Orchard and Fruit Garden.

If the plantations, whether of orchard rees or fruit garden, are to be extended the soil should be prepared this fall by spreading a liberal covering of manure. and turning it under as deep as possible Another good plowing at the time of setting the trees, ect. next spring, will bring the soil into excellent condition, and the future success of the trees and

fruit plants, will be well assured. early apples and pears are mature. Assort carefully and pack in crates or half barrels. These fruits ripen up rapidly, and should be so hard when gathered that they will not soften in transit.

Mr. Ed. P. Wells, Thetis P. O., Stevens Co., Wash, Terr, was entirely coled of rhenmatism by the use of St. Jacobs Oil, ile says; "I consider it a wom erful remedy and will always speak a good word for it." Peaches.-Those who have orchar's

ust coming in, will find it difficult to get suitable pickers. If the peach be picked too soon, it will shrivel and not ripen. If picked too late, it will mellow an I decay before it reaches the consumer. If picked in the right condition, it will come into eating," cloring finely, and becoming mellow at the end of five or six days. An experienced picker can tell by the looks of a peach, when it should be picked; others must rely upon the neach-growers' rules: If pressed between the thumb and first and second ingers (the balls of these, not the nails), and it yields to the pressure, it may be picked; if t does not, it is too green. If it is it dented by this pressure, it is already too ripe for distant transportation. The baskets and crutes should be ready well

the name of both consignee and shipper Architect Edmond Legendre, 415 Sutter street, San Francisco, Cal., stat-that having suffered for a long time with a severe cough, and failing to obtain any relief from doctors and the numerous | r parations he took, he became alarmed

Tried Red Star Cough Cure, and one bottle cured him. Cider.-The best cider is made in coo weather from late apples, but eider that will make good vinegar-and this is the most profitible use for all inferior fruit and windfalls-can be made at any time. A hand-mill and pressmay be profitably employed in converting all fruit of this DR. C. T. HORN'S, kind into cider, which can be made into vinegar of good quality.

Drying or Evaporating.—The improved nethod of drying fruit by artificial heat while excluded from light and insects. gives a superor product that will sell enough higher than the common sunfried fruit to warrant those who have arge orchards to look into the merits of the various evaporators or dryers now offered for sale.

Young Trees.-Prune out all useles wood from young trees, and bring their heads into proper shape.

Budding is in season whenever matured buds may be had, and the stock is in proper condition; that is, the bark parts readily from the wood. Peach trees are largely budded this month; also, the pear upon quince stocks; the time depending upon the locality.

Grapes.-In gathering, avoid handling the fruit, as its beauty depends up n he bloom. Scissors which will cut the stem and hold the cluster are most useful.

THE BEST TONIC! WASTING DISEASES and GENERAL DEBILITY. 8334 PERFECTS DIGESTION. DR. EDW In WALLING Surgeon in Chief, National Guard of N. J., writes:

"My attention was called to your Keystone-Malt Whiskey by Mr Laker, Drugnet, of Trenton, and I have used a few bottles with far better effect than any I have bad. I am recommending your article to my practice, and find it very satisfactory."
