To Dyspeptics.

The most common signs of Dyspepsia, or Indigestion, are an oppression at the stomach, nausea, flatulency, water-brash, heart-burn, vomiting, loss of appetite, and constipation. Dyspeptic patients suffer untold miseries, bodily and mental. They should stimulate the digestion, and secure regular daily action of the bowels, by the use of moderate doses of

Ayer's Pills.

After the bowels are regulated, one of these Pills, taken each day after dinner, is usually all that is required to complete the cure.

AYER'S PILLS are sugar-coated and purely vegetable—a pleasant, entirely safe, and reliable medicine for the cure of all disorders of the stomach and bowels. They are the best of all purgatives for family use.

PISO'S CURE FOR CURES WHERE ALL ELSE FAILS. Best Cough Syrup. Tastes good. Use in time. Sold by druggists. CONSUMPTION

Magnetic Cures. DR. BILL is the first man to discover the philosophical principle that all nervous pains, aches, and debility should be treated from the "brain battery," from whence emanates all nervous force and will power. All other forms of treatment for nervous disorders are failures. Every person who suffers from nervousness knows this, and that medicines only palliate, but never cure. These appliances are magnetic, and differ from all others in the market which are electric. Magnetism is the life of man. Their curative qualities are wonderful in all nervous complaints. The Roman physicians practiced magnetic treatment 1,000 years ago in nervous diseases, but did not treat from the "brain battery." Dr. BILL has made this great discovery the only sure cure for Nervous Headache, Rheumatism, Neuralgia, Liver and Kidney Complaints, Paralysis, Gout, Spinal weakness, Dyspepsia, Constipation, Cold Limbs and Feet, and General Debility. Miraculous cures noted every day. The Magnetic Brush lifts nails, and the only article of the kind invented. It is the greatest curative agent known and used in a "brush bath" imparting new vigor, replenishes the debilitated system, and creates warmth. In chronic cases our Magnetic Bands, Belts and Pads should be used. The brushes are warranted to do the work or money refunded. Send for circular and testimonials. By giving a description of nervous trouble, we will give advice and direct them how to use our appliances. BILL MEDICAL MAGNETIC APPLIANCE COMPANY, Lock Box 58, Washington, D. C. jan. 21, 1885—tf.

AN INTERESTING LETTER

From Mr. Harry W. Olmstead, Proofreader of *The Times*.

The following letter is encouraging and worthy of perusal, coming, as it does, from reliable source, unsolicited. It contains facts of great value:

INDIANAPOLIS, Ind., Oct. 12, 1884.

DR. DAVID KENNEDY, *Rondout, N. Y.*

DEAR SIR—For ten years I have been a sufferer from disease of the kidneys, at times so much so as to make life a burden. During this time several of the best physicians in Indiana have treated me with little or no success, until I had almost despaired of relief. I then tried several advertised remedies, but nothing produced the desired result until a friend who had been relieved induced me to give DR. DAVID KENNEDY'S FAVORITE REMEDY a trial. I did so. After taking one bottle I began to experience relief. I took another and was charmed with the result. In all, I have taken four bottles, and can truly say I feel like a new man. I am confident I am entirely cured, as it has been several months since I took the last medicine, and there is no indication of a return of the disease. I have recommended your remedy to several suffering friends who have also been relieved. I write this to return my sincere thanks to you for the cure which has been effected in my case, and also desire to say I think suffering humanity owes you a debt of gratitude for your wonderful scientific discovery. I shall do all that in me lies to let all sufferers know where they may find relief, and thereby in some measure remunerate you for the good you have done me.

Wishing you long life and prosperity, and thanking you for prolonging my life, I am HARRY W. OLMSTEAD.

Dr. Kennedy, Rondout, N. Y., assures the public, by a reputation which he cannot afford to forfeit or imperil, that the "Favorite Remedy" does invigorate the blood, cures Liver, Kidney and Bladder complaints, as well as those diseases and weaknesses peculiar to females. Your druggist has it; if not send One Dollar to Dr. David Kennedy, Rondout, N. Y.

