young children and the more wonderful cures of those of middle age and late in life, as iledy, containing remedial agents which do positively cure scrofula and eradicate it from the blood.

MRASHS, C. I. HOOD & Co., Lowell, Mass.;
Gentlemen—For ten years previous to the early part of 157 I had been a constant sufferer from scrofulous ulcers or sores, which had finally reduced me to a helpless condition, as described in my letter to you in september of that year. The continued excellent health which enables me to keep house for my aged father and to enjoy life, keeps alive my intense personal interest in Hood's Sarbaapahilla, and I cannot refrain from expressing my gratitude for the permanent cure this wonderful needleine effected it my case nearly two years ago, while living in Lowell, when all my physicians gave me up as being in an incurable condition. One thing before I close. I have recommended your Sarsaparilla to hundreds, and I think more than a thousand cases, and my faith in its invincibility in curing scrotula has become absolute by the wonderful cures it has effected aside from my own. I trust you will not be slow in making the merits of Hood's Sansaparalla. A known everywhere, for it is a duty you owe to mankind. With best wishes I remain very truly yours.

HOOD'S SARSAPARILLA Is a skilfully-prepared compound, concentrated extract, by a process peculiarly our own, of the bust remedies of the vegetable kingdom known to medical science as alteratives, blood-purifiers, diureties, and tonics. Sold by all druggists. Price \$1, or aix for \$5. C. I. HOOD & CO., Lowell, Mass.
