connection with our object lessons. Teach anguage by giving the children stories to his better half at East Mauch Chunk on and then let them reproduce them from Sunday. The prof. is a very estimable memory. Change poetry into prose. Ab gentleman and well liked by his patrons. -It is gratitying to note that Miss Belle ugly, vampish gossip proved to be nothing stract themes. Teach business papers. H is address was full of practical thoughts.

subject of Mathematical Geography. By means of a figure he showed very plainly why we have our four seasons, why it is be successful. Her many friends wish her tentment in the family reign supreme once warmer in summer than in winter, etc. He also gave his theory of secounting for ndirect tides.

Supt Coughlin then took up the subject Composition. He outlined the various steps for teaching composition as follows : 1. Let the child copy sentences.

2. Let the child read a short story and then copy from memory. 3. Assign autiects.

The afternoon session was opened by singing, after which Prof. Phillips gave the nstitute an interesting talk on the Quincy Schools. He spoke of the things he had seen there and the methods used for teaching different studies. Quincy is the home them to carry out their plans. Of course of the Adamses and became famous for its schools through Col. Parker, now of the Cook county Normal School, Chicago, III, Supt. Baer then followed with reading.

The main points he wrote out as follows': 1. Object Pronouncistion.

 1. Pronounciation.
 2. Distinctiness.
 3. Use of Dictionary.
 2. Drill on the Sounds-- 1 Vowe's.
 3. Haye to begin-- 1 Form Sounds.
 2 Distinguish Sounds. 2 Distinguish Sounds. 4. Cor sonant 1 Cabrals. 2 Dentals. 3 Guitural. 4 Nusal.

5. Diphtongs. His exercises was followed by a professo

con Philadelphia, who gave the institute lengthy address on the tonic sol-fa method i teaching music. He believes that sugd teaching music.
