at the Exchange Hotel, in this borough,
on the 30th ult., it was found
that a balance of about \$400 after paying
all expenses remained to the credit of
the Society, from the proceeds of the
last fair, showing that it was a success
notwithstanding the very unpleasant
weather which prevailed during the
week of the exhibition. This is no
doubt a matter of satisfaction to the
shareholders, who feared that they
might be called upon for a dividend to
meet a loss on that occasion. Good
management always tells.

lecture at the County Institute, in the
County Hall, on Tuesday evening, Dec.
8th. Don't fail to hear this great Orator.
His calls last season numbered
several hundred more than were days
in the year. Notice what is said of him:
"It is too eloquent to be reported on the
spot, for his lips were often so fascinating
that I could not get a word out of my
mouth. His eloquence has the magic
power of melting his hearers to tears or
convulsing their bodies with laughter."

Matilda Ross of Chicago, Prof. E. O.
Lyte of the Millersville State Normal
School; Supr. T. M. Ballet of Reading,
Miss Elizabeth Lloyd, of Doylestown.
The recent Act of Assembly makes it
compulsory for all teachers to close
their schools the entire week of the
County Institute, therefore a full attend-
ance of the teachers of the County will be
expected at all the sessions of the In-
stitute. A very interesting and instructive
programme will be presented for the
week which will be mailed to the
teachers and directors a week or two
before the Institute. It is also hoped
that all friends of education will give
the cause their hearty support.

The Coal Trade.
—The Philadelphia Ledger, of the 30th
ult., commenting on the condition of
the coal trade, says: The anthracite
coal trade season of 1885 is drawing to a
close. On Saturday the Delaware and
Easton Canal suspended operations,
with complaints from the boatmen of
the shortness and dullness of the season.
The New York State canal will
be closed to navigation to-night, on the
12th of December water will be drawn
from the canals of the Lehigh Naviga-
tion Company; and the Schuylkill Canal
will wind up with its year's business
about the same date. The past week
has given strong admonition that winter
is upon us, and soon navigation upon
the lakes, rivers and inland streams will
generally cease. Vessels have been
very scarce at Port Richmond for the
past several weeks, and those arriving
were immediately despatched with
cargoes of anthracite coal consigned to
Eastern and Sound ports and Southward.

We learn from a good source that a large
contract was taken at New York by a
Philadelphia company last week at the
old price.

Three Peculiarities
Hood's Sarsaparilla, the great blood purifier

three peculiarities, namely:

3d: The process by which the active
medicinal properties are secured.

The result is a medicine of unusual strength
and curative power, which effects cures here-
tofore unobtainable. These peculiarities being
