Tenant Farmers WHY PAY HIGH RENTS

Why be Subject to LATE AND EARLY FROSTS?

Which Kill Your Young

Plants and Injury Your Crops.

Given by North Carolina Land

Owners.

The Immigration Bureau of North Caroina have in charge some improved farms for rent to Northern tenant farmers on the folowing conditions, which are the usual terms of rent charged in this State:

1st, GRAIN AND ORASS FARM -The land owner furnishes land, houses and strangers of another age. pays all taxes and expenses of improving houses, stables and buildings. The tenant farmer furnishes bornes, tools and labor, and to middle age, a new field all proceeds from the sale of them.

above mentioned farm No 1.

FARMS, -The land-owner turnishes land, houses, feed for horses, tools, repairing and larger scale. Formerly the en-The tenant fermer furnishes all the manual first mentioned farm No. L.

4th, COTTON, GRAIN AND TOBAC-CO FARMS .- Rented exactly on same terms as the abore Pobacco, Grain and Grass Faru No. 2; or if tenant farmer furnishes horse and Three-fourths of the cotton.

### ADDVINE A ---NORTH CARDLINA.

CLIMATE.-While the cold is not so severe, the temperature of mid-summer is not xeessive or trying as farther North. Our seatons are langer, and therefore our crops ere not killed by late or early fronts.

THE SOIL is of a variety of composition -elayey, gravelly lime stone, mate, sand leath, etc. This great variety of sollaund the mildues and advantages of elimate will ac sount for the variety of products.

SOUTEPY - No section in the Union has better executed laws. The blessings of poll leal, etail and rallutous liberty are no where more fully protected than in N. C.

IN GENERAL The great fertility. our lands, the mildness of our climate, free from the ecotoling and withering heat of the Bouth and the extreme cold and freezes of the North go to show that North Caralina is surely the most favored spricultural section in America. Nature has not only given us ided as with water-power to work up what

I solicit correspondence from tenant farm ert in the Northern and New England States I will fusnish persons low rate round-tripas opportunity of seeing the farms that are offered for rent.

All farms advertised by us for rent have dwelling-houses and out-buildings on them. Meing a regular amploye of the Agriculparsi Department of North Carolina, I make Journal, one of the most so sharge for information given or services valuable and trustworthy of I willba pleased to furnish descriptive lists of lands offered for sale in North Carolina to has begunthe issue of a weekly all persons who will write me.

### GEMS of THOUGHT.

-A plain genteel dress is more admired and obtains more credit than lace and embroidery in the eyes of the judicious and sensible.

-In all things throughout the world the men who look for the crooked will see the crooked, and the men who look for the straight will see it.

-The heart never grows better by age; I fear rather worse; always harder. A young liar will be an old one. and a young knave will only be a greater knave when he grows older.

-How many a man whose conceit is great, thinks he has reached the limits of knowl-Dr.J. C. Ayor & Co., Lowell, Mass. edge, when further investiga-Sold by all Drugglass; \$1, Mx boules for \$5 tion would open to him a continent of truth beforeunknown

-Ah! when a man has traveled, when he has robbed the horizon of his native fields of its mystery, tarnished the blue of distant mountains with his feet, he may begin to think of another world.

-A faithful and true friend is a living treasure, inestimable in possession and deeply to be lamented when gone. Nothing is more common than to talk of a friend; nothing more diffi cult than to find a friend, nothing more rare than to improve by one as we ought.

-Consider what you have in the smallest chosen library. A company of the wisest and wittiest men that could be picked out of all civil coun-Bead the Terms to Tenant Farmers tries, in a thousand years, have set in best order the results of their learning and wisdom. The men themselves were hid and inaccessible, solitary, impatient of interruptions, fenced by etiquette; but the thought which they did not uncover to their bosom friend is here written out in transparent words to us, the

As we advance from youth enant farmer is allowed free of rent garden of action opens, and a dif-nd regetable patches. He is also allowed ferent character is required The flow of gay, impetaous rad, TOBACCO, GRAIN AND GRASS spirits begin to subside; life houses and pays all taxes and expenses of the tenant farmer furnishes horses, tables and buildings. The tenant farmer furnishes horses, table and labor, receiving Three-fourths of the tobacco and Two-thinds of the grain crops. The tention is nowtransferred fron tenant farmer is allowed free of rentas in the pleasure diffused over a wider and TOBAUCO, GRAIN AND GRASS extent and measured by a joyment of the present me fabor: receiving One-balt of all crops ratiod.

The tensor fermer receives from of rent as in tention; now no action terminates ultimately in itself, but re fers to some more distant aim Wealth and power; the instru and tools, he receives Two-thirds of the grain ments of lasting gratification , are now coveted more than any single pleasure; prudence and foresight lay their plans ADVANTAGES OF LOCATING IN industry carries on its patien efforts; activity pushes for ward; address winds around. here an enemy is to be overcome, there rival to be displace ed; competition warms, and the strife of the world thickens on every side.

## ALL SORTS.

-If suckers are growing about the bases of trees or it their tops, thin them out dur ing the leisure days of winter -Basket willow to the tune of \$500,000 was imported last year. There is evidently the advantages of producing, but it has pro a good opening for willow culture in this country.

-The dreaded Hessian fly has made its apparance in transposition from Botton, New York or Bal | Wheat fields in Kansas, and theore to North Carolina, 20 bit to give them | there is great distress with rewheat fields in Kansas, and gard to it in that "banner wheat growing State

-The National Live Stock our agricultural publications. charge to all subscribers to the monthly edition.

-The European beech Fagus sylvatica) is highly plant. It bears transplanting and cutting much better than our American beech, and the leaves are firmer and more glossy. A beautiful hedge of this variety is growing in Cam- was me

bridge, Mass. to the fellow an flavore the means of care. To all who desired the will send a copy of the prescription (Free), with the directions for pre-saving and using the exone which they will facil a sure care for County, Colda. Consumation, Agithma. Broschitts, &c. Parties wishing the prescription, will please address, Williams varys, N. Y.

Williams varys, N. Y.

--\*Stubborn as a mule "
is an old saw, but is to be taken with a grain of salt. For when kindly treated the williams varys, N. Y. mule is found to be as tract-

farming far more generally then it is. It is intelligent, enduring, and a less expensive feeder than the horse.

-Cattle need to be kept warm during these cold, windy months, It pays to keep them warm. "There is nothing more economical than comfort, especally for milch cows," But warmth should not be gained at the expense of a good supply of fresh airwhich is just as necessaryto the health of stock as warmth. It is not always easy to secure both; but nothing of any value is accomplished without some trouble

-As an agricultural item of general interest, we quote the statement of a correspendent of the Journal of Horticulture, that a preparation of the common celandine, a common plant along the roadside in the East, is an excellent remedy for corns. Those who have learned by sad experience that "tall aches from little toe corns grow' will no doubt be grateful for this imformation-provided it is well founded.

—In the very coldest weather, says The American Cultivator, there is no feed like corn or corn-meal to. maintain animal heat, 1t should be given as late at night as possible, as during the night the temperature is apt to be lower than in the daytime. Poultry, especially should have whole corn just before going to roost, and as soon as possible in the morning. It will make hens "prate" more quickly than any other grain. Corn slightly burned is nearly as good for egg production as wheat, and better when the weather is very cold.

-The object of respiration is to convert venous into arterial blood. It is done by bringing it to the surface so that carbon dioxide may be exhaled and oxygen absorbed.
