Regarding the payment of back standing ubscription to newspapers the Germantown Telegraph" very logically remarks: "Why on't subscribers pay up? There is no excuse why the small sums involved in Tow newspapers subscriptions should not be promptly met. Those in arrears, too should pay a full year in advance to make amends for their shortcomings. Post offices are to be found everywhere, and they are mier than ever before to trausmit small notes; besides there are either the postal orders or notes and the registered letters, s that those who cannot call at the newspap or office have no excuse to delay payment.
To pay a collector to go after subscribers
and to pay the postage in advance, as every
publisher has to do upon every paper sent Hauling of Freight, Express through the mail, leaves scarcely enough money to pay for the white paper before it is touched with the type. Besides if a man knows he is indebted for his paper he will show himself a gentleman or the square by promptly calling or sending in to the office what he owes, without waiting for a bill." Explesion in a Mine. A Pottsville dispatch of the 8th says; Four men were killed outright, another was fatally minred, and a sixth is missing through an explosion of sulphuretted hydrogen gas at Henry Clay shaft Monday afternoon. The explosion was caused by the men themselves. They were working with naked lamps and cut a large feeder of the gas. The victims are Jonathan Fex, Joseph Duzeman, Peter Kable, and Diek Tucket, kiled; Thomas Williams, fatally injured, and James Carley, missing. They were working together in a new slope oil the main shalt. Williams was taken out alive but shockingly burned, and the bodies of Duzeman and Kable have been recovered. The presence of "black damp" in immense quantities makes all attempts to recover the others so huzardous that it was not attempted Monday night. The men cannot be alive, and all present efforts are directed toward preventing the mine from taking fire. All the victims were married men and had large families. Interes excitement exists, and the victimity of the mine, which is on the outskirts of Shanokin, is crowded. The colliery is owned and operated by Jno.
