nary butter and three or four dozen taken out here, and the operation by asort of exstacy, butting against one, and packed eggs. The writer inquired if which the Egyptians obtain their grain jostling another, till at last home was Lehighton Betsemer Cieb Ball. this sort of thing was a common practice in S. R. C. 1500 to the latest steam reached with the precious burthen. Notof the farmers in the vicinity. "Farm- thresher of 1884 is pictured. ers," replied the merchant, contemptu ously, "why, we haven't got twenty real farmers in this county They are all Broadbrin's New York Letter nothing but wheat raisers, and that is a long way from being a farmer. A large number of farmers in Dakoia, who oan whole quarter-sections of land, seldom have a drop of milk in the house, and the butter they cal is bought at the nearest store. They don't even keep a cow or pig, or try to raise vegetables enough

to provide for the winter. Tun United States now ranks third in

the list of beer-producing countries in the world. Although her brewertes are few in number compared with those of other countries, she yet makes two-thirds as much beer as Eugland, where brewerics are almost ten times as many. England is at the bead of all beer-producing countries, with 27,000 breweries and a product of 200 000 000 gallors annually; while Germany, with 25 000 breweries makes 900,000,000 gallous yearly. The United States, with only 3,000 breweries mikes about 600,060,000 gallons per annum. Then comes France, with 3,000 brew-ries and a production of 157,500,000 gallons, and Austria and Hungary, with 2,093 breweries, but a production of 280,000,000 gallons. Belgium has 1 250 breweries, which produced last year 210,-250,000 gallons; Holland, 500 breweries, producing 34,000,000 gallons; Russia 480 broweries, producing 8,000,000 gal lons; Switzerland, 423 breweries, producing 13,500,000 gallons; Danmark,250 breweries, producing 28,000,000 gallons; Sweden, 220 broweries, producing 21, 000 000 gallons, and Italy, 150 breweries. producing only 4,000,000 gallons. Nearly 80,000 persons are engaged in brewing lager beer in the United States.

PREPARATIONS are making by the Illinois Central management to bring suit for the ejectment of the Baltimore and Ohio from the use of the former's tracks as an entrance into Chicago. The case is a difference of opinion regarding the tenures of the lease. The Baltimore and Onio people regard the contract as perpetual. The Illinois Central people, on the other hand, in-ist that the privileges under the lease ended on Nov. 1, 1884. and say that the Baltimore and Ohio trains have since that date been running over the Illinois Central tracks by suffer ance, pending an interpretation of the lease by the courts, A gigantic legal fight will undoubtedly ensue before either party to the controversy will concede the other's position tenable. Extensive preparatione are being made on both sides, and some of the best legal talent in the country has been retained. The proceedings will probably be instituted

early in the present month.

How Mines are Robbed.

A singular case of fatality has brought ut some carlous developments as to how coal is stolun in the mines. The driver and runner boys in the Mineral Spring Colliery, near Wilkesbarre, desirous of making mor wages than they were paid, would enter abandoned breasts and washings and har down coal on the pillars to make a car-load. They would then steal a car, load it and sell it to a miner, who, in turn, would put company. James Moore, a lad of fifteen.