Take Warning.

At this season of the year when so many people become subject to attacks of bilious ness, kidney troubles, constipation and all the list of troubles that arise from being housed up, or that are brought on by colds and exposure, it is the part of prudence to take warning from the experience of others and provide ourselves with the means of escape from similar troubles. So wide is the fame of Kidney Wort, that great remedy for all kidney and liver troubles, that almost every one knows of its great virtue for such cases. It should be kept in every household ready for an emergency.

FARMERS' COLUMN.

Early Peas.

There are some vegetables which we can buy in market as good as we can grow at home. Peas are not one of them. We get peas from the South, and they are very fair, but lack the delicacy of those from our own garden. It is desirable, therefore, to get peas as early as possible. The sweet, wrinkled peas are not, and never will be, as hardy as the smooth varieties. The same is true of sweet corn; the extra early kinds are not as sweet as the later varieties; but, like the peas, they are very good until we get something better. The small, hardy varieties of peas, like the Early Kent, will stand rough treatment. They can be sown the moment the frost is out of the surface soil, and after they are up, it is seldom, if ever, that they are seriously injured by frost. A warm, sandy soil is desirable, with a southern exposure, and if on the eastern or southern side of a wall or board fence or building, so much the better. The soil can hardly be too rich. It is a mistake to spade fine, light, sandy land deep for early peas. The surface soil, which has been exposed to the sun is many degrees warmer than the soil below, which has only just thawed. The later varieties, planted when the soil is dry and warm, can be covered with two, three, four, or even five inches of soil, deeper or shallower as the soil is heavy or light; but the small, early peas should rarely be covered over two inches deep, and if the soil is wet and cold, an inch is sufficient. As soon as the peas appear, draw some earth up to the row with a hoe or rake, and if the soil is dry and light, half an inch or so of soil may be pulled between or over the peas. If the soil is moist and heavy, it may be well to scatter a little stable manure on the side and on the top of the row. A board placed edgewise on the north side of the row will reflect the rays of the sun.

Another method of hastening early peas is to soak them in warm water for twenty-four hours and then mix them with moss or light sand and keep them warm and moist until they sprout. Then sow them in the ordinary way—using plenty of seed. We have sown them when sprouted an inch long, but it is better, if the weather is not suitable, to check the growth of the peas in the house by placing them in a cellar or other cold place. If the land is rich, thick planting is desirable, as it favors early maturity. We make the row three or four inches wide and deep, and sow the peas in the rows, for their whole width, almost as thick as they will lie without touching each other.—*Am. Agriculturist.*

A Startling Discovery.

Mr. Wm. Johnson, of Huron, Dak., writes that his wife had been troubled with acute Bronchitis for many years, and that all remedies tried gave no permanent relief, until he procured a bottle of Dr. King's New Discovery for Consumption, Coughs, and Colds, which had a magical effect, and produced a permanent cure. It is guaranteed to cure all Diseases of Throat, Lungs, or Bronchial Tubes.

What Variety of Potatoes to Plant.

If you want potatoes as early as possible, select the best early potato you can find. The genuine Early Rose is good enough and early enough, The Beauty of Hebron is equally good, and there are a dozen other varieties any one of which, if you happen to have it, will ripen about as early, and give satisfaction. If any one tells you he has a potato that will ripen two weeks earlier than the Rose or the Beauty of Hebron, and yield as much again per acre, tell him that it is a most valuable variety, and that he had better plant all he has got, and not to sell a tuber to anyone else for seed. For early potatoes, plant in good, rich, mellow soil as soon as the frost is out of the ground. You can hardly plant too early. Until the plants appear, severe frost will not hurt them. When the plants are up, a frost will sometimes destroy the crop, or at any rate, seriously retard or injure it. A piece of paper, or a light covering of soil will save the plant. For winter potatoes, select a variety that possesses at least four points, viz: quality, vigor, a good keeper, and productiveness.

