

**A Creaking Hinge**

It creaks and rattles, until oil is applied, a for which it moves easily. When the joints, or hinges, of the body are stiffened and creaking, it is a sign of rheumatism, and should be treated without delay. Ayer's Sarsaparilla, by its action on the blood, relieves this condition, and restores the joints to good working order.

Ayer's Sarsaparilla has effected, in our city, many most remarkable cures, in cases of rheumatism, neuralgia, and other most obstinate affections. We are not, however, in a position to give names of patients, as we have no record of the names of those who have been cured by taking this medicine. In any case it has worked wonders, relieving its victims of their sufferings.

**Rheumatism,**

after being troubled with it for years. In fact, all kinds of rheumatism, arising from impure blood, have been cured by the use of Ayer's Sarsaparilla. It is a most powerful purifier of the blood, and is the only medicine that will cure it. It is sold by all druggists.

Ayer's Sarsaparilla cured me of Gonorrhea and Rheumatism, when nothing else would. It has eradicated every trace of disease from my system, and I am now perfectly restored to health. J. Freeman, Independence, Va.

**Ayer's Sarsaparilla,**  
Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.  
Sold by all Druggists. Price, 25 cents per bottle.

**On the Farm in the South.**  
A Fall in the South. Clerks, Store-keepers, Mechanics, Laborers, and People of every vocation, can purchase a farm in the South and not leave their present employment until they have paid for the land and have had it put in a paying condition. Five acres in grapes will yield a net profit of \$1000.00 per year. Northern men are now doing this.

Why tell on from year to year without a future. Save a little every month and make this sure thing. There is no risk in taking into corporations and loan associations and saving banks. Try this year, you will help you save the money for the sake of a home of your own. For further information, address,  
**Frank Woodward, Supt.,**  
Northern Co-operative Colony,  
Raleigh, N. C. mar12-86

**A Land of Grapes, Peaches, Figs, Pomgranates.**  
These southern fruits, and large tracts of land, should correspond at once with the well-regulated earnings of Southern Pine Health Resort.

The lightest known point in the Long Leaf Pine belt of the South. Free from malaria. Many Southern people are now building winter residences at the Pines. Reference is given to H. E. Parker, Ed. **FARMERS COLUMN.**

**Attention! Farmers!**

We respectfully request the farmers who may have any kind of interest under this head to send in, thereby making this department more of a "Farmers' Column." All articles not in the shape of advertisements inserted free of charge.—ED. ADVOCATE.

**Barley—Quantity of Seed per Acre.**  
Four-rowed and six-rowed barley are one and the same thing. In fact, I suppose there is no four-rowed barley. Barley is either two-rowed or six-rowed. Two-rowed barley is later and heavier than the six-rowed. The six-rowed barley will germinate in "mating" quicker than the two-rowed, and matures will pay more for it on this account.

We usually sow two bushels of barley per acre. We drill it in, and at the same time drill in with the seed two hundred pounds of superphosphate per acre. With us, superphosphate drilled in with the seed pays well on barley, oats, corn and potatoes. There are a score, possibly a hundred, good brands of superphosphate. Look at the analysis, and if you do not understand it, study the matter. It makes no difference whether the soluble phosphoric acid is obtained from rock phosphate or from bones. In my own case, I buy the phosphate that will give us the "most soluble phosphoric acid" at the least cost.

Barley does not do well on old sod land. It is sometimes sown to advantage on a one year old clover sward. As a rule, winter wheat does better after barley than after oats; mainly because the barley is harvested earlier, and there is more time to prepare the land properly for wheat. If you can not get barley in before the first of May, better sow oats, or plant corn, potatoes or beans.—AM. AGRICULTURIST.

**A Remarkable Escape.**  
Mrs. Mary A. Dailor, of Tomkhanock, Pa., was afflicted for six years with asthma and bronchitis, during which time the best physicians could give no relief. Her life was despaired of, until in last October she procured a bottle of Dr. King's New Discovery, which immediately relieved her, and by continuing its use for a short time she was completely cured, gaining in flesh 50 lbs. in a few months.

