-Mons. Pasteur is in favor of the impulsory inoculation of all dogs. It would also be a good idea to compel the ino mixtion of all married men. That would greatly please the wives of those husbands who go mad se often while at

into Penn and Towamensing township, and then really was crowned, what we may call, the enduring settlement of CARBON COUNTY.

Gradually the frontier population exended northward civilization each year necroaching upon and effacing a little nore of the great wilderness Agriculcople were in comfortable circumstan-(descending navigation) which wa com-menced in 1818. The task which they undertook, that of making the Lehigh In 1820 the first anthracite coal was

sent to market, the whole quantity be-ing three hundred and sixty-five tons, which completely glutted the Philadel-phia market, and was with difficulty disposed of during the year. It was sold for \$21.00 per ton. The boats used in this artificial system of navigation, commonly called "Arks," were simply great boxes, from sixteen to eighteen great boxes, from sixteen to eighteen feet wide and from twenty to twenty-five feet long and were linked together almost like railroad cars; the steering was done with long cars, as upon a raft. None of the boats made more than one trip; at Philadelphia they (the boats) were broken up and the planks were sold as lumber, while the spikes, hinges and other iron were returned to Mauch Chunk. In 1827—nine years later—the Chunk. In 1827—nine years later—the canal, or the improved navigation, called the Slack-water or Ascending Natviga-tion of the Lehigh, was commenced, vigorously prosecuted, and completed in two years. At present this company owns land which is estimated to contain, after allowing for faults in mining and waste, the enormous quantity of six hundred million tons of coal.

chances to one against its reaching mar-ket in safety. Now, there are hundreds of canal boats being loaded and as many more awaiting their turn in a day, whilst seemingly, almost endless trains make their way through the valley with their preclous freight rumbling, and shrieking songs and cries of triumph, as if rejoicing at the wondrous things which had been accomplished in so short a time by brain and muscle.

In 1701 coal was first accidentally discovered on the automatic States Mr.

covered on the summit of Sharp Mt., now Summit Hill) by Philip Ginter, a nunter, who observed it adhering to the oots of a tree which had been blown down as he was tramping over the mountain in search of game. He care-

Carbon county was taken from Northriver into nearly two equal parts. The county comprises the most mountainous region on the Lehigh river above the rugged and wild in appearance, and poorly adapted to agricultural purposes, but abounding in mineral wealth, in extensive forests of pine-lumber and in water power. The first settlement was made by the Moravian missionaries in the year 1746, and was established as a home for the Mohegan Indians, which

conference with the dusky dwellers by the Malioning. The land-120 acreswas bought, and a town laid out upon it which was called Gnaden-Hutten, meaning "Tents of Grace" or, more literally translated, "Mercy Hans." The congregation, we are told, numbered five innered souls. Each Indian fam-

now used exclusively as a pleasure road, and is the great attraction of Mauch Chunk.

Mauch Chunk is the County Seat and owes it onigin to the enterprise of the Lehigh Coul and Navigation Company.

Lehigh Coul and Navigation Company. contributed so greatly to the enrichment of the whole valley. The settlement, when about one year old, contained forty buildings for different purposes.—a saw-mill, grist-mill, smitheries, work shops, &c. Nicholas Brink came from Philadelphia, as company steward, in 1818. His wife was the first woman who came to Mauch Chunk. They brought four children—three sons and one daughter. The daughter is Mrs. John Painter, who is the only survivor of the family. There was another child born to them, which was named in honcontributed so greatly to the enrichment he laborers in quite a demonstrative truth for a foundation, and neither has with pine torches, plenty of what they called good, old, pure whisky was drank, and the noise and dancing were so great that it seemed as if the very tops of the pines had caught the infection and kept time with it. This boy grew to manhood, and at the time of his death, in the case; medical studies and at the time of his death, in the case; medical studies are considered as in the case and brow. "We cannot do anything for you new," said Giles; "but Prof. Copple, of our college funding he had a profit of the case." time with it. This boy grew to man-hood, and at the time of his death, in 1877, was an engineer at Summit Hill.

which we are concerned. My limit will not admit of giving a thorough ac-count of this interesting incident. Late in the evening, of the 24th of November, the mission house was attacked by the Indians, who were allies of the French, and burned it to the ground, eleven of the inmates perishing. no effort was made to establish a village until the construction of the canal, when Colonel Weiss, (if I am not mistaken. alarm.

very serious manner, occasionally glanctime to see him the next day.

