HAPPY CHILDREN.

How to Make Them So -Keep Them in Health and They will take care of the Rest

The j-y of every well regulated house hold comes chiefly from the children. Thousands of affectionate parents do not take care of their children. Through ignorance more than culpable neglect they suffer them to fall sick and die, when knowledge might have saved them to love and home. Dr. David Kennedy offers his "Payorite Benedy" as emphatically a medicing for the children—gentle in its action, containing no harmful incredients whatever, going straight to the blood, which when impure, is the seat and source of Hwhen impure, is the seat and source of Il-sense. "Favorite Remedy" is the friend of childhood and should be found in every survery in the land. Keep it in your home for your children's sake, as well as for your costs. We are not in the habit of puffing any sort of patent medicines in our columns but we happen to know Dr. David Ken-nedy, of Rondout, N. And if a word of ours will persuade any-body to use it and thus find relief from suffering no protessional eduquette shall hinder us from saying that word.
