NEW ORLEANS, Jan. 17, 1885.

Montana is yet a territory with hopes has been 12 per cent., so that the metropolis now has a doctor to every 889 inhabitants. But England turns out very many more doctors than it retains. In 1892 over 1.500 registered practition craresided abroad, and in 1884 they numbered every 1,900, an increase of 204. range from \$696,000, the largest, which no account, and there were plenty in the many more think the same thing, as the is for Soldiers Orphans' schools, to \$2,-

commissioner, has gotten up its exhibits in good shape. The guano manufactory of Wilcox, Gibbs & Co., who show n pyramid some twenty feet from the base constructed of phosphate rock, is an er terprise that has done much to enrich Charleston. The agricultural productions and fruits displayed, keeps the little Carolina to the front in this line. Though it does not claim to be an extensive manufacturing State, it has some very creditable displays of home productions. In cotton it produces a fine staple notably the Sea Island, which always commands a good price. Specimens are

Many of the relies of the Greely relief party have been placed on exhibition in the States department. Dummies are dressed up in the clothing worn by the men, and the old tent they used is erect ed, while the entire camping outfit is on yiew. The small boats from the Thetis sufferers have been placed with these much-viewed currosities. It is hard to realize in a land where snow is unknown what suffering and douth the Greely Relief exhibit represents.

On Sundays the Exposition is largely tended, the entrance fee being then re duced to 25 cents. On a fine day there are liable to be fifty thousand present. There is everything to see as on any weekday, except the working of the machinery, which is always shut down on Saturday night till Monday morning.

The Commissioners and members of the press are unanimous in urging their respective legislatures to make extra appropriations to carry out the successful exhibit of each State and Territory. The necessity for money is evident to keep the exhibit up to its present standing as vocate the contribution.

When you take into consideration the fact that the different buildings cover 92 | of acres, or one third more than the Centennial and that the Park in which they are located and which is now enclosed composes about 500 acres. You can see how hard it is to estimate the daily attendance, and the management refuse to make public the daily receipts, for what reason your correspondent is unable to

At first it was feared that the means of transportation between the grounds and Canal street, the centre of the city, would not be adequate to accommodate the public, but so far no inconvenience has been experienced. By certain lines you can go the whole distance for one fare-5 cents-while by other lines it costs two fares-or you can by a round trip ticket over the different "Rapid Transit" lines. on the river for 15 cents, and extra boots and cars will be added as the travel demands.
