Carbon Advocate 8 Months For \$1.65.

The American Agriculturist has just is sued a magnificent stipple style line por trait of General Grant, executed by one o the very best artists in the country. The great warrior is sitting in his easy chair in his new famous library; the expression o his countenance is exceedingly life like. and the whole picture is grand and striking in appearance, far surpassing any previous likeness of General Grant. Its great merit is due to the fact that it is from General Grant's last citting, prior to the fingl pros tration , that is, it presents him as a picture of health just before the fatal disease com pelled him to withdraw from the world Other portraits, while they present him in health, do not show his leatures and general appearance at a late period.

The regular price of the American Ag riculturist is \$1.50 per year. We have made arrangements with the publishers, whereby we are enabled to send, post frea, in a tube specially made for the purpose, this partrait of General Grant, the American Agricultur ist from now, until the 1st of December (8 months), and the Casson Apvocats all for The portrait alone sells for \$1.00 in New
