OF BAYLOR UNIVERSITY. "Hudependence, Texas, Sept. 25, 1882.

Ayer's Hair Vigor

Has been used in my household for three

1st. To prevent falling out of the hair. 2d. To prevent too rapid chauge of color. 5d. As a dressing.

It has given entire satisfaction in every Instance. Yours respectfully, WM. CAREY CRANE."

AVER'S HAIR VIGOR is entirely free from uncleanly, dangerous, or injurious substances. It prevents the hair from turning gray, restores gray hair to its original color, prevents baldness, preserves the hair and promotes its growth, cures dandruff and all diseases of the hair and scalp, and is, at the same time, a very superior and desirable dressing.

Feeding and Care of Sheep. The better sheep are cared for, the larger the profit to the owner. The flock-maste should understand the relative value of grasses, and the varieties of winter feed, and insteam a sort of instinctive judgment in matters relating to sheep. Taking into account the various conditions of food climate, and conformation of country, he will have to miect the breeds best adapted to his requirements. Ordinary flocks may No. 105 North Eighth Street. Ing felends who have also been relieved. Merinos are poor mutton sheep, and are bred mostly for their five wool-They are thrifty and hardy, and will pick ip a living on scanty pastures. The more active breeds of sheep will not endure cless confinement in winter without injury. It is well to avoid, as much as possible, the driving of sheep along dusty roads. The

In Philadelphia recently at a coroner's inquest over the body of a child, the jury returned a verdict that death was raused returned a verified that death was raused by the administration of a patent cough syrup, containing morphia. Dr. Sam'l K. Cox, of Washington, states that not one eaugh medicane in ten is free from this objection. After careful analysis and practical tests be endorses Red Star Cough Cure as being purely vegetable, absolutely free from opistes, poissus and narce-ties. He regards it as a most happy and valuable discovery. discovery.

New varieties of nats are constantly in roduced. They have a run of popularity for a few years, and some other candidate takes their place. The truth of the matter a this : Oats grown in a northern locality are better than these grown fariler south. The true plan, no matter what variety you elect, is to get the oats from as far north as sonvenient, and renew the seed every two or three years, Oats differ from barley in toing well on sod land -or on almost any land, from black muck to the heaviest clay lats are grown so easily that they are not oppreciated. They are a profitable and as-ful crop. The straw is good, and the grain always in demand in market, and ELY stways wanted at home. No farmer over hes more cats than he knows what to do with.