Free trial bottles of this certain cure of all throat and lung diseases, at T. D. Thomas' drug store. Large size \$1.

**Branding Cattle.**  
The subject of branding cattle at the West can not interest all Eastern readers. It is a matter of importance, for it is the only method of establishing title to four-footed property. Every stock owner has his brand, which is reg. his name and is well known. It is an immense asset, as large as a frying pan, and is burned into the shoulder of the animal.

When the latter changes hands, the seller's brand is rent, i. e. turned upside-down and burned on the hip, and the purchaser puts his own brand on the shoulder. Consequently, if an animal is as much as to pass through many hands, he begins to look like a Herald war-mam.

Every frontiersman always notes the brands upon all the stock that he meets. If you should see one of them if he had seen a red steer with a white patch on his right eye, drenched with a dot in a circle and two notches in his left ear, he would tell you he saw him yesterday forenoon with three other cattle of the same herd, near such and such a place, and so you would probably find him there.

We discovered, however, that there are ways that are dark on the prairie, as well as in cities. It seems to be generally understood that a promising steer or horse that might find its way into the herd of a ranchman, other than the owner, would be apt to be found to have acquired a new brand in some mysterious manner.

It was ascertained that a hot frying-pan, placed over an old brand, would obliterate it so as to render identification impossible. Croton oil, we were told, was also sometimes used for the same purpose by some cattlemen who did not shrink from stealing another's property.

Geo. W. WINGATE in AM. AGRICULTURIST.

**Summer Feeding of Sheep.**  
Some very good advice is given to keepers of summer-lucks, give their sheep a little hay or alfalfa. It is only a very little, and that of very sweet hay. A still smaller number of fine lambs and choice rams a daily ration of grain, generally consisting of wheat bran and oats mixed in about equal portions. It is claimed that this dry-feeding in summer stimulates the animals' appetites, acts as a corrective of acidity and flatulency, and a general tonic to the system; this more especially when the weather is exceptionally wet and the grass starchy. To the breeders of high-priced standard sheep there is undoubtedly much force in this argument, they find profit in the course now advocated; and it affords no just ground for the serious charge of "starving."—AM. AGRICULTURIST.

**Waiting for a Train.**  
A challenge is offered to any one who can produce a case of torpid liver that will not succumb to the influence of Simmons' Liver Regulator, taken regularly by direction.

—Every time I borrow a newspaper I do a very small act.

—Every time I buy an article I am supporting the manufacturer or producer.

Prof. Chas. F. Williams, Ph. D., of Philadelphia, says otherwise in neither morphine, opium nor alcohol in Red Star Cough Cure. Price, twenty-five cents a bottle.

**WAKE SIMMONS LIVER REGULATOR**

For all Diseases of the Liver, Kidneys, Stomach and Spleen.

This purely vegetable preparation, now so celebrated as a Family Medicine, originated in the South in 1828. It acts gently on the Bowels and Kidneys and corrects the action of the Liver, and is, therefore, the best preparatory medicine, whatever the disease may prove to be. In all common diseases it will, unassisted by any other medicine, effect a speedy cure.

The Regulator is safe to administer in any condition of the system, and under no circumstances can it do harm. It will invigorate the system, and is a most valuable remedy in all cases of indigestion, and generally to tone up the system. The dose is small, not unpleasant, and is never injurious.

No loss of time, no interruption of business, no stoppage of any kind, and no suffering, while taking the Regulator.

Children complaining of Colic, Headache, or Stomach, a teaspoonful or more will give relief.

If taken occasionally by patients exposed to MALARIA, it will expel the poison and protect them from future attacks.

**A PHYSICIAN'S OPINION.**  
I have been practicing medicine for twenty years, and have never been able to put on a vegetable compound that would, like Simmons' Liver Regulator, promptly and effectively move the Liver to action, and at the same time aid in expelling the digestive and assimilative powers of the system. L. M. HAYES, M. D., Washington, Ark.