When the potato bugs first appeare', everybody planted early varieties of potatoes, in hopes of getting ahead of the bugs. Now that we know how to keep the bugs in check, we can plant later kinds. As a rule, the varieties cannot yield as well as the later sorts, which have a longer season to grow in; or if they do in exceptional cases, it is probably owing to unusual richness of land. On ordinary land, other things being equal, a late variety will yield better, and keep better (the next spring), than the early varieties. A late variety of potato should be planted as early as the soil can be got in to good condition. If you do not wish to plant early—or perhaps we had better say, if you are behind with your work, and cannot plant as early as you wish, plant an earlier variety. The later you plant, the earlier should be the variety planted. The same principal, or rule as to planting, applies to cabbages, cauliflowers, tomatoes, cucumbers, melons, turnips, corn, beans, peas, etc. The earlier the variety, that is, the quicker it matures, the later can it be sown or planted.—*Am. Agriculturist.*

The Care of Children.

BOSTON, MASS.—A leading medical journal thinks it is about time mothers should know how seriously the health of children is imperilled by the use of preparations containing morphia and opium, and given for the cure of colds and coughs. The chemists of the Brooklyn Board of Health, Otto Grothe, Ph. D., a graduate of the University of Eisl, Germany, certifies officially that recently a harmless and yet effective article for such complaints has come to his notice. He refers to the newly discovered Red Star Cough Cure, which he found purely vegetable.

PATENTS

obtained for Inventors in the United States Canada and Europe, at reduced rates. With our principal office located in Washington, directly opposite the United States Patent Office, we are able to attend to all patent business with greater promptness and despatch and at less cost than other patent attorneys who are at a distance from Washington, and who have, therefore, to employ "associate attorneys." We make preliminary examinations and furnish opinions as to patentability, free of charge, and all who are interested in new inventions and patents are invited to send for a copy of our "Guide for obtaining Patents," which is sent free to any address, and contains complete instructions how to obtain patents and other valuable matter. We refer to the German-American National Bank Washington, D. C.; the Royal Swedish, Norwegian and Danish Legations, at Washington; Hon. Jos. Casey, late Chief Justice U. S. Court of Claims; to the Officials of the U. S. Patent Office, and to Senators and Members of Congress from every State.

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY

By reason of its central position and close relation to all principal lines East and West, at intermediate points, constitutes the most important mid-continental link in that system of through transportation which invites and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the favorite and best route to and from points East, Northeast and Southeast, and corresponding points West, Northwest and Southwest.

The Rock Island system includes in its main line and branches, Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Atchison, Fenton, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns, villages and stations.

THE GREAT ROCK ISLAND ROUTE

Guarantees its patrons that sense of personal security afforded by a solid, thoroughly ballasted road-bed; smooth tracks of continuous steel rail; substantially built culverts and bridges; rolling stock as near perfection as human skill can make it; the safety appliances of patent buffers, platforms and air-brakes; and that exacting discipline which governs the practical operation of all its trains. Other specialties of the route are Transfers at all connecting points in Union Depots, and the unsurpassed comforts and luxuries of its Passenger Equipment.

The Fast Express Trains between Chicago and the Missouri River are composed of well ventilated, finely upholstered Day Coaches, Magnificent Pullman Palace Sleeping Cars, Elegant Reclining Chairs, in which elaborately cooked meals are leisurely eaten. "Good Digestion waiting on Appetite, and Health on both." Between Chicago and Kansas City and Atchison, are also run the Celebrated Reclining Chair Cars.

THE FAMOUS ALBERT LEA ROUTE

Is the direct and favorite line between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for all points in the Territories and British Provinces. Over this route, Fast Express Trains are run to the watering places, summer resorts, picturesque localities, and hunting and fishing grounds of Iowa and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of interior Dakota.

Still another DIRECT LINE, via Seneca and Kankakee, has been opened between Newport News, Richmond, Cincinnati, Indianapolis, and Lafayette and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.
