The American consul at Callao, Peru, has notified the State department that the several suits against the estate of Charles Courtright have been decided in favor of the defendant. Charles Courtright right was an American merchant in Callao, who died several years ago intestate, leaving no clue to his family connections, except some letters from New York and Brooklyn from five married sisters, whose baptismal names only were given. The estate amounted to \$50,000, and through the efforts of the postmaster at New York the five sisters were found. Meanwhile many claims, supposed to be fictitious, were filed against the estate. These claims have now been set aside by the court, and the five sites countries to the five sisters where the states are the set of the sisters where the sister that the state of the sister that the sister that

The acting Secretary of the Treasury yesterday appointed twenty female clerks to assist in the count of the paper manufactured at the mills in Philladelphia for printing internal revenue stamps, thus increasing the force engaged in that work to forty-five. It is expected to complete printing internal to increasing the force engaged in that work increasing the force engaged in that work to forty-five. It is expected to complete the count by December. The increase of force was due to the delay caused by the and listened to the goat-colored angel, who warbled:

is that the woman collects enough in the morning to have a glorious spree at night. It is a hard thing to say, but whenever you see a woman begging in the street with a child in her arms the chances are ten to one that she is a fraud and that the child is borrowed.

There has been quite a stir in theatrical circles regarding the appearance of a Miss Moore, whom the critics seemed department or report that he had not come. with her 150 war-vessels of all soris, thirteen of them from-clads, could unquestionably make a gallant fight even against so superior a foe as Germany, for the fighting would be mainly on the sea, where Germany's peculiar strength could not be exerted; yet the issue would not be doubtful, and she could ill afford, in her broken, improver that he had not experience against seals of the most eminent to report that he had not come. HIGH GRADE BONE FERTILIZERS.

We take pleasure in again calling the attention of farmers to our High Grade Pertillizers. It being eight years age this spring since they were first offered to consumers under their present form; and from that time until now there has been an increasing demand for them, which is a far better testimonial to us than any letters of praise could be, slithough we do not want for these latter we are in receipt of many.

THEIR CHARACTER.

The main characteristic of our fertilizers is that they are prepared with particular reference to the caor, and not to a chemical analysis; the latter does very well in its place, and we believe in chemistry thoroughly, but consumers are too often deceived with the idea that a emical analysis is the main thing

What they really Want is a Good, Big Crop. THEY ARE UNIFORM.

The goods we manufacture are uniform in composition, and are only varied in proportions, veer after year, as we believe it to an advantage to the crop. We have such large applies of Bone, Blood, etc., from the slaughtering establishments of New York, that our fertilizers are largely composed of these, and there is not that inducement for us to use cheaper material, that there might be, if we did not have this material.

BONE FERTILIZERS.

Our products are of some mans, because we believe that is the most satisfactory source of phosphoric acid, and the large amount of animal matter our fertilizers contain makes them especially valuable in what may be called the off or poor seasons. Some years it is noticed that simest any fertilizer will give fairly good results, but we find the most favorable comparisons for our products are in the poor years.

Royal Bone Phosphate.

The cheapest, first-class, FERTILIZER sold in the State.