The day following, young Giles, with several others, went to visit him, and alarm. grief of seeing his wife (Sensaman) con-sumed by the flames. Sister Partsh hid herself behind a large tree on an eleva-tion, near the scene; and from there she saw Sister Sensaman, surrounded by the flames, standing with floided hands, and heard her calling out ""Tis all well, dear Saviour, I expected nothing else."

siab in our Gnaden-Hutten grave yard, placed there in 1788, and a small, white obelisk, on a sandstope, erected at a more recent date, tell in brief the sad of note carried on and worked by enterprising men. Namely: The Emery Wheel Works, (the only one of the kind in the valley). A large foundry, two planing mills, &c., which are evidences of progress, and improvements. serves the names of those who fell as victims to savage bate.

The second settlement was comprised of people who made a permanent home here, developed the resources of the county and ultimately, as a natural redences of progress, and improvements are constantly going on. Since my sub-ject has already exceeded its limits, I will only add yet that the latest and sult of their thrift and energy, brought about the organization of Carbon coun-ty. About 1804, a number of enter-prising men, who had the hardthood to take up the work of making homes for thomselves in the forest, began to come is our Aryan C. L. S. C.

BY EMERSON RENNETT.

It is a well-established fact that the mind has a direct and important action

During the prevalence of an epidemic returned the questioner, with solemn ces. Most important among all of the settlements, were those which were planted by Josiah White and Erskine Hazard, the leading spirits of the Lehigh Coal and Navigation Company the fell destroyer. We well remember "Why, what do you mean by that—if the fell destroyer. We well remember "Why, what do you mean by that-if when this scourge was last upon us, of I live?" he inquired. hearing several in lividuals spoken of as "Is it best to tell him?" said the indertook, that of making the Lenigh river a navigable stream by artificial freshets, was one which had been attempted several times before, and abandoned as often as being too expensive as well as difficult to be successfully carried the fact, that these same persons rarely "it can alter nothing, you know, Wheat Termont st., Boston, Mass."

The best ten min! Stati the student, in a low tone, addressing his necessary to use any medicine whatever. I am now in lister health, and stronger, the fact, that these same persons rarely "it can alter nothing, you know, Wheat Termont st., Boston, Mass. well as difficult to be successfully carried the fact, that these same persons rarely "it can alter nothing, you know, Wheatlived out the season; while, on the oth- ley, and he may have some preparations er hand, those who seemed to care little to make." about it, and in some cases scoffed at and defied it, were seldom touched by of the graduating class-a very shrewd

the invisible foe. No one can tell what the mind is, nor thing first," observed Wheatley, glanchow it acts upon the body; but we have ling at another student, who was leisureconstant evidence of its presence and ly approaching power, through one of its attributes, the will; and we are sometimes astonished day?" said the new-comer, in a light at its increased force, when stimulated tone, as he neared the group.

the latter may be affected by the former.

In a conversation with a distinguished physician of our acquaintance upon this subject, he related a case of the striking effects of the imagination, or mind upon "Tell him yourself, doctor," said

sionaries and Indians partock of the first fruits of the land and of their toil at a love feast, and gave their thanks to God for the blessings that he had bestowed upon them. Discourses were delivered every Sunday by the missionar-

born to them, which was named in honor of the three pioneer proprietors Josiah White Erskine Hazard George F.

J. Brink. As this was the first birth
at the settlement, it was celebrated by truth for a foundation, and neither has first attack of delirium.

finally agreed that a perfectly healthy dy on a patient not far from her subject should be selected and put un-Of the borough of Lehighton, the der the effects of imagination.

Southwestern part was occupied by the Gnaden-Hutten mission. The original town plot was part of a tract of land er. who occasionally came into town to that you are well covered. Do not applied that you are well covered.

proviously kept by his father. It being previously kept by his father. It being lusion, to be struck with his altered off in great marm, recing very transfer to first tavern in the vicinity and was on the site of the present Exchange beginning to affect him—an finally to the first tannery was built on beginning to affect him—an finally to the conditional beginning to af with this understanding they went felt and assured him he was very ill, and predict his death at a given time.

tended be should. "Are you married?" So much force of imagination.

STERT DESCRIPTION OF PLAIN AND FAMILY

Scrofula

Entirely Cured .

I was troubled with Scrofulous Force

Some months ago I was troubled with Scrotulous Sores on my leg. The lumb was badly swollen and inflamed hand the sores discharged large quantities of often-sive matter. Every remedy failed until I used Ayer's Sarsaparilla By taking three bottles of this medicine the sores have been healed, and my health is restored. I am grateful for the good it has done me.—Mrs. Ann O'Brian, 158 Sullivan st., New York.

'Tell him yourself, doctor," said
