He appeared to be a man of education, dressed well and had plenty of money. He made riends fast and seemed to be a great favorite with the gentle sex. He attended the skating rink every evening and while there made the acquaintance of Mrs. Robert lbertson,the wife of a well-known carriage manufecturer doing business on South Main street, Raddi and Mrs. Albertson was seen quite often skating together and this fact coming to the ears of the husband he asked his wife not to frequent the rink. She continued to go, however. One night last week the husband followed his wife and found her at the rink in Raddi's company. He requested her to go home with him, but she refused. That night there was a quarrol between man and wife. On Thursday morning Raddi left for New York. On Friday, while Mr. Albertson
