THE DEMOCRATIC TICKET.

The ticket put in nom nation by the county convention last Monday reflects considerable credit on the county Democracy. The candidates nominated represent fully and impartially the true spirit and principles of the Democratic party. It is but right to expect that the candidates nominated by the late convention will receive the hearty support of all Democrats and the hearty co-operation of the disappointed. In the coming contest it is necessary that we stand together firm and united, all working in political circles, harmoniously for a common cause-the welfare of the Demecracy-and the success of the ticket is assured.
