

the advantages of producing. but it has proided us with water-power to work up what the soil produces for us.

I solicit correspondence from tenant farmore in the Northern and New England States.

I will furnish persons low rate round-trip transportion from Boston, New York or Balare to North Carolina, so as to give them an opportunity of seeing the farms that are offered for rent.

All farms advertised by us for rent have dwelling-houses and out-buildings on them. Being a regular employe of the Agricultural Department of North Carolina, I make no charge for information given or services rendered persons seeking homes in the State.

I willbe pleased to furnish descriptive lists of lands offered for sale in North Carolina to all persons who will write me.
