cent. reduction; it Congress gave a reduction of less than four per cent. It professes the protection of American manufactures; it has subjected them to an increasing flood of manufactured goods and a merciless competition with manufacturing nations not one of which taxes raw materials. It professes to protect all American industries; it has impoverished many to subsidize a few. It professes the protection of American labor; it has depleted the returns of American agriculture, an industry followed by half of our people. It professes the equality of men before the law; it attempted to fix the status of colored citizens, the acts of its Congress were overruled by the decisions of its Court. It "accepts" the duty of leading in the work of progress and reform; its caught criminals are permitted to escape through continued delays or actual connivance in the prosecution.

Honeycombed with corruption, out-breaking exposure, no longer shock its moral sense. Its honest members, its independent journals, no longer maintain a successful contest for authority in its councils or a vote upon bad nominations.

That change is necessary is proved by an existing surplus of more than \$100,000,000, which has yearly been collected from a suffering people. Unnecessary taxation is unjust taxation. We denounce the Republican party for having failed to relieve the people from crushing war taxes, which have paralyzed business, crippled industry and deprived labor of employment and of just reward.

REDUCING TAXATION. The Democracy pledges itself to purify the administration from corruption, to restore economy, to revive respect for law and to reduce taxation to the lowest limit consistent with due regard to the preservation of the faith of the nation to its creditors and pensioners. Knowing full well, however, that legislation affecting the occupations of the people should be cautious and conservative in method, not in advance of public opinion, but responsive to its demands, the Democratic party is pledged to revise the tariff in a spirit of fairness to all interests. But in making reduction in taxes it is not proposed to injure any domestic industry, but rather to promote their healthy growth. From the foundation of the government taxes collected at the Custom House have been the chief source of Federal revenue; such they must continue to be. Moreover, many industries have come to rely upon legislation for successful continuance, so that any change of law must be at every step guarded of the labor and capital thus involved. The process of reform must be carried out with execution to this plain dictate of justice.

LABOR MUST BE PROTECTED. All taxation shall be limited to the requirements of economical government. The necessary reduction in the tariff must be effected without depriving American labor of the ability to compete successfully without imposing lower rates of duty than will amply cover and meet the cost of production which may exist in consequence of the higher rate of wages prevailing in this country. Subject to revenue to pay all the expenses of the Federal Government economically administered, including pensions, interest and principal of the public debt, the balance of the tariff revenue, as now levied from Custom House taxes on lower imported articles, bearing heaviest on articles of luxury and bearing lightest on articles of necessity.

We therefore denounce the abuses of the existing tariff and subject to the preceding limitations we demand that Federal taxation shall be exclusively for public purposes and shall not exceed the needs of the government economically administered.

The system of direct taxation, known as the "Internal Revenue" or a tax and so long as the law contains the money derived therefrom shall be sacredly devoted to the relief of the people from the crushing burden of the tax and shall be made a fund to defray the expense of the care and comfort of worthy soldiers disabled in the line of duty in the wars of the Republic, and for the payment of such pensions as Congress may, from time to time, grant to such soldiers, a like fund for the sailors having been allowed to provide for all the expenses of the war.

A CONTINENTAL POLICY. We favor an American continental policy based upon more intimate commercial and industrial relations with the fifteen sister Republics of North, Central and South America, but excluding alliances with none.

We believe in honest money, the gold and silver currency of the Constitution and a circulating medium convertible into such money without loss.

Respecting the equal right of man before the law, we hold that it is the duty of the government, in its dealings with the people, to mete out equal and exact justice to all in the same high tribunal, race, color or persuasion, religious or political.

We believe in a free ballot and a fair count, and we hold that the duty of the people is to elect a Congress of the noblest character and of the highest integrity, by which a reluctant and unscrupulous administration shall be removed from office.

The selection of Federal officers for the Territories shall be restricted to citizens of the United States of the same party as the President.

We oppose national laws which vex the citizen and interfere with individual liberty; we favor honest civil service reforms and the compensation of all United States officers by fixed salaries; the separation of Church and State; and the diffusion of free education by congressional aid to the States, and the land may be taught the rights and duties of citizenship.

While we favor legislation which will tend to the improvement of the property, to the prevention of monopoly and to the restriction of individual rights against corporate abuses, we hold that the welfare of society depends upon a scrupulous regard for the rights of property as defined by law. We believe that labor is best rewarded where it is freest and most energized. It should be left to the individual citizen, and such legislation as will tend to enlighten the people as to the true relation of capital and labor.

LAND GRANTS. We believe that the public land ought as far as possible to be kept as homesteads for actual settlers; that all unappropriated lands heretofore gratuitously granted to railroad corporations by the action of the Republican party should be restored to the public domain, and that no more grants of land should be made to corporations or to be allowed to fall into the ownership of alien absentee.

We are opposed to all propositions which, upon any pretext, would confer the General Government upon a machine for collecting taxes to be distributed among the States or the citizens thereof.

REINFORCING THE DECLARATIONS OF THE DEMOCRATIC PLATFORM OF 1856, that "the liberal principles of independence and non-interference with individual rights and liberties are the basis of the Democratic faith," we re-affirm that we do not sanction the importation of foreign labor or the admission of aliens or of kindred for absorption into the great body of our people or for the citizenship which our laws confer. American citizens have ever been and shall ever be the only ones to whom the right of immigration or importation of Mongolians to these shores our gates be closed.

THE DUTY OF THE GOVERNMENT TO PROTECT WITH EQUAL FACILITY AND VIGILANCE the rights of its citizens, native and naturalized, at home and abroad, and to the end that this protection may be assured United States papers of naturalization issued by courts of competent jurisdiction, and no person shall be admitted to the executive and legislative departments of our own government and by all foreign powers. It is an imperative duty of this government to defend to the death its right of persons and property of every American citizen in foreign lands and to demand and enforce full reparation for any injury done to any citizen by any foreign power for any such act.

This country has never had a well defined and executed foreign policy save
